<p>2- Speaker of the Programme</p>	<p>Prof. A. Sadananda Chary, Director, BC . Cell & Professor of Physics, Osmania University, Hyderabad. TOPIC: <i>(Practical Yoga)</i> <i>"The Significance Of Yoga on Personality Development"</i></p>	

Date : 21-06-2020
Time: 9:30 am
Zoom ID: 851 0428 8869
Password: 023648

Hosted by :
Dr. K. Venkateswarlu
Assistant Professor of Sanskrit &
NODAL OFFICER -NSS Hyderabad District

Points addressed in the meeting:

- Origin of yoga.
- Significance of yoga in the present time.
- Benefits of both mental and physical health due to yoga.
- Recommendation of different yoga poses/asanas as per different age groups.
- Influence of yoga in not only India but also in other countries of the world.

BADDHA KONASANA:

Baddha Konasana, Bound Angle Pose, Throne Pose, Butterfly Pose, or Cobbler's Pose, and historically called Bhadrasana, is a seated asana in hatha yoga and modern yoga as exercise. It is suitable as a meditation seat.

PADMASANA:

Lotus position or Padmasana is a cross-legged sitting meditation pose from ancient India, in which each foot is placed on the opposite thigh. It is an ancient asana in yoga, predating hatha yoga, and is widely used for meditation in Hindu, Tantra, Jain, and Buddhist traditions.

CHAKRASANA:

Chakrasana or Urdhva Dhanurasana is an asana in yoga as exercise. It is a backbend and is the first pose of the finishing sequence in Ashtanga Vinyasa Yoga. It gives great flexibility to the spine. In acrobatics and gymnastics this body position is called a bridge.

VAKRASANA:

Vakrasana, Vakra means twist and in yogic language we mean twist of the spine. Vakrasana comes under the category of seated asanas. Here, the upper body is twisted to bring the upper spine parallel to the sides of the yoga mat. Vakrasana is considered a base pose as vakrasana variations can be derived from this pose.

VRIKSHASANA:

Vrikshasana or Tree Pose is a balancing asana. It is one of the very few standing poses in medieval hatha yoga, and remains popular in modern yoga as exercise.

SALABHASANA:

Salabhasana, Shalabhasana, Locust pose, or Grasshopper pose is a reclining back-bending asana in modern yoga as exercise.

Note: Consult a doctor before beginning an exercise regime
Strengthens: Buttocks, Vertebral column, Leg, Arm
Stretches: Thorax, Thigh, Navel, Shoulder.

Dhanurasana:

Dhanurasana, Bow pose, is a backbending asana in hatha yoga and modern yoga as exercise. Wikipedia

Note: Those who suffer from excessive problems of spinal cord and disc should not perform this pose. If you suffer from severe stomach related problems then don't perform this pose. Consult a doctor before beginning an exercise regime

USTRASANA:

Ustrasana, Ushtrasana, or Camel Pose is a kneeling back-bending asana in modern yoga as exercise.

Note: Don't collapse in your neck area. Consult a doctor before beginning an exercise regime.

Strengthens: Human back

Stretches: Quadriceps femoris muscle, Thorax, Abdomen, Thigh, Inguinal region, Ankle, Throat.

NAVASANA:

Navasana, Naukasana, Boat Pose, or Paripurna Navasana is a seated asana in modern yoga as exercise.

APANASANA

Apanasana is a relaxing supine asana often performed at the end of a yoga sequence. Apana is Sanskrit for "downward-moving life force" and asana means "pose" or "posture." As the name implies, this posture is thought to help move toxins downward, through and out of the body.

VYASA POURNIMA CELEBRATIONS

Pledge

I _____ commit to be vigilant and bear in mind at all times, the risk to myself and my colleagues from COVID-19.

I promise to take all necessary precautions that prevent the spread of this deadly virus. I promise to follow and encourage others to follow the key COVID Appropriate Behaviours.

To always wear a mask/ face cover especially when in public places.

To maintain a minimum distance of 6 feet from others.

To wash my hands, frequently and thoroughly with soap and water.

Together we will win this fight against COVID-19.

BADDHA KONASANA:

Baddha Konasana, Bound Angle Pose, Throne Pose, Butterfly Pose, or Cobbler's Pose, and historically called Bhadrasana, is a seated asana in hatha yoga and modern yoga as exercise. It is suitable as a meditation seat.

PADMASANA:

Lotus position or Padmasana is a cross-legged sitting meditation pose from ancient India, in which each foot is placed on the opposite thigh. It is an ancient asana in yoga, predating hatha yoga, and is widely used for meditation in Hindu, Tantra, Jain, and Buddhist traditions.

CHAKRASANA:

Chakrasana or Urdhva Dhanurasana is an asana in yoga as exercise. It is a backbend and is the first pose of the finishing sequence in Ashtanga Vinyasa Yoga. It gives great flexibility to the spine. In acrobatics and gymnastics this body position is called a bridge.

VAKRASANA:

Vakrasana, Vakra means twist and in yogic language we mean twist of the spine. Vakrasana comes under the category of seated asanas. Here, the upper body is twisted to bring the upper spine parallel to the sides of the yoga mat. Vakrasana is considered a base pose as vakrasana variations can be derived from this pose.

VRIKSHASANA:

Vrikshasana or Tree Pose is a balancing asana. It is one of the very few standing poses in medieval hatha yoga, and remains popular in modern yoga as exercise.

SALABHASANA:

Salabhasana, Shalabhasana, Locust pose, or Grasshopper pose is a reclining back-bending asana in modern yoga as exercise.

Note: Consult a doctor before beginning an exercise regime

Strengthens: Buttocks, Vertebral column, Leg, Arm

Stretches: Thorax, Thigh, Navel, Shoulder.

-Activity: International Yoga Day:-
