OWN YOUR PLANT

Eco club, GDC, Huzarabad goal is to plant more trees in college campus to help and restore nature. Its a big number, but we know we can do it with Students support.

So its planned to allot every plant to a particular student. So that student can take care of that plant. Student allotted to that particular plant will take care of watering, manuring, supporting the plant with stick, cleaning the surrounding area etc.

with this initiation student will own the plant and make it grow cautiously. with the internal competition among the students plants will be benefited.

International Plastic Bag Free Day (03.07.2022)

Objectives:

- Students understand the hazards caused by Plastic bags
- To think about alternatives for Plastic bags
- To enlighten students about soil and water pollution caused by Plastic
- To know how plastic bags effects marine ecosystem
- To make the student analyze the difference between cloth bag and polythene bag
- To know about RRR – i.e reduce, reuse, recycle.

Report:

Eco club, GDC, Huzurabad organized International Plastic Bag Free Day on 3rd July 2022. Vice Principal PLN Murthy garu, IQAC coordinator P. Dinakar garu and staff members attended the meeting.

Vice Principal PLN Murthy garu presided over the meeting and addressed the students. He said this is a global initiative that aims to eliminate the use of plastic bags. Plastic bags may be convenient but they are a huge strain on the environment. It can take up to 500 years for disintegration. So they make up a large portion of land and water and pollute our water bodies. That is why single use Plastic has been banned in the country since 1st July.

IQAC coordinator Dr. P. Dinakar garu added that these single use plastic became a cheap and plentiful resource. Cloth bags were replaced by plastic covers. We have to look for safer alternatives like paper, cloth and jute bags. The best way to celebrate this day is make sure not to use and not to ask for any plastic bag.

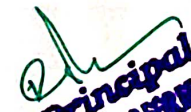

Eco club convener explained about plastic pollution is a global catastrophe and sadly it is a man made one. This is having an extremely detrimental effect on the environment, wild life and human health. Students have to plan awareness campaign on social media, distribution of jute bags, collect the discarded plastic bags.

The meeting was concluded with students Pledge that they don't use plastic bags in future and make awareness in the society.

Outcomes:

- Students understand about hazards with plastic bags, pollution caused by plastic and alternatives for plastic bags.
