GOVERNMENT DEGREE COLLEGE (W), GAJWEL

DEPARTMENT OF PHYSICS

Best Practice

Title of the practice:

PEER EVALUATION TEST

Objectives:

- To improve students writing skills
- To create awareness on evaluation process
- To improve learning skills
- To impart knowledge to the students

The context:

Students feel difficult in learning tough topics and get confused in solving derivations. They do mistakes during examinations. To make them perfect we initiated this practice.

The Practice:

In this practice students have been given question bank for each paper. Every week they write answers for one long question or two short questions for 10 marks in 20 minutes. In this process, that particular topic will be revised, recollected and written by students. Immediately after finishing test, students internally correct their answers by following the concept peer evaluation. In this concept of peer evaluation, they exchange their books, correct the answers and allot marks. So they get an idea on the evaluation process and distribution of marks to every division in the answer. It also improves their time managing skills.

Problems encountered:

Some of the students may get confused while giving marks and in the division of marks. That will be resolved by the concerned lecturer.

2021 - 2022
