HEALTH CHECK-UP

Date: 26-10-2017 to 28-10-2017

Number of students: 190

The programme was aimed at knowing the health status of students and suggesting them the things to do. The programme was chaired by Rajender Kumar, Principal (FAC) and organised by Deva Vani (Assistant professor of microbiology)(Bhagya club convener).Lavanya(Assistant Professor of Chemistry), Rathna Prabha(Assistant professor of Zoology)and others joined the programme. Approxmately 200 students benefited with this programme. Height, Weight, BMI, Hb%, Blood group tests were done for them.

Health Awareness Programme on Haemoglobin and Anaemia.

An awareness programme was conducted by the department of zoology on importance of haemoglobin and anaemia.

Objective of the programme:

To educate students of the college about the role of haemoglobin in daily life and anaemia.

Outcome:

Department of the zoology conducted the programme on 23/01/2018. Students were given awareness about the structure and functions of haemoglobin and the role played by haemoglobin in daily life. Its importance in carrying oxygen to the various parts of the body. Minimum percentage of haemoglobin to be present in males and females were told to the students by ppt. Various ailments that will be caused due to the less percentage of haemoglobin is also discussed. Cause of anaemia in males and females was told to the students. Type of food particularly the girl students need to consume for anaemic condition was explained. Doubts regarding anaemia posed by the students were clarified.

Sri.Y.Ramesh Babu, H.O.D of the Department of Zoology explaining the food sources to be taken to improve haemoglobin percentage and avoid anaemic condition.

DE-WORMING DAY

DATE: 19-08-2018

Tablets distributed are:

Albendazole

Di ethyl Carbamazine

This progrogramme is to bring awareness among students and to reduce the prevelance of Soil-Transmitted helmenths(STH), commonly known as intestinal worms and their related diseases in children and adolescents. The programme is organised by BHAGYA CLUB association with Primary health centre. Co-ordinators from health centre had distributed Albendazole tablets to all B.A.,B.Com.,B.Sc. students.

The Co-ordinators from primary health centre are Miss. Sarala and Smt. Jaya laxmi ICDS supervisor.

AWARENESS PROGRAMME ON POLYCYSTIC OVARIAN SYNDROME

NSS and Botany Department of Tara Government college Along MNR Medical college Doctors conducted a Awareness Programme on 'Polycystic Ovarian Syndrome' for UG students on 8 February 2019. The session started at room number 12 of the arts room building.

Objectives:

- To Aware students regard Polycystic ovarian Syndrome impact on health
- To create an awareness on (PCOS) for students.
- To make the Girl Students know how to Educate Regard Drawbacks of (PCOS).

MNR college Doctors has started the session by introducting themself and also took the introduction of some students and the session was started with the introduction of Polycystic Ovarian sysdrome,common symtoms of PCOS, and how to manage PCOS are discussed.

- . Main points of the session are listed here under
 - Eating a healthy and balanced diet
 - losing weight
 - common endocrine disorder
 - infertility in women of reproductive age
 - Do's and don'ts of Diet.
 - Females with a PCOS carry an increased risk to develop cardiovascular disease or diabetes
 - Genetic disorders associated with PCOS
 - Students clear doubts regard PCOS
 - ❖ Irregular periods After the discussion, Doctors gave questionier to students and asked them to respond.

Awareness programme onpolycystic ovarian syndrome for girl students 08-02-2019

TELANGANA NUTRITIONAL FOOD FESTIVAL

Date:25-02-2019

The purpose of this programme is to bring awareness about the traditional food of this are and to highlight the nutrient values in the traditional food. This programme is chaired by Dr. Chandra Mukherji, Pricipal and all the faculty, non-

teaching staff participated in the programme. Some students have prepared and brought different food items. Judges for this programme had given marks to the food items based on nutrient values, cost of preparation, easy of preparation and winners were given by prize to encourage.

World Mosquito Day

Department of Zoology organized a programme on world mosquito day on 20/08/2019. A poster presentation was also organized on the day.

Objective of the Programme:

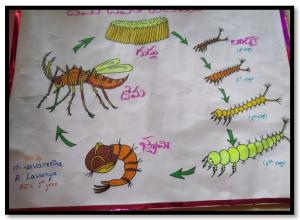

To educate the students about role of mosquitoes in diseases.

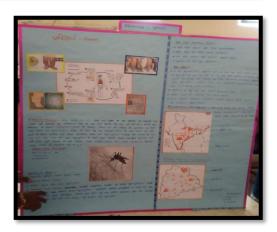

Outcome of the Programme:

A poster presentation was organized and the posters were displayed to the students of the college. Students responded to the poster presentation and many posters were received from the students about various aspects of mosquitoes. Displayed posters exhibited by the department were much informative to the students. Through the posters students of the college understood structure of mosquitoes, life cycle of mosquitoes, various diseases transmitted by the mosquitoes. Students were also given information about various precautions and preventive measures to be taken for different diseases transmitted by mosquito.

