

Ban on the use of plastic for a Plastic-free campus

Colourful Paintings and Notices are displayed in the campus to restrict the use of all types of plastics. In addition to this, the house keeping staff monitors the use of plastic bags in the campus.

The institution organizes various programmes/campaigns to create awareness on the **Hazardous effects of the use of plastic. Students are encouraged to use eco-friendly bags** made of jute, cloth and paper.

Put plastic bags in a plastic bottle before u throw plastic bags.. This will help save the animals who eat them, will be easier for garbage seggregation , will prevent choking of drainage pipes, saves space in the dust bin
