FIELD TRIP

A Field Trip to R.O water plant in Jammikunta is organised by Department of Chemistry, Government Degree College, Jammikunta to Bsc B2c/mpc I year students on 18-02-2020.

The main purpose of this Field Trip is to motivate the students towards research. Students visited R.O water plant for knowing how to remove impurities as well as insecticides from raw water (bore well) to get pure water and also they were taken some water samples for detecting what kind of ions present in water samples. They can do practical in chem lab. R.O water plant owner explained to the students how to purify water. students were important points of they asked him some doubts.
