

OUT REACH PROGRAMME

Date: 30/06/2021

The students of MPC & MPCs visited door to door in nearby streets of our college to create awareness of our environment. The students explained the need and responsibility of humans to protect and preserve our nature. They motivated the people to buy reusable products like jute bags, glass/steel bottles and avoid buying the plastic bottles and plastic bags. The impact of human behaviour and how it leads to land, water and air pollution that affects the plants, animals and human beings. They enlightened the people to purchase organic and pesticide free food. They also stressed about the importance of hygienic conditions surrounding their houses.
