

GOVERNMENT DEGREE COLLEGE FOR WOMEN-SIDDIPET

DEPARTMENT OF ECONOMICS

2021-2022

BEST PRACTICES

The department of Economics has a unique practice of sharing economy related cartoons of famous cartoons to the students on WhatsApp. The students will be asked to present their individual views in the class the next day. After all the students present their individual opinions, finally the teacher will explain the actual message which the cartoonist was trying to give sarcastically to the society. This way the students will develop deep insights into the various aspects of the economy
