### BEST PRACTICES: 2021-22

#### **BEST PRACTICE – I: Collection of Bio Data's of Western and Indian Political Thinkers**

##### 1. Title of the Practice:

##### **Collection of Bio Data's of Western and Indian Political Thinkers:**

Department of Political Science has been encouraging the students to collect the Bio Data's of Political Thinkers of Western and as well as Indian.

##### 2. Goal:

Aims and Objectives of the Study:

- To inculcate interest in the minds of students' to know the Bio Data's and Life Histories of Political Thinkers (Western and Indian)
- To motivate the students towards the Book reading and browsing of the Internet.
- To impart various skills such as Presentation Skills and Language Skills etc.,

##### 3. The Context:

To impart the knowledge of western and Indian political thinkers among the students by reading books and browsing the internet through which they gain the knowledge of eminent thinkers.

##### 4. The Practice

Faculty Member of the Political science Department will encourage the students about carrying out the practice of reading books by using college library. Faculty Member concerned will extend guidance and support regarding conducting the survey, the execution and preparation of the report.

I/C Dept. of Political science

Principal GDC, Agraharam

## BEST PRACTICE – II: JIGNASA Student Study Projects

### 1. Title of the Practice:

**JIGNASA Student Study Projects:** Department of Commerce has been encouraging the students to carry out the Student Study Projects under the JIGNASA Programme ever since it was initiated by the CCE in 2016-17.

### 2. Goal:

The main aims of the JIGNASA Student Study Projects are:

- To inculcate research bent in the minds of students' right from the Degree Course.
- To motivate the students to undertake the local issues being faced by the people as their research topics with a view to find out the solutions.
- To hone various skills such as Teamwork, Presentation Skills and Language Skills etc.,

### 3. The Context:

The University Grants Commission always encourages the HEIs to initiate participative, collaborative and project based learning which enable the students to acquire the not only subject knowledge but also various other skills require for employment and entrepreneurship. Keeping this in view, Commissionerate of Collegiate Education, initiated the JIGNASA Student Study Projects Programme to encourage the Govt. Degree College students toward research right from the Degree level. Since 2016-17, the Department of Commerce has been motivating the students to undertake the study projects and to forward the same for the State Level competitions.

### 4. The Practice

- ✓ Every year as soon as the Proceedings of JIGNASA SSP is released, Faculty Members of the Commerce Department will create awareness about carrying out the study projects. They guide the students to choose suitable research problem related to the area where the College is located. As a Research Supervisor, Faculty Member concerned will extend guidance and support regarding conducting the survey, the execution and preparation of the project report.

### 5. Evidence of Success

- As of now, about 4 Student Study Projects were carried out under the Supervision of Commerce Faculty as part of JIGNASA SSP Programme. Of which about 3 projects were selected for State Level Presentation. In 2017-18, 2018-19 and 2021-22, JIGNASA SSP carried out by the Commerce Students were selected for State Level Presentation and the Students performed well.
- Carrying out the JIGNASA Student Study Projects has become one of the best practices of the Department of Commerce as Students are learning various skills besides finding the solutions to the problems being faced by the society.
- Hoping for the State Level Prizes in in future.

## 6. Problems Encountered and Resources Required

There was no funding for conducting the survey, execution and preparation of research report. Entire process require at least Rs. 1500 to 2000 per project. As there is no funding for execution of the project, the Supervisors are bearing the same for the benefit of the students. This funding issue may be addressed for effective execution of the projects.

## 7. Responsible:

**Dr. M. Malla Reddy**  
Asst. Professor of Commerce  
I/c Department of Commerce  
Department of Commerce, GDC Agraharam.

**Members:** Sri. Y. Narsaiah, Lecturer in Commerce  
Sri. T. Aravind, Lecturer in Commerce

I/C Dept. of Commerce

Principal GDC, Agraharam

## BEST PRACTICE – III: Illustration Teaching Method

### 1. Title of the Practice: Illustration Teaching Method

### 2. Goal:

The main aims of the Illustration Teaching Methods are:

- To simplify the way to present the topic by drawing on the black board.
- To help the students understand the topic very easily
- To inspire the students to bring out innate talents i.e. drawing, creativity, imagination, etc.
- To hone various skills such as Teamwork, Presentation Skills and Language Skills etc.,

### 3. The Context:

The Department of English has been using this method to teach in the class room to make clear the doubts, which arises while the class will be going on.

### 4. The Practice

- ✓ In each and every year Faculty Member concerned will use this method to teach the lessons to bring out the best results

### 5. Evidence of Success

- Students are getting good marks especially from the topic 'Prepositions'.
- Some students are improved interests in drawings and paintings
- Carrying out the JIGNASA Student Study Projects has become one of the best practices of the Department of Commerce as Students are learning various skills besides finding the solutions to the problems being faced by the society.
- Hoping for the State Level Prizes in in future.

### 6. Problems Encountered and Resources Required

Nil

### 7. Responsible:

**Dr. N. Srinivasulu**  
Asst. Professor of English  
Department of English, GDC Agraharam.

I/C Dept. of English

Principal, GDC, Agraharam

## BEST PRACTICE – IV: Eco Campus

### 1. Title of the Project: ECO-CAMPUS

Department of Chemistry has been encouraging the students to maintain the college campus clean and green through which they understand the interaction between environment and people live together in a sustainable way. Green campus initiatives are becoming integral part of the modern-day education system and the institutions can act as pioneers in promoting these principles within society. Our college has initiated the green campus program in order to support a sustainable and climate-friendly environment.

### 2. The Objectives:

- Environmental awareness and education.
- The use of sustainable energy and energy efficient measures, comprehensive recycling and composting and green landscaping in the campus.

### 3. The Context:

Our main focus behind this Green campus program is to ensure the sustainability of sufficient water, materials and other resources for our future generation. But the main challenge is the proper translation of the education for sustainable development into practice so that it can be more effective. Any new development should consider and maintain the proper balance of economic, social and environmental conditions and the participation of all the staff members and students is very important.

Our college has tried to implement this program by organization of conferences and training programs for students and staff. More stress is being given on the proper infrastructure development so as to continue and maintain the green practices.

### 4. The Practice:

- Our college has promoted variety of activities to help protect the environment and sustain its natural resources.
- Our college is smoke free and is also a partially plastic free campus.
- The college has addressed its waste disposal problem by vermicomposting.

- The solid wastes generated from the college canteen are used in vermicomposting pits to generate compost which is used in college gardening purpose.
- Currently the college has taken an initiative to construct rainwater harvesting structure at premises.
- The college has also installed LED facilities in the classroom, seminar room and examination rooms. The campus harbours a diverse amount of flora and fauna elements.
- About 50 plant species including medicinal plants are there in the campus.
- The NSS unit of the college deserves a special mention for organizing regular campus cleaning campaigns, awareness program on emerging issues for environmental education.

#### 5. Evidence of Success:

The data for campus audit project was basically collected by the undergraduate students of Botany, zoology and chemistry departments. This has developed a sense of responsibility in them and they get a better understanding of their role as advocates of environmental conservationists. The main problem encountered in the Green campus initiative is development and maintenance of proper infrastructure for the green practices.

#### 6. CONCLUSION:

The Green campus program should be considered as a necessity in every institution and separate funds should be allotted for this. Implementation of the green practices needs series of awareness programs to educate more people and train them for it. Going green not only needs investment in terms of money but also a strong will from all the beneficiaries.
