

CENTRE FOR CELLULAR AND MOLECULAR BIOLOGY

Uppal Road, Hyderabad

cordially invites public & students
(Class VIII, IX, X and above) to its

OPEN DAY

(as a part of the CSIR Foundation Day Celebrations)

Saturday, 26th September 2015, 8:30 a.m. to 4:00 p.m.

Highlights:

Guided tour of Campus & Facilities, Exhibits & Posters on
popular topics in Modern Biology, Facts of Biological World,
Conservation Genetics and Wildlife Forensics &
Science Video-shows

**Groups (15 persons and above) are advised to book
the visiting time in advance**

Please Call: Reception - 27160222-41
email: fd@ccmb.res.in

Note: For security reasons, Bags, Water bottles, Cameras, Cell Phones etc
are strictly not allowed

FIELD TRIP TO INCOIS

Our department has arranged a field trip to the Students of B.Sc Final year to INCOIS, Indian National Centre for Ocean Information Services, which is located at near Kakatpally Hyderabad. It was very informative to the science students. They came to know the satellite services which provide and get the information about the Ocean-How they are able to help the fishermen and we all were astonished to note that the scientists here, are 24 hours on duty to note the changes in the oceanic weather. They are always alert to give prior warning to the people living in the coastal areas about the ^{expected} cyclones. There is a separate center which studies about the Earth quakes that occur inside the sea. They study the intensity of tremors and intimate the concerned authorities near the sea to no that necessary action is initiated when and where there is an emergency. They said that the occurrence of Tsunami is though very less, the loss of lives and property if it all occur Tsunami occurs will be very high. So these people will be always alert watching the oceanic weather.

FIELD TRIP TO 'INCOIS'

INDIAN NATIONAL CENTER FOR OCEAN INFORMATION SERVICE

Physics Department has arranged a field trip to the students of B.Sc final year (2014-15) to 'INCOIS' on 3rd February 2015. It is located near Kukatpally, Hyderabad. It was an Open day for Public. We took Prior Permission, and we were given a time slot of 2 PM to 5 PM. When we went there at 2 PM, a person accompanied us inside and showed us all the Departments.

First there was a Power point presentation, where a lady explained us about the various departments, their activities and briefly explained us about the Center.

Then we were taken to the Polar Satellite - Data Collecting Hall, there was a big Dish antenna for receiving the signals from the Polar Satellite which was located at the top of the building. We went inside the building, there were many computers in which the data is collected and decoded electronically and it is generated in the form of graphs. This data is analysed by the scientists.

A Scientist Dr. Srinivas explained the students about the Polar satellite, how it works, he cleared many doubts posed by our students. He explained how the INCOIS is helping

fishermen to find out the places of probability of fishing is high and thereby reducing the human effort.

CSIR Foundation Day Celebrations/ NGRI OPEN DAY – SEPTEMBER

sindhura, Bonuga,

Missed video call

Sir/Madam,

On the occasion of CSIR Foundation Day, CSIR-National Geophysic DAY on Saturday, September 26, 2015. On this day, all our laborato from 09:00 a.m. to 2:30 p.m. Our scientists and research scholars wi Research and Development (R&D) activities of the Institute support methods.

Ravi, Bal, sindhur

Missed video call

On behalf of the Director and staff of the Institute, I extend a special Institute on this day. Please send students from class VIII and above boxes, bags, camera & mobiles will not be allowed into the institute. 2015 through letter to the undersigned or email to information@ngri

Report on educational tour to visit Centre for Cellular and Molecular Biology

Introduction:

CCMB is one premier research institute in India located in Hyderabad, Telangana. The Centre for Cellular & Molecular Biology (CCMB) is a premier research organization in frontier areas of modern biology. The objectives of the Centre are to conduct high quality basic research and training in frontier areas of modern biology, and promote centralized national facilities for new and modern techniques in the inter-disciplinary areas of biology. CCMB was started initially as a semi-autonomous Centre on April 1, 1977 with the Biochemistry Division of the then Regional Research Laboratory (presently, Indian Institute of Chemical Technology, IICT) Hyderabad forming its nucleus and Dr P M Bhargava heading the new Centre. Earlier, the Governing Board of the Council of Scientific and Industrial Research (CSIR) New Delhi, the apex body which constituted 44 research institutions in the country, approved the proposal in 1976 to establish such a Centre in view of the importance of research in the frontier and multi-disciplinary areas of modern biology.

