SURVEY ANALYSIS:

On 28.03.2019 NSS Volunteers from Unit –1 conducted a Survey in the Slums of Indira Nagar, Kurmalguda, Nadergul. Team has interviewed over 100 families out of 300 families residing at slums, and following facts were analyzed from the sample collected-

- a. Most of the people were having their own house but lack of facilities.
- b. Majority of the houses had wash rooms attached however few people are still using common /public washrooms.
- c. One of the major problems faced by this slum is the No Clinic facility. Only in unavoidable circumstances villagers or patients will rush to the doctor. Because the Government clinic/hospital is too far away and people in the slum do not afford doctor fees in Private Nursing homes/Private Hospitals.
- d. Lack of awareness about various schemes introduced by the State or Central Government. No one is taking the task of educating people of slums about various schemes introduced by the Government.
- e. Poor connectivity to slums to nearby towns, there are no proper street lights.
- f. There are no RTC Buses for school students to return to the house and the RTC are rarely operating buses. The auto-men charges are a burden to them.
- g. There is no proper Drainage system in that area and No Tap water facility.
- h. Drinking water problem is high in this area. People depend on private water supply.

Further the survey is suggested to collect the sample of Current/Power usage of villagers, how many children are going to school and dropouts of the schools etc. what type of health problems are facing by the people etc.
