SANGAREDDY**

34th Hyderabad National Book Fair N.T.R. Stadium, Hyderabad - 28 December 2021

A book is a guide. All those who read books may not become great people, but most of the great people have the habit of reading books. Only a few of the thousands of books published every year have the incredible power to influence a person's life, so it is our responsibility to seek them out. Reading helps to expand their thoughts and develop maturity in the fields of their choice. It sharpens our brain and gives us concentration. Reduces stress and increases awareness. Gives discretion as well as analytical power. It guides us in word, deed and writing. We should receive the book and keep it available by asking ourselves how long has it been since we saw the face of the book in this hectic life. Increasing book reading is a collective responsibility of society. Mrs Sardar Jyothi Assistant professor of Hindi department organized a field trip for the students.
