

## **National Science Day Celebrations: 2021 Science Fest**

The Staff and students of the Department of Zoology celebrated the National Science Day, 2021 by organizing a Science exhibition . The exhibition included various models and charts prepared by the B.Sc I, II and III year students themselves.

Every year since 1987, National Science Day is celebrated on 28th February to honour our Nobel Laureate and great Indian physicist Sir C.V. Raman. It was on this day in 1928 his discovery of Raman effect came to light at Indian Association for Cultivation of Science, Kolkata. This breakthrough discovery brought the first Nobel prize in Science for our country in 1930. Hence, the nation celebrates it as the National Science Day. National Science Day is celebrated together by students, teachers ,researchers and scientists in various schools, colleges, and various educational and research institutions in India.

This year, **the theme** for the National Science Day 2021 is “Future of STI: Impacts on Education, Skills and Work”.

**The objectives** of this day are:

- To create awareness and explain the significance of science in our daily lives,
- to innervate young minds and to impart scientific spirit in them,
- to motivate the students to try their hands in the field of science.