It is providing

- Training to the people in the advanced areas of biology to serve the needs of development in these areas, with special provision for short-term training of staff from other institutions in techniques for which adequate facilities may not exist elsewhere.
- Centralized facilities in the country for new and modern techniques in the inter-disciplinary areas of biology, and to ensure that these facilities are so organized, maintained and administered that they can be put to maximal use by research workers from other laboratories and institutions in the country.

- Providing the major research breakthroughs the field of science for betterment of society especially medicinal, agricultural, pathological areas.

Objectives of the tour:

- To give exposure to the students to research labs
- To inculcate the research attitude among the students
- To know the current research and developments in the science.
- To know the knowledge about recent technologies developed in and outside the CCMB.
- To encourage the students towards the science.
- This program also encourages the students to think in analytical way.

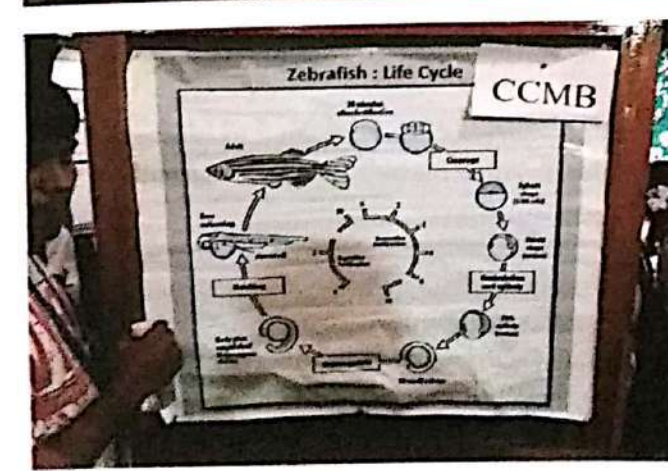

