

Field TripAcademic year - 2022-23

Department of Economics has organised field trip in ... we have visited Deshpande village in the village we found a paper plant industry. Students have seen directly making of paper plants. They know about paper plants as whole side and asked the labours how many paper plants large quantities in a short period. And they asked questions on cost & marketing, raw material and equipment.

They got knowledge about in future perspective how to determine prices, demand & supply transportation of company manufacturing products.

The following students were participated in the visit programme.

- | | |
