REPORT ON FIELD TRIP TO DAMON ORGANICS WOOD COLD PRESSED OILS INDUSTRY, Rakasipet, Bodhan

Organized by
Department of Botany, Government Degree College – Bodhan.

A field trip is organized by Dept. of Botany, Gdc – Bodhan on 28th march 2022 with B.Sc BZC I, II & III Year students to “Damon Organics – wood cold pressed oils industry” in Rakasipet, Bodhan. Total 35 students have participated in this field trip and it is organized by G.Naveen kumar, Lecturer in Botany.

OBJECTIVES OF THE FIELD TRIP:

- To know the oil seeds used in oil production and their processing.
- Creating awareness on health benefits of using wood cold pressed oils.
- Knowing different steps involved in wood cold pressed oil production.
- Providing an opportunity to the students to know about the establishment and maintenance of the industry for future self employment.

Cold pressed oil is purer and has a better flavour than oil expressed with aid of heat. Cold pressed oil is obtained only by crushing the seed without applying any heat or using any chemical solvents, free from chemicals. Hence it retains majority of their nutrients due to a heat free and chemical free manufacturing chemical procedure.

Students observed and understood the complete procedure of extracting oil from chick pea, sesame and coconut. students have also interacted with the manager of the damon organics and asked several questions and doubts like how much he is earning by marketing wood pressed oils, from where and how purchases raw material, the amount he spent for establishing the company, quality of oil, weather the bank provides financial assistance for establishing the oil company and how cold pressed oil is helpful in improving the health.

During this field trip students have understood many aspects that how wood cold pressed oils extracted from different type of oil seeds, the demand for these oils in the market. As the cold pressed oils have great demand in the market, interested students can also start this business after their successful completion of graduation. Hence they can become an entrepreneur and can also provide livelihood to many people. This field trip has made the students learn so many aspects.