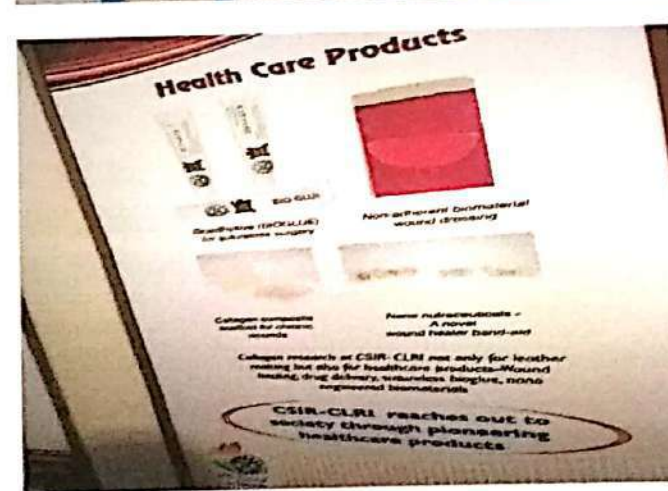

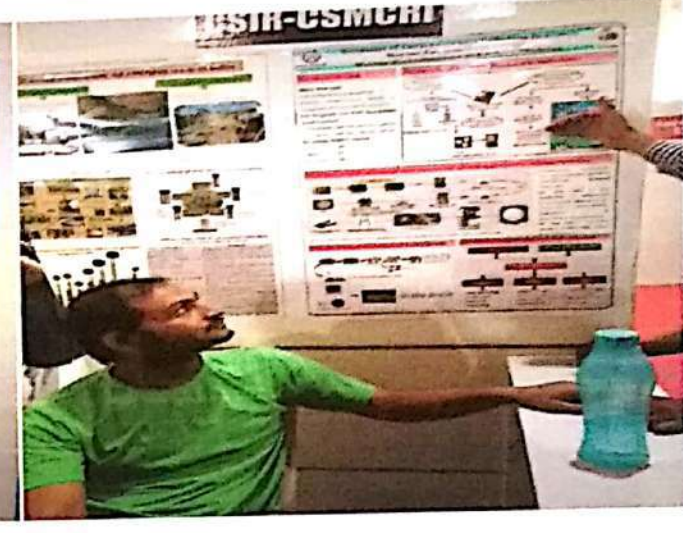

Report:

Students of B.Sc III yr, M.B.C (Microbiology, Botany and Chemistry) and B.Z.C (Botany, Zoology and Chemistry) along with the Sri Ramachandram, Assistant Professor of Microbiology, of Government Degree College, Gajwel has planned to visit the CCMB on its Silver Jubilee day i.e on 06 September 2017. A total of 40 student's were participated in the educational tour and visited the CCMB.

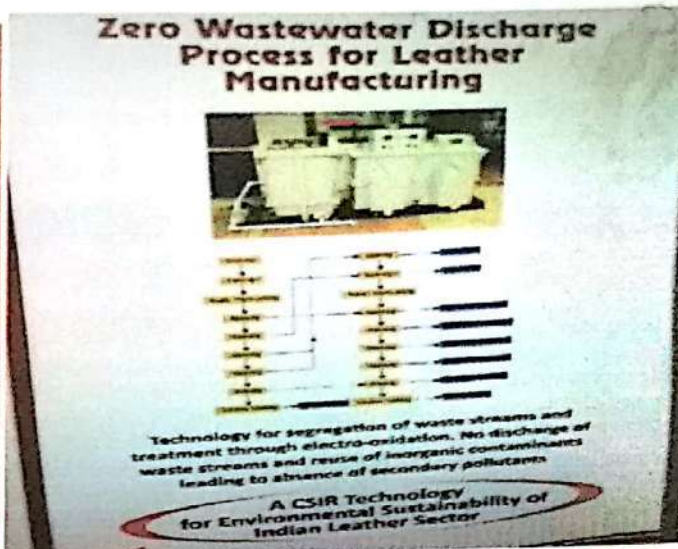

The guide explained about the equipment present in the different labs. The students are basically from Microbiology background. They visited Microscope facility lab and guide explained the different advanced version microscopes and its advantages.

Students also visited the molecular biology labs where they explained about the chromatography techniques and their applications. In the open area posters and live models were presented. The students enthusiastically involved in the model presentations like Zebra fish, Liquid nitrogen, rice varieties developments and stem cell technology and entomology. The posters includes the Mass

