## World Environment Day June 5th 2021

World Environment Day is one of the biggest annual events organised by the United Nations (UN) to generate awareness about the significance of nature and greenery. The United Nations Assembly established World Environment Day in 1972, which was the first day of the Stockholm Conference on the human environment.

In 1974, it was celebrated with the theme 'Only One Earth'. Since then, various host countries have been celebrating it, and the idea for rotating the center of these activities started. World Environment Day was first observed in 1974 in the US.

The theme for World Environment Day 2021 is 'Ecosystem Restoration' and Pakistan will be the global host for the big day.
