

VISION:

To provide an enriching, challenging, and innovative education to the socio-economically endowed section of students, i.e., men and women, to culminate in the mainstream, participate in social growth, and ensure inclusion.

With the motto "Arrive to Gain and Depart to Deliver", it is the institution's goal to facilitate the students' updating their skills along with academics in order to make them more competent, self-sufficient, and economically independent to face real-time challenges at the end of the course.

To shape students' holistic personalities by raising awareness of life skills and moral values in order to fulfil the true meaning of the college tagline, "Intelligence is fuelled by values, and values are fuelled by the intellect."

MISSION:

To progress towards RUSA's designation as a model college.

To create an environment that fosters students' natural learning abilities as well as their overall personality development.

Respond to community needs as they change and develop suitable skills for success in a competitive environment.

Ensure dedicated leadership and on-going professional enrichment of employees through a participative management method that develops overall personality and critical thinking skills that will be passed on to students.

To instil moral principles and social responsibility in order to ensure that citizens are healthy members of society.
