

It is about getting awareness over local history through analyzing the available evidence

Objectives:

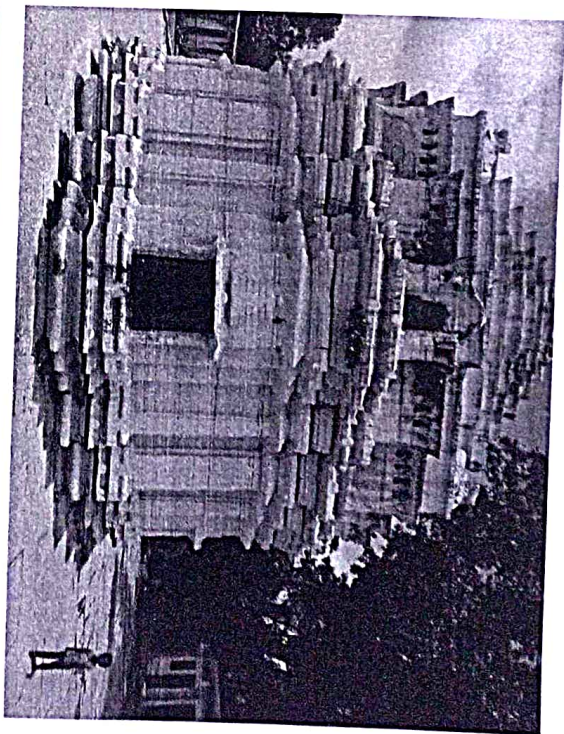

- 1) To bring awareness about the rich history of the locality
- 2) To enable students learn how to estimate and recreate history
- 3) To induce research nature
- 4) To create awareness about various sources of history
- 5) To enable more job opportunities through history
- 6) To take pride in the subject.

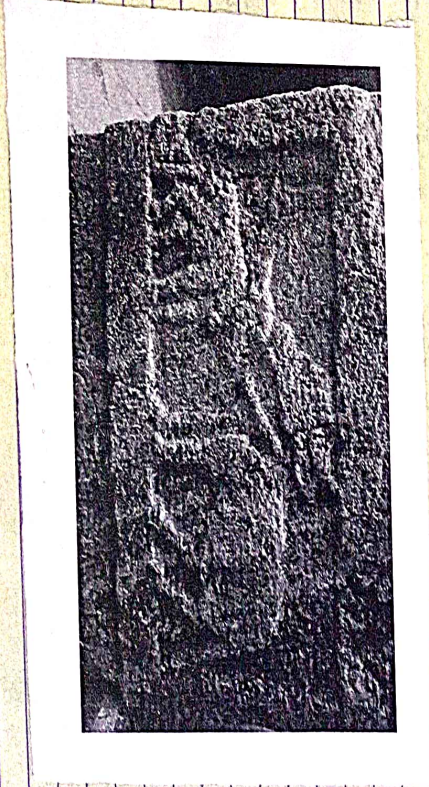

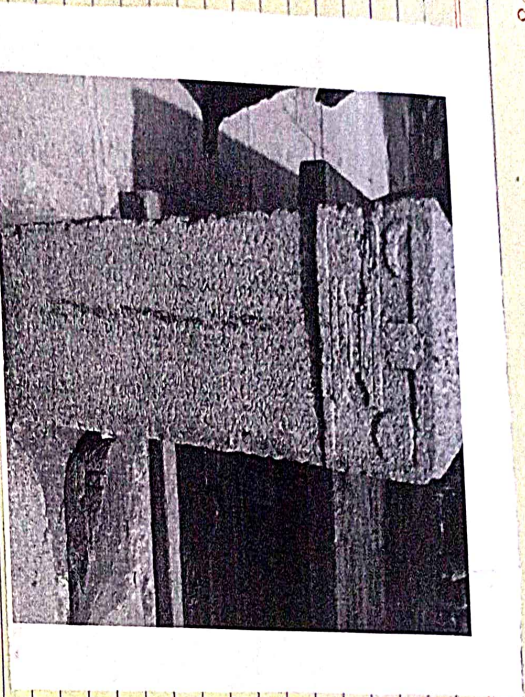

The Practice:

The students are asked to observe antique things at historical places, inscriptions, ruins, ancient temples, old coins, excavations, designs, art and architecture anything which they find interesting and record the evidence either by taking photos or collecting the material itself. They are asked to record their observations in a document. Later they can analyse or estimate data through the archaeological department.

Evidences/Findings:

Students expressed extreme interest and started observing various places in the surrounding areas for stimulating history. Few have discovered some amazing things that date back to 1258 135 century.
