The Government has launched numerous schemes for the social and economic welfare of the citizens of the nation. Government schemes can be defined as a plan, design or program formulated by the government for the welfare of the people. The Government launches various schemes from time to time having a specific objective. The majority of these government schemes are designed to help the economically deprived, rural, or vulnerable people in society.

The beneficiaries of these government schemes mostly comprise of economically backward or weaker sections of the society and low-income families. The Objective of Union Government Schemes is to uplift the poor section of the society, improve the quality of life, development of rural and backward areas, provide financial security, education and training to the vulnerable section of the nation, provide financial assistance to women, small business and weaker segment of the society and promoting small scale business by providing entrepreneurial and training facilities.

Sheep Distribution Programme

Telangana Sheep Distribution scheme is a financed sheep conveyance conspires in Telangana State, India by the Public authority of Telangana. The public authority by Walk 2018 disseminated 1 crore 28 lakh sheep to the recipients. The plan was sent off on 20 June 2017 by the Central Pastor of Telangana, K. Chandrashekhar Rao of the 1.25 lakhs cost per unit, the public authority gives 75% of the expense and 25% is borne by the recipient. The sheep populace in Telangana is supposed to duplicate to multiple times in two years.

The plan was begun to fortify the country economy through strengthening of Golla and Kurma people group in their customary occupations. It is executed by Telangana State Sheep and Goat Advancement Agreeable Alliance (TSSGDCF). The sheep are bought from

different states, to try not to reuse and build the net populace in the state. The sheep breeds picked are Nellore Brown (Dora), Nellore Jodipi (white with dark spots on face), Deccani and Madras Red

Eligibility

Supporting the conventional shepherd local area, the Kurumas and Yadavas in Telangana is sent off. Each individual matured over a long time from shepherd local area qualified for the plan and is given a unit of sheet, which has 20 sheep and a ram.

By Walk 2018, 1 crore 28 lakh sheep were circulated; to more than two lakh individuals from 7.61 lakh qualified people presented their applications for the sheep units.

Objectives

The State government, under the programme, provided her with 20 sheep and a ram that is a complete unit under the scheme, costing Rs 1.25 lakh. The government also provided her with 206 kg feed and Rs 400 worth of medicines. Under the guidance of local veterinary department officials, Bhulaxmi ensured 100 per cent survival of the sheep flock and in six months, the ewes gave birth to 40 lambs including 15 female and 25 male lambs. Bhulaxmai sold 23 male lambs when they reached a body weight of five to seven kg and retained two for breeding. She is presently earning Rs 2.25 lakh per annum.

Incidentally, Telangana is also the third-largest producer of wool in the country. After Rajasthan and Jammu and Kashmir, Telangana now produces the third highest quantity of wool in the country. In 2019-20, 3,96,000 kg of wool was produced in the State. The State government has been emphasising on strengthening the rural economy and its flagship programme of distributing sheep for rearing is helping the shepherd community reap good

About six lakh families are dependent on sheep and goat rearing in the State. The Telangana State Sheep and Goat Development Corporation Cooperative Federation Limited under National Cooperative Development Cooperation (NCDC) assistance are taking up different initiatives aimed at increasing the income of the shepherd community.

To study Telangana welfare Schemes in Telangana

To study Socio-Economic Background of the Yadav and Kuruma Communities in Telangana

To study the profile of the study area

To examine sheep distribution scheme and its implementation

To analyze how sheep distribution programme uplift specific community in Telangana

Source of data

There are two types of data sources: Primary and Secondary source of data Primary data: Primary data which is directly collected from the respondents. Secondary data: books, publications, the unpublished and published theses book Welfare Schemes, Documentation, and books.

Methodology

For the purpose of the study I have chosen both primary and secondary source. We have selected Mahabubnagar District. In the study area we would select respondents on the basis of rural area in the District; we will choose beneficiaries randomly 15 respondents from 5 mandals total respondents 90. We will prepare structure questionnaire for enquire about scheme and its implementation.
