

Waste management

In the waste management, audit was focused on assessment and types of waste that are generated by the College. So that we can reduce the waste generate and that can be recycled and reused.

Waste generating in college includes garbage, paper, tins, and glass bottles. And Hazardous waste like water coming from chemistry lab, used and empty glassware and used sanitary napkins.

E-waste or Waste Electrical and Electronic Equipment (WEEE) are damaged equipment which is very less in the College.

Around 100 Kg's of waste every month our college generates waste through dry leaves and papers.

* Every Saturday all staff and students articipate in Swachh Bharath for cleaning the college campus.

*In academic evaluation works we use recycled paper in institution

* We are using the waste generated in the college as composting

Collection of dry leaves from college garden by students

Preparation of Vermi Compost

Collecting waste

Recommendation

- Environment Policy is adopted by the College Campus. We do plantation by visitors of our college and we also protect the plants planted by our visitors
- Water Meter should be installed and maintain the inventory of ground water extraction resource bore well.
- Storage of chemicals like; paints, gums resins, oils, lubricants, acids etc. in designated place and safety/warning signs should be displayed
- Internal inspection system should be developed for various aspects of environment available in campus
- Waste Management plan should be prepared for the campus.
- Display of environment awareness posters should be there in the prominent areas of campus

Government Degree College for Women, Siddipet, as part of our College activities we enlighten our students to protect the environment by spreading awareness to save energy, water, reducing use of disposable plastics, promoting reusable materials, planting saplings, etc. We believe that better world is not only within reach, but is being built today. We conduct environment related events like plantation, rallies, celebration of special days related to environment for creating awareness among the Students

We bring zero garbage in college by reducing waste, recycling and reuse of papers and leaves by preparing compost and other leftovers. We are giving paper Waste and e-waste to Municipality, Siddipet for recycling purpose.
