Corona virus disease (COVID-19) is an infectious disease caused by SARS-CoV-2 virus. The virus spreads from infected person's mouth or nose in small liquid particles when they cough, sneeze, speak, sing or breathe.

The common symptoms of the disease include fever, cough, tiredness, loss of taste or smell. The less common symptoms include sore throat, headache, aches and pains, diarrhoea, rash on skin, discolouration of fingers or toes, red or irritated eyes.

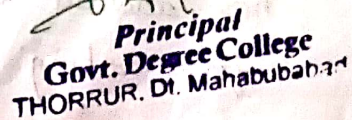

The serious symptoms include difficulty in breathing, shortness of breath, loss of speech or mobility, chest pain.

The disease can be prevented by maintaining safe distance from others, wearing a mask in public, cleaning hands, get vaccinated, covering nose and mouth with bent elbow or tissue when you cough or sneeze, staying home if unwell.
