DEPARTMENT OF PHYSICS

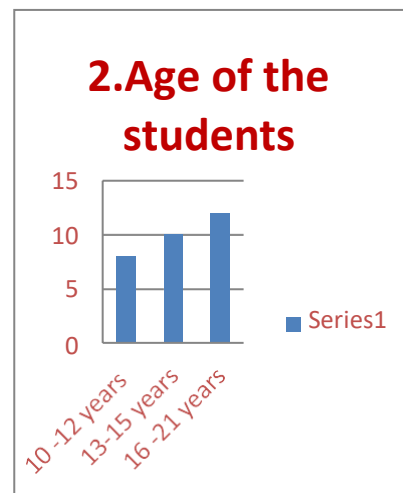

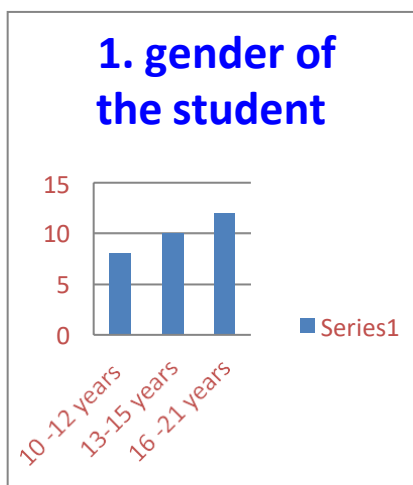

Field Survey Report 2021-2022

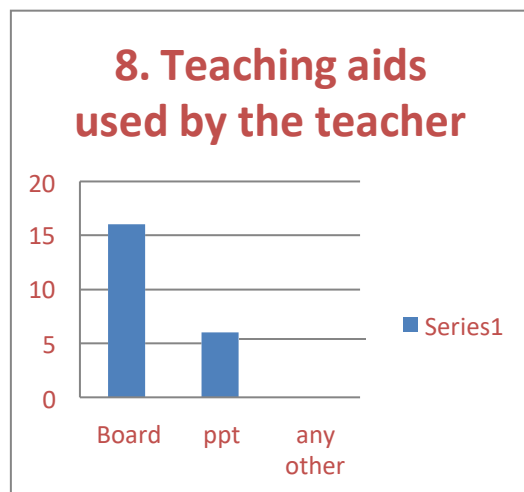

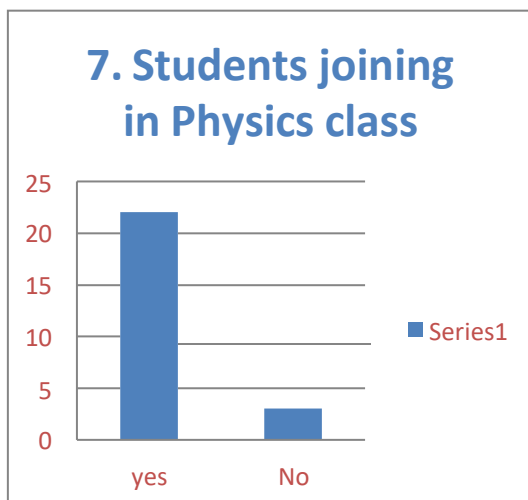

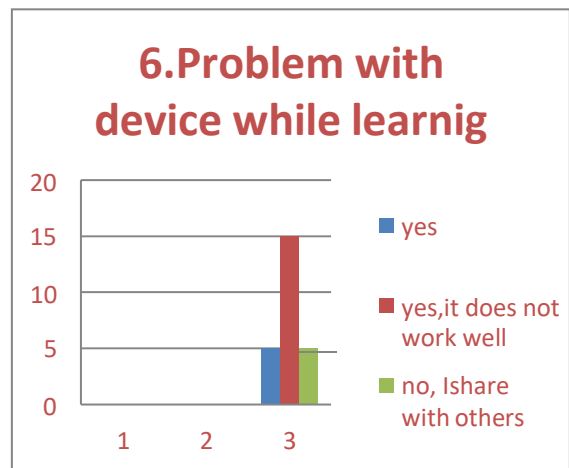

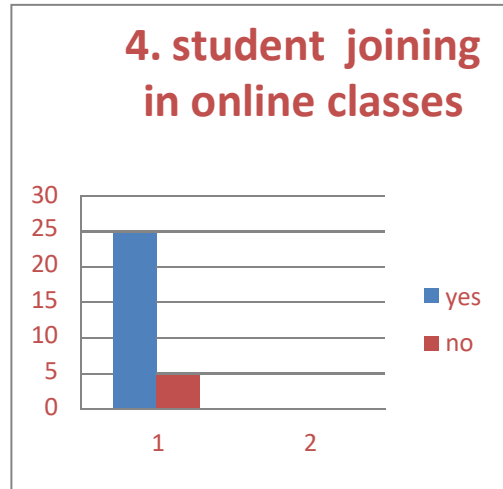

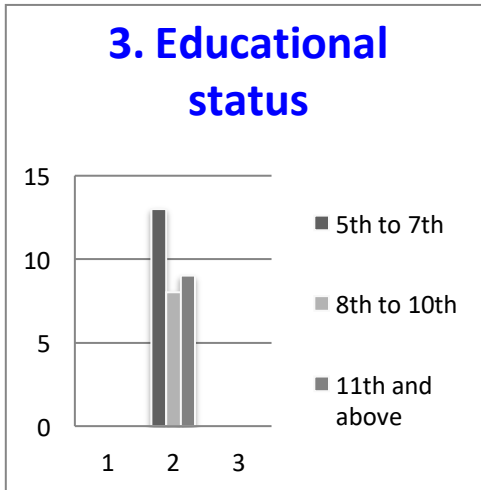

The covid -19 pandemic situation changed learning process completely, At first student education mode was changed to online learning methods in many ways like ICT tools by using platforms like Zoom,Google meet, MS Teams etc . So all the lecturers should make sure that how impacted and implemented to learn and understand in new way of studying the subjects for the students in this online teaching process. For that department of Physics GDC Falaknuma conducted survey on this “Online Teaching process” with some Questionnaire. The entire process was done by 5 selected students who collected information from one respondent each in their neighborhood.

The objective was

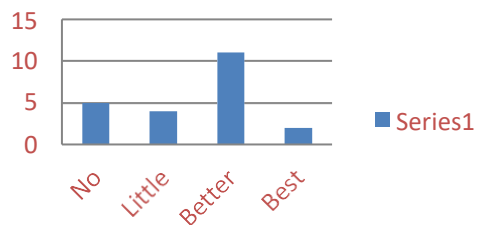

1. To understand that how much online teaching process was helpful to the student in the pandemic situation.
2. How many students can utilize this online method.
3. What type of problems they were facing in this mode.

