

## Preparation of Envelope covers - A4-size

The Department of Economics have to plan conduct the best practices and innovation activity for the students development, encourage to self-employment and entrepreneurship of economics students, the name of the activity is "preparation of envelope covers (or) making of envelope covers A-4 size", the students will improve their skills of production knowledge, also encourage to self-employment skills, and this programme is completely based on Eco-environmental activity, and the students are training to how to prepare the envelope covers, they improve the production skills. The students will learn cost and benefit analysis from the best practices

### 1) Method of envelope covers preparation

- 1) Brown sheets
- 2) Fevi-stick, gum
- 3) scale,
- 4) scissors

→ Cost of the brown sheets

each sheet cost is - 10/- Rs we used three long brown sheets cost is - 30=00 Rs

→ one envelope cover market price is - 5=00 Rs

→ The students made 25 sheets - total units price is —  $5 \times 25 = 125=00$  Rs.