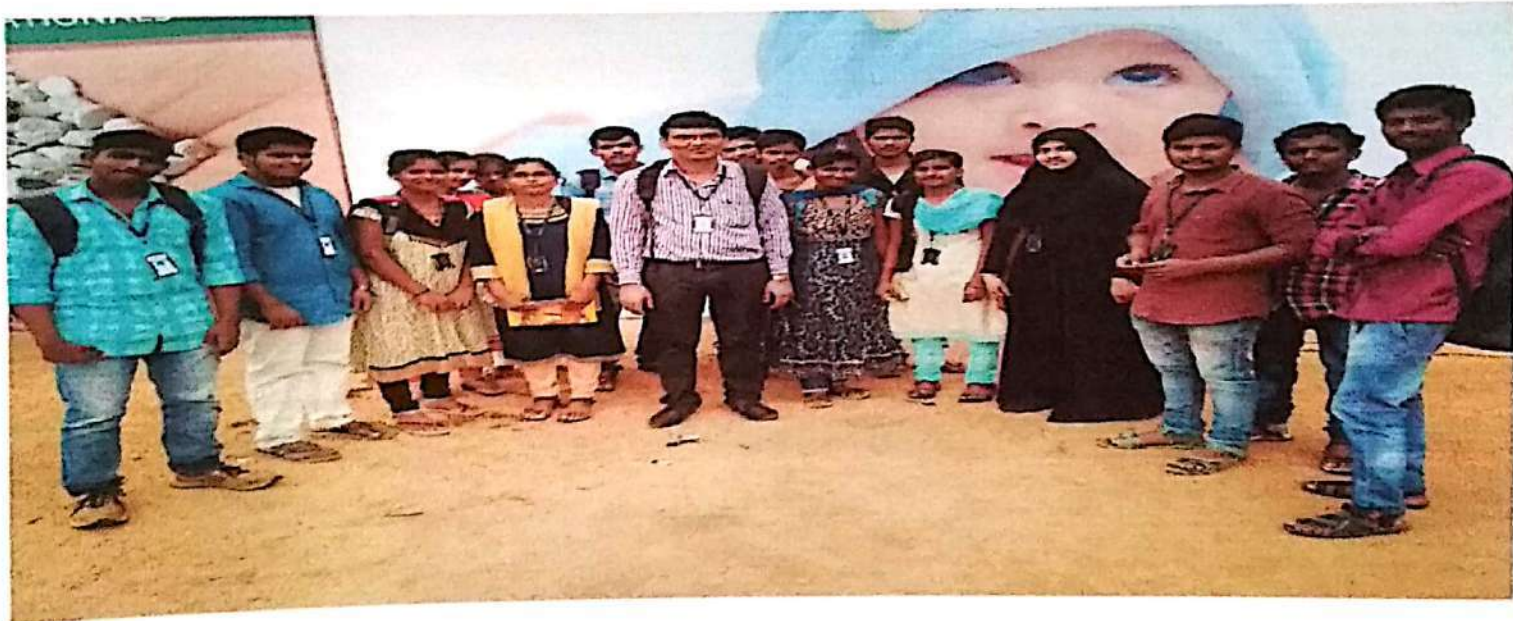

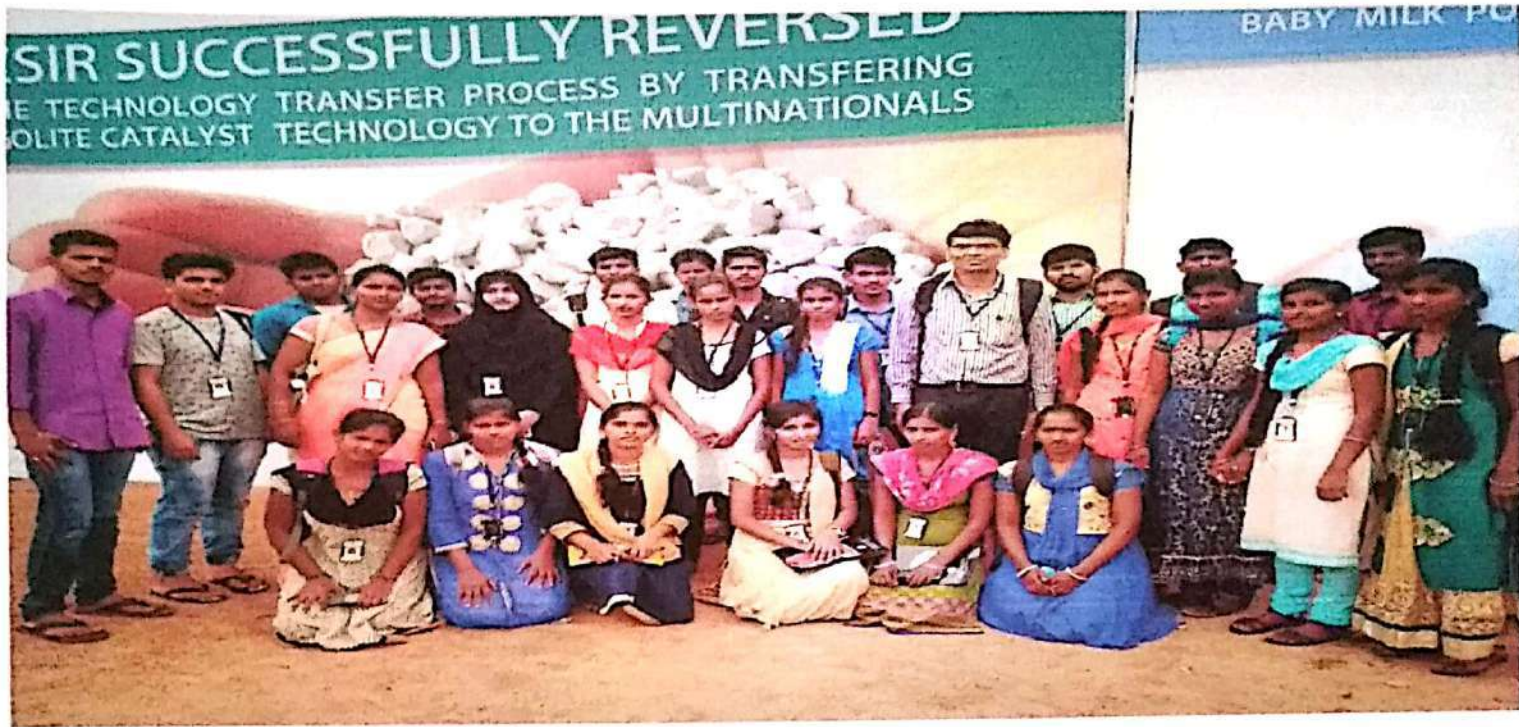

spectrometry, Different microscopes, Crystallography techniques. Some models were explained by the CCMB research scholar lively for example cell cultures, observation of insects with digital microscopes etc. Students really inspired by the research and their presentation.

VISIT OF STUDENTS OF MICROBIOLOGY TO SCIENCE EXHIBITION AT HUSAIN JAHEER SCHOOL GROUNDS ORGANIZED BY CSIR LABORATORIES ON THE OCCASION OF CSIR PLATINUM JUBILEE CELEBRATIONS ON SEPTEMBER 6th 2017.

VISIT OF STUDENTS OF MICROBIOLOGY TO SCIENCE EXHIBITION AT HUSAIN JAHEER SCHOOL GROUNDS ORGANIZED BY CSIR LABORATORIES ON THE OCCASION OF CSIR PLATINUM JUBILEE CELEBRATIONS ON SEPTEMBER 6th 2017.

Name of the activity : **Field visit by MBC III yr students at Nursery of GAJWEL**

Organized by : Department of Botany

Date : 03/11/2018

Purpose of the program : To create awareness among the student how the nurseries are propagating the plants and to check the nearby biodiversity of plants at nursery

Work done : The students of MBC and BZC III yr visited the GAjwel nursery to observe and create awareness about the propagation of plants, methodology, chemicals and process for the culturing. The students interacted with the nursery management and noted down the particulars of nursery methods and landscaping and medicinal importance of each plant. The students also observed the biodiversity of plants in the nearby forest. The students actively involved, participated and submitted the reports to the concern lecturer

With reference to the subject cited, Govt. Residential Polytechnic, Gajwel, Siddipet Dist. has allotted the following (03) students to this College to accord permission to undergo internship training to the Diploma in Commercial & Computer Practice (CCP) students as a part of their 3 years diploma course in C-16 curriculum commencing from 05.12.2018 to 04.05.2019.

The details are as follows:

Sl.No.	Pin No.	Name of the Student	Mobile No.	Address
1	16075-CCP-012	M. Srikanth	9705377176	
2	16075-CCP-032	Ch. Nagaraju	9100868143	
3	16075-CCP-038	N. Prashanth	9989829534	

The above three students are directed to undergo training at this College.