NUTRITIONAL-DAY

Date:20-09-2019

It is to bring awareness about **Poshan Abhiyan**programme. The programme was chaired by Dr. Chandra Mukherji, Principal and the chief guest was Child and Women Welfare officer Padmavati. The programme was organised by Bhagya Club in association with NSS and Child and Women Welfare department. They spoke about the importance of greeny vegetables and fruits in bringing nutrients to our body and to keep us healthy.

WORLD AIDS DAY

DATE: 01-12-2019

This programme was chaired by Dr. Chandra Mukherji, Principal and organised by science club. The programme was aimed to bring awareness to students about different modes of AIDS transmission and the preventive measures.

CORONA VIRUS (COVID-19)

Recently, an outbreak of the coronavirus (now called COVID-19) in China has caused global concern. It came from a seafood and meat market in Wuhan, China, in December. It has since spread to other countries, including the United States.

Despite Wuhan and other Chinese cities being quarantined, the COVID-19 has spread to almost 70 locations internationally. In the U.S., COVID-19 cases have been confirmed in New York, California, Oregon and Washington State. Deaths have been reported in both Washington State and California.

What is a coronavirus?

A coronavirus is a virus that is found in animals and, rarely, can be transmitted from animals to humans and then spread person to person. In addition to COVID-19, other human coronaviruses have included:

- The MERS virus, or Middle East respiratory syndrome.
- The SARS virus, or severe acute respiratory syndrome, which first occurred in the Guangdong province in southern China.

What are the symptoms of a coronavirus?

COVID-19 symptoms range from mild to severe. It takes 2-14 days after exposure for symptoms to develop. Symptoms may include:

- fever
- cough
- shortness of breath

Those with weakened immune systems may develop more serious symptoms, like pneumonia or bronchitis. You may never develop symptoms after being exposed to COVID-19. So far, most confirmed cases are in adults, but some children have been infected. There is no evidence that children are at greater risk for getting the virus.

What causes a coronavirus infection?

Humans first get a coronavirus from contact with animals. Then, it can spread from human to human. Health officials do not know what animal caused COVID-19.

The COVID-19 virus can be spread through contact with certain bodily fluids, such as droplets in a cough. It might also be caused by touching something an infected person has touched and then touching your hand to your mouth, nose, or eyes.

How is a coronavirus diagnosed?

If you believe you have COVID-19, you should contact your family doctor immediately. Before going to the doctor's office, call with your concerns. This will allow the office to collect information and offer you guidance on next steps. To diagnose you, your doctor may run tests to rule out other common infections. In some cases, your doctor may suggest you self-isolate to prevent the spread of infection.

Can a coronavirus be prevented or avoided?

Try to avoid people who are sick or meeting in large groups. Stay home if you are sick.

Cover your cough with a tissue or cough into your upper sleeve or elbow. Do not cough into your hands.

Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, and after blowing your nose, coughing, or sneezing. If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty. Avoid touching your mouth, nose, or eyes.

The Centres for Disease Control has issued travel advisories for several affected countries. If you are traveling to an area where the COVID-19 is present, speak with your doctor.

Coronavirus treatment

There is currently no vaccine or treatment for COVID-19. Symptoms of a coronavirus usually go away on their own. If symptoms feel worse than a common cold, contact your doctor. He or she may prescribe pain or fever medication.

As with a cold or the flu, drink fluids and get plenty of rest. If you are having trouble breathing, seek immediate medical care.

When possible, avoid contact with others when you are sick. If you have COVID-19, wear a facemask to prevent spreading the virus to others. The CDC does not recommend wearing a mask if you do not have COVID-19.

