FIRE SAFETY WEEK AT FIRE STATION MBNR FROM 14-04-2022 TO 20-04-2022

Oorja programm 2021 - 2022

1. Title of the practice: -

Oorja – An initiative for social change.

2. Objectives: -

It aims to tap into the power of youth leadership for social transformation. Our programs are designed to impart knowledge on critical topics such as health, safety, rights, future plannings and self – awareness. Our team visit nearby schools, villages to bring awareness about social problems like illiteracy, child marriages, importance of covid vaccination and Malnutrition etc. By this practice the students at their academic level can able to know the social problems and they can understand the society in a better way. It helps them to develop their leadership qualities. It builds a better relationship with society.

4. The practice: -

Indian society has progressed over time, with advancements in a variety of disciplines. However, there are socio – cultural issues that must be recognized and addressed in every community. People’s safety, particularly that of vulnerable groups such as women, children and the elderly is a key issue in modern Indian culture. Casteism, Dowry communalism, drunkenness, drug addition, gender-based discrimination and other key socio – cultural concerns need to be addressed today.

Students must realize the importance of the relationship between an individual and the society. Man is belonging to a society, and students are an important part of it. Students cannot live in complete isolation from the community life. Even a school going student is bound to have links with other people who together form a society. Students can play an important role in improving and strengthening the society. The simple fact is that united we stand, divided we fall. The society is the manifestation of that united existence, and the students are part of the society. Being Youthful and energetic, they can engage themselves in various forms of social work in their spare time, and in moments of crisis. Students should take an active role in literacy campaigns. They can teach the illiterate to read and write. They should be enthusiastic about opening blood donation camps, founding gymnasiums, blind schools, health center, library etc. Such enterprises benefit a large no. of people and help in maintaining the society in a good condition. They are the students who should undertake the responsibility of fighting anti – social activities of a few corrupt people. They must solemnly vow to eradicate drugs and drinks from their localities. Whenever there is a general crisis like the outbreak of malaria or floods or Earthquakes, students are expected to come to the aid of the distressed. The students of today lays the foundation stone of future society. The society should give students the love and encouragement due to them and see that their studies are not underly happened.

Active students are selected and trained. They have been given some major local issues surrounded nearby villages. They will try to understand the issues and they are trying to give their best to those issues whenever they visit the village. They talk to villagers and give awareness on these issues. This social relationship will make them to grow as good leader in the society.
