

**GOVERNMENT DEGREE COLLEGE FALAKNUMA**

**DEPARTMENT OF MATHEMATICS**

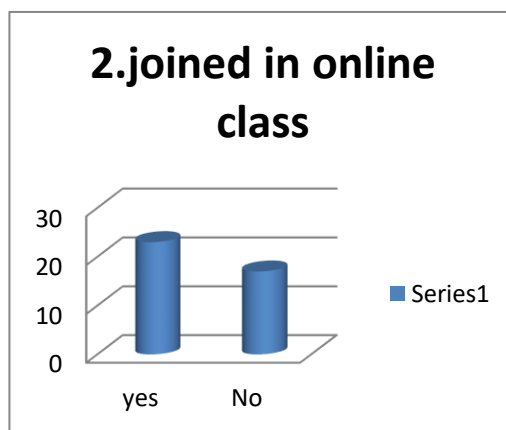

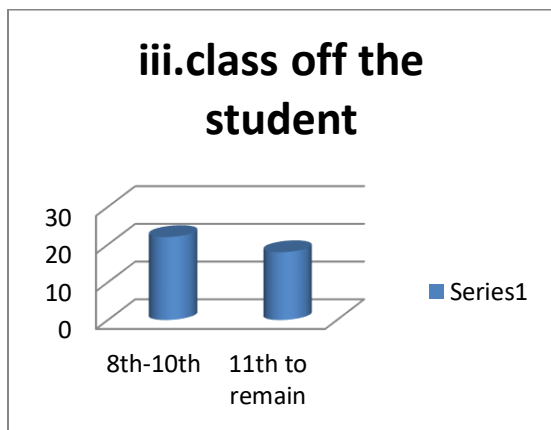

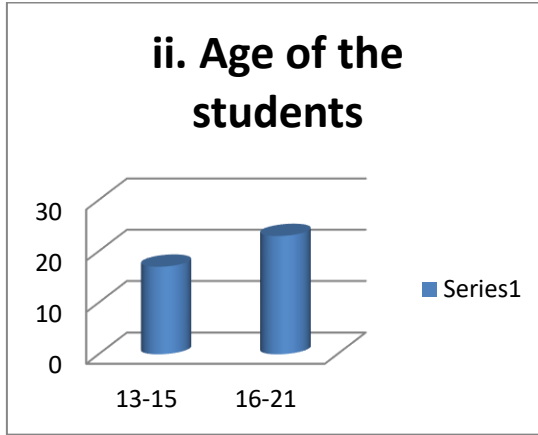

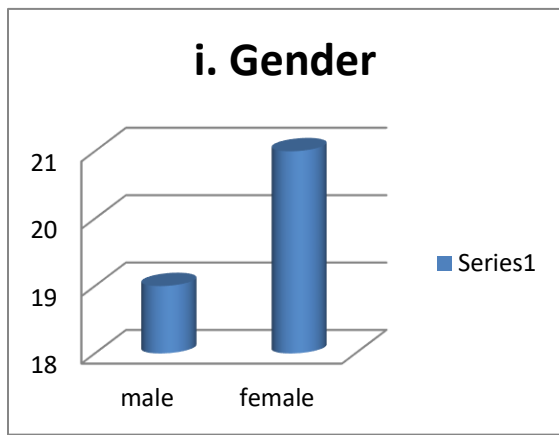

**Field Survey Report 2021-2022**

The covid -19 pandemic situation changed learning in many unrepresented ways .At first student education mode was completely changed to online learning. So that many students changed their future plans because they completely depended on online teaching at the time of covid-19 pandemic situation. For that department of Mathematics GDC Falaknuma held survey on this “**interest in learning Mathematics**” with some Questionnaire. The entire process was done by 6 selected students who collected information from one respondent each in their neighborhood.

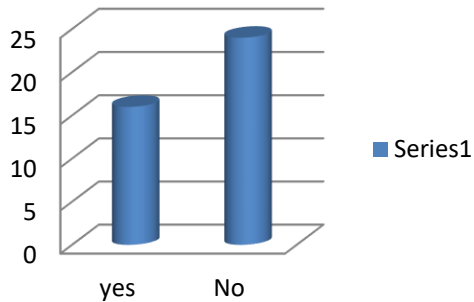

The objective was

1. How much online teaching was helpful in learning Mathematics?
2. How many students increased interest in learning Mathematics?
3. What type of problems they were facing while learning Mathematics?

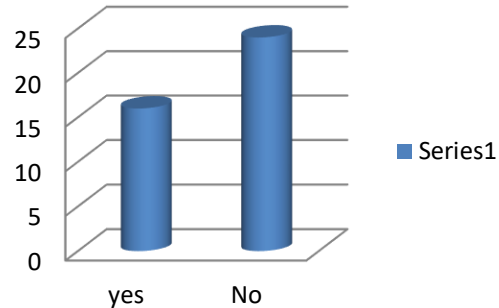

**Finding of the survey are:**

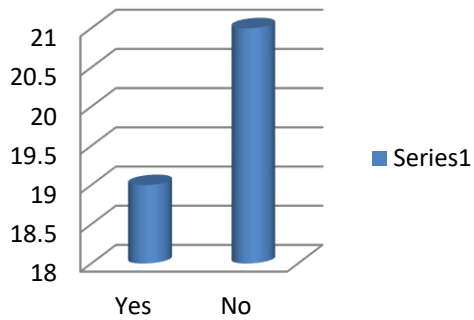

### 3. is online teaching is helpful

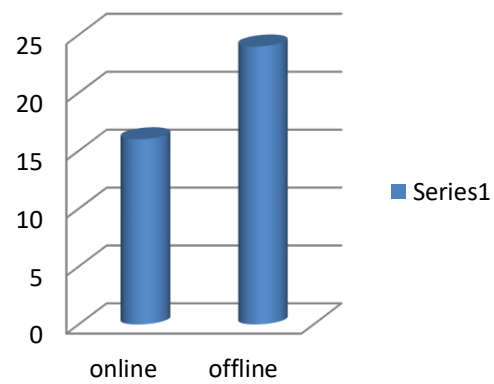

### 4. learn maths easily

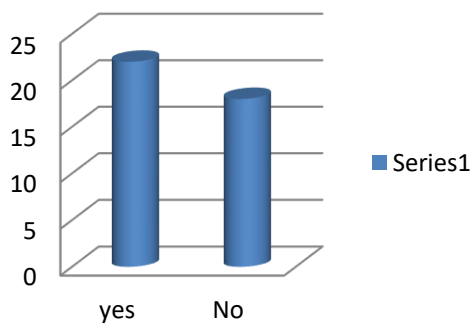

### 5. intrest in online classes

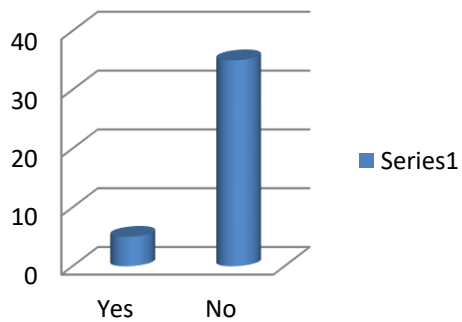

### 6. mode of teaching

### 7. Go for other levels in maths

### 8. Want to become Mathematicians