కరోనాపై అప్రమత్తత అవసరం

సంగారెడ్డి టౌన్, స్యూస్ట్ టుడే: కరోనా వైరస్ పట్ల అందరూ అప్రమత్తంగా ఉండాలని స్థానిక తారా ప్రభుత్వ డిగ్రీ కళాశాల ఇన్ళార్జి టైన్స్పల్ కృష్ణమూర్తి పేర్కొన్నారు. శుక్రవారం కళాశాలలో జిల్లా వైద్య శాఖ సహకారంతో నిర్వ హించిన అవగాహన సదస్సులో ఆయన పాల్గొని మాట్లా డారు. కరోనా ఇప్పుడు ప్రపంచంలోని అన్ని దేశాలను వణి కిస్తోందని తెలిపారు. వైరస్ వ్యాప్తి, నివారణ చర్యలపై అవగాహన కల్లి ఉండటం అవసరమని పేర్కొన్నారు. వైద్యాధికారి శ్రీరాం సుధాకర్, రజని మాట్లాడుతూ శీతల ప్రాంతాల్లో కరోనా వైరస్ వ్యాప్తి చెందుతుందని తెలిపారు. భారత్లో ఈ వైరస్ వ్యాప్తికి అవకాశాలు తక్కువేనని, అయినప్పటికీ అస్థమత్తంగా ఉండాలని పేర్కొన్నారు. జ్వరం, దగ్గు, శ్వాస సంబంధ సమస్యలు ఉన్న వారు వైద్యు

17-04-2022 to 27-04-2022

Oral health plays a vital role in the overall health and wellbeing of the individual. With the objective of helping people access oral health and hygiene facilities NSS Units I, II, III &IV, Red Ribbon Club and Department of Economics of Tara Government College(A), Sangareddy organised Free Dental checkup programme in association with MNR Dental College from 19-04-2022 to 27-04-2022 as part of post MoU activities.

Oral health services offered during the camp include a dental check-up, tooth extraction, scaling, fillings to treat cavities, and more. This camp was conducted under the supervision of Dr. Satyanaraya and his team Dr. Shravanth Kumar, Dr. Srujana and Dr. Rishitha. This team guide the patients about the food intake and daily routine they should follow to prevent dental disorders. In this dental camp MNR Dental College provided dental treatment to the students in their hospital free of cost. This dental checkup and health awareness camp was conducted for the UG, PG students and staff. A total of **252 students** were examined.

Objectives:

- 1. The main objective of the camp is to impart education on dental issues, oral hygiene, treatments etc.
- 2. To evaluate the application and feasibility of providing screening, diagnosis, preventive dental treatment for students

Date: April 19th to April 27th, 2022

Place: NSS room

Timing: Every day 10:00 AM to 12.00 Noon

TARA GOVERNMENT COLLEGE (A) SANGAREDDY

(Affiliated to Osmania University)
Accredited with 'B' Grade by NAAC
National Service Scheme, EDC &
Department of Economics (HOPE)

International Day Against Drug Abuse and Illicit Trafficking (World Drug Day)

26[™] JUNE 2022

Campaign and Pledge taking

With the theme 'Addressing drug challenges in health and humanitarian crises'

Report

The International Day Against Drug Abuse and Illicit Trafficking or World Drug Day, is marked on 26 June every year to strengthen action and cooperation in achieving a world free of drug abuse and each year, individuals, entire communities and various organizations all over the world join in to observe World Drug Day to help raise awareness of the major problem that illicit drugs pose to society.

In the same way, As Tara Government College (A) Sangareddy always stand in the front line to aware the students about all the evils by observing important days and events, National Service Scheme (NSS), Entrepreneurship Development Cell and Department of Economics (HOPE) has observed the International Day Against Drug Abuse and Illicit Trafficking or World Drug Day on 26th June 2022 (Sunday). As part of the programme, an awareness campaign has been conducted on how to stop use of drug in the students' hostels and took a pledge of World Drug Day.

We advocated to protect the right to health for the most vulnerable, including children and youth; people using drugs; people with drug use disorders; and people who need access to controlled medicines.

Everyone must part by sharing real facts on the drugs situation— from health risks and solutions to tackle the world drug problem to evidence-based prevention, treatment, and care resources in times of crises.

Objectives of the Programme

- 1. Identify the biological, environmental, behavioral, and social causes and consequences of drug use and addiction across the lifespan.
- 2. Discussion about development of new and improved strategies to prevent drug use and its consequences.

Pledge Against Drug

I do pledge that I will not use any illegal drugs ever in my life.

I do pledge that if I come across any drug addict, I will try my best to help him get rid of this addiction.

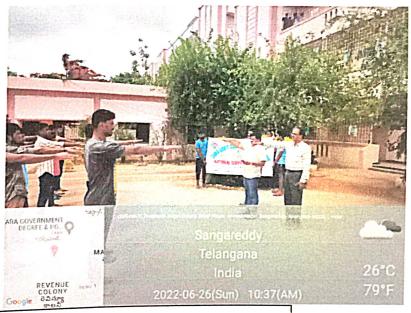

do pledge that I will spread awareness against drugs in my personal capacity

Dr. A. Venkatesham Vice Principal and NSS Programme Officer addressing the gathering on the occasion of World Drug Day on 26.06.2022

Students taking oath on the occasion of World Drug Day
