Department of English organised **GROUP DISCUSSION** programs with a view to develop speaking and argumentative qualities among the students.

## What is Group Discussion

The group discussion is a two-way helpful process. A candidate who goes through the process gains clarity of his/her own thoughts, views and opinion. He/She learns how to evolve thinking and come to a solution or conclusion for a certain topic. And on recruiter's part, it is helpful as they evaluate a candidate's soft skills through Group discussion.

This also allows people to walk around a concept in greater detail and learn the topic in depth. This practice is also being applied during campus interviews and selection process. A group discussion among students is being organized to see and evaluate their thinking skills, listening abilities and how they are communicating their thoughts. One should learn to control the conversation through listening attentively and then having the perseverance to mould it towards his/her own direction.

## Benefits of Group Discussions

- It is a good way to engage the participants in a fruitful discussion
- Group discussion generates a creative thinking in all participants, something beyond the obvious answers and solution to a specific problem
- Generate more ideas and a structured presentation of a topic
- Improves analytical abilities to think on a particular given topic
- Enables profound and in-depth understanding of the subject
- Provides different approaches to a topic
- Helps to come to a concluding point or at least near solution to a problem
- Gives a chance to listen, know and understand diverse opinions on a particular matter
- Improves confidence in public speaking platform
- Can alter our perspectives as well

**Department of English conducted GDs on the following topics.**

- 1) Need of dress code in Undergraduate Colleges
- 2) Is the youth in India confused or confident?
