Green Audit

2021 - 2022

The Department of Botany has submitted the Green Audit Report to CCE, HYD. through College (GDC-WPT) Mail ID.

Green Audit is a process of systematic identification, quantification, recording, reporting and analysis of components of environmental diversity of various establishments. It aims to analyze environmental practices within and outside of the concerned sites, which will have an impact on the eco-friendly ambience.

Green audit can be a useful tool for a college to determine how and where they are using the most energy or water or resources. The college can then consider how to implement changes and make savings. It can also be used to determine the type and volume of waste, which can be used for a recycling project or to improve waste minimization plan. It can create health consciousness and promote environmental awareness, values and ethics. It provides staff and students better understanding of Green impact on campus.

GDC, Warangal Green Audit Report submitted to CCE and we acquired "Grade B" in Green Audit 2021-2022.
