

# WORKSHOP ON BASIC CONCEPTS OF PHYSICS

## REPORT ON BASIC CONCEPTS OF PHYSICS

Physics is a natural science that involves the study of matter and its motion through space and time ,along with relative concepts such as energy and force

### THE GENERAL CONCEPTS OF PHYSICS

- \*Newton's laws of motion
- \*Mass;force and weight
- \*Momentum and conservation of energy

Energy, work and their relationship on the above concepts the depth of physics have organised workshop on basic concepts of physics by Agastya Foundation. Students do hands- on experiments on the concepts like surface tension ,bulging of earth concept, light properties and electromagnetic induction concepts.

  
Department of Physics  
Govt. Degree College for Women (A),  
Begumpet, Hyderabad-500 016. (T.S.)
