**Concept Note**  
Higher Education plays an important role in the overall development of a nation. It is a crucial segment in every country as highly educated individuals impart a major role in the growth of the

nation with their intellectual capability and skills. In fact, Education forms the building block of a nation. Indeed, it is a means to bring in social transformation. Our Higher Education system is the third largest in the world, next to the United States and China. In the twenty first century Higher Education sector is rapidly growing. Many nations are increasingly recognizing the importance and role of education and there is a phenomenal increase in the equity of its access to different sections in the society. Economic inequality, rapid technological obsolescence and problems of employability make questions of access, quality and relevance extremely complex, especially in a developing nation like India. This conference intends to bring all the esteemed participants in the arena of Higher Education on a common platform to share multitude of its diverse perspectives, real life teaching and learning experiences in the area, policy implementations and intellectual thinking in the broad area of **“New Dimensions in Higher Education in the Post COVID 19: Global Perspective”**. The ideas of the experts on issues concerned with higher education at the local and global levels provide an impetus to the ongoing debate in the field. The conference highlights critical issues, and lessons to be learnt to improve institutional flexibility in Higher Education and to take the valuable inputs from other academicians all over the world. The conference shall ensure that academicians, researchers, policy makers and other experts continue to enlighten the minds by their intense understanding and insights which would further enrich knowledge and enhance learning. The deliberations took place during the Conference on the above mentioned issues. Academicians, NGO Activists and research scholars from various universities, research organizations and NGOs have actively participated in the deliberations. As the conference received huge number of abstracts, the parallel sessions were arranged both in online and offline mode.
