

WORKSHOPS AND SEMINARS

Department of Microbiology in collaboration with other life science departments has organized 2 day Workshop on Molecular techniques on 13th and 14th February 2019.

National Webinar on Molecular insights on Novel Corona Virus

National webinar was organized by Dept. of Microbiology on 14th May 2020. Resource person Dr.Chand Pasha, Assistant Professor, Nizam College, Osmania University. He has enlightened participants with information about structure, evaluation, pathogenesis and Management of Novel Corona virus. He said that this novel corona virus belongs to the family of corona viruses. It usually infects animals, but due to mutation, it has gained the ability to infect humans. He gave molecular insights on corona virus, its genetic make up, how it infects and how to be safe from this virus. He also discussed that due to continuous mutation in the virus, preparing vaccine was becoming problem. For this program, 213 participants have registered and attended the program online through zoom app. Here in this program, we got participants from of Telangana, Andhra Pradesh, Tamil Nadu and Karnataka. Participants were very happy by the organizers as well as speaker and they gave positive feed back.
