

The institution has been following waste management methods as below

- Solid waste management
- Waste recycling system
- Liquid waste management
- E-waste management

The institution is adopting the following waste management methods such as

1. Composting: Biodegradable dry leafs, grass from garden, wet solid from canteen are transformed to composting. The converted compost is being used in the college garden.

2. Recycling: As this is an educational institute, the major waste is solid dry paper waste, the dry paper waste is sent for recycling to Sreeram Waster Paper Industries. The college has a MoU with the industry for recycling.

3. Reusing: The used water bottles are reused for growing plants in the college premises. Recycled paper waste is reused as file folders, file pads, supplied by the recycling industry. Liquid water waste of distilled RO water plant is reused in the garden.

4. Reducing: - The college has practice of no-usage of the non- biodegradable plastic, using napkin incinerators in the college to control the napkin waste.

The college is spreading the message for the protection of environment through green activities, eco club activities, celebrating environmental related days and awareness programs.
