

GOVT. DEGREE COLLEGE FOR WOMEN - SIDDIPET

The building of the college is located in outside of the city and faraway from pollution in 2.36 acres and built-up area is 1 acre. Outside the built-up area, the left over area is covered totally with plants and greenery.

In association with MCS, Siddipet developed "Pattana Prakruthi vanam" in 1 acre area in which there are 2000 plants of various species.

We have developed garden inside the campus in both blocks provided from the entrance gate. The garden has all types of plants like medicinal, kitchen, fruit and flower. Especially fruit plants like papaya, banana guava ,pomegranate ,mulberry fruits. We distribute these fruits to our students and staff.