Finding of the survey are :

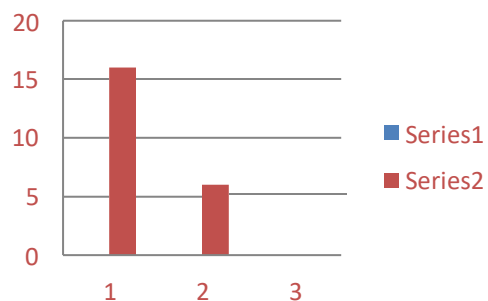

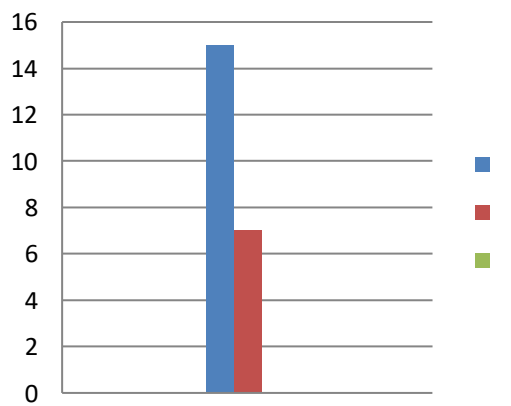

9. Understanding Physics through online

10. Needs of help to do Assignments

11. Openion on online teaching

Survey on Online Teaching Method – Questionnaire

1. Profile of the Respondent

(i) Name of the Respondent (Optional) :

(ii) Gender a. Male b . Female C. Other

(iii) Age (in years) :

a) 10 -12 b) 13-15 c) 16 -21

(iv) Studies

a) 5th -7th b) 8th -10th c) 11th to remain

2. Are you joining in online classes ? Yes /No

3. Through which device you are joining in online classes?

a) Smart phone b) Laptop c) other gadgets

4. Do you access device for learning online?

a) Yes b) Yes, But it does not work well c) No , I Share with others

5. Are you joining in Physics class through online class ? Yes /No

6. By which teaching aids teacher's are using to teach Physics in online teaching?

a) Board b) PPT c) any other

7. How much you are able to understand Physics in online mode?

a) No b) Little c) Better d) Best

8. Are you able to do Physics Assignments without any other help? Yes /No

9. Is it good to learn through online classes? Yes / No

10. Its good to understand through this method? Yes/No
