## OVERNMENT DEGREE COLLEGE FOR WOMEN, BEGUMPET Dept. of Biotechnology and Zoology CERTIFICATE COURSE ON MEDICAL CODING

#### Dt.11.11.2022

Seminar on career guidance in medical coding was organized for final year students on 11<sup>th</sup> November 2021 by ARISE FOUNDATION

Inaugural Session: Attended by faculty of Zoology and Biotechnology

#### **Objective:**

For the Students who require a job after graduation to support their family and higher education Medical coding can be a great career choice as qualified healthcare providers are always in high demand. Medical coders fulfill a vital role in health care industry and flexible job timings make it easier.

Arise Foundation conducted an orientation program for final year life Science Students regarding how the entry level medical coders can improve their earning potential with skills and experience and also emphasized the need of Medical coders in Market. The program also included how it eliminates the necessity for electronic medical billing and helps insurance companies and healthcare providers share patient information. and protection of patient records to unauthorized facilities.

The enrolled students were given 45 days Course during zero hours (8:00 to 9:00) in college premises and certificate wasgiven after completion of the course

The Course was started on 26th November 2021, It included -

Medical Terminology: Students are trained to learn to divide and combine difficult medical words to help you understand and meanings of these words. The last lesson on medical terminology teaches students to recognize common medical abbreviations, symbols and plural words. This lesson also discusses special terms such as eponyms, acronyms, homophones, and antonyms.

Documenting Medical Records: Students learn about the role medical records play in a coding specialist's job. They explore the importance of documentation in medical records and learn to recognize the various types of dictation formats. This lesson also discusses how healthcare professionals manage medical records.

Medical ethics: Concepts of ethics, compliance, fraud and abuse and teaches students how these concepts apply to medical coding specialists. Students also learn about the importance of confidentiality when dealing with medical records and discuss insurance audits and the legal concepts.

Diagnostic Coding: Students are introduced to the actual coding process. Students learn about the history of the International Classification of Diseases and the development of the ICD-10-CM coding system. Additionally, students learn to identify main terms and sub terms and describe coding pathways. Students learn to handle abbreviations, cross references, and punctuation when coding, and they gain an introduction to Volumes I and II of the ICD-10-CM.

Students start coding diagnoses. Students learn about infections, parasitic diseases, and neoplasms, as well as how to code them. The Students were also taught Basics of computer, Excel.

**Felicitation to the Faculty** 

No. of students attended:77

### **Outcomes of the Program:**

The Students were trained and got selected in Job drive by Elico health care and 18 students got selected.
