World Creativity and Innovation Day 2022: All You Need To Know

World Creativity and Innovation Day is celebrated on April 21. The day is marked to raise awareness about the important roles that innovation and creativity play in every aspect of human development.

The main idea behind celebrating this day is to encourage people to come up with multi-disciplinary thinking both at individual and group levels.

WORLD CREATIVITY AND INNOVATION DAY: HISTORY

World Creativity and Innovation Day came into existence after the United Nations General Assembly adopted a resolution to celebrate the day. The resolution by UN General Assembly was passed on April 27, 2017, and the first World Creativity and Innovation Day was celebrated in 2018. The day was founded on May 25, 2001 in Toronto, Canada.

World Creativity and Innovation Day was founded by a Canadian woman named Marci Segal. Marci Segal was studying creativity at the International Center for Studies in Creativity in the year 1977. Segal decided to come up with Creativity and Innovation Day after she saw the headline "Canada in Creativity Crisis", which appeared in the National Post newspaper. Segal was of the belief that generating new ideas with the help of creativity and making new decisions can help people in tackling crises.

ON THIS OCCASION GDC MULUGU & IQAC IS GOING TO CONDUCT AN ESSAY WRITING COMPETITION ON

"CREATIVITY AND INNOVATION TOWARDS QUALITY EDUCATION" in the seminar hall at 3 pm.

Participate and improve your creativity and innovative skills as continuous process.

With best wishes...
