Field trip-2021-22

1. Details of the Field trip:

Place and Locations of the Field trip: Usha tiles & pipes industry, Nehru Nagar

Date: 04/11/2021

Name of the Lecturer: T.Raju

No. of Kms from the college: 25 km

No. of students participated: 18

Introduction:

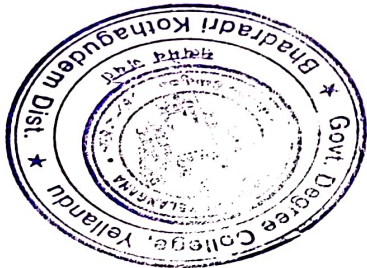

GDC, Yellandu: A field trip to a nearby Usha Tile industry was arranged for the BA, B.COM, and B.Sc III and Vth semester students. They were all excited about the idea of visiting a Usha tile factory. We took the Tata Magic vehicle to the factory. The students were so excited to see different types of tiles in the factory and to write down the stages of tile production in English.

Students observed different varieties, and their teachers helped them understand the production of different types of tiles and their features. The students were so excited. By the end, students started recognising the different varieties of tiles and stages of production. They use English vocabulary to write down the entire production.

Methods of study

We used the following research methods:

- Interviews;
- Photography;
- Observing.

Findings

Our research and field trip let us learn the following information:

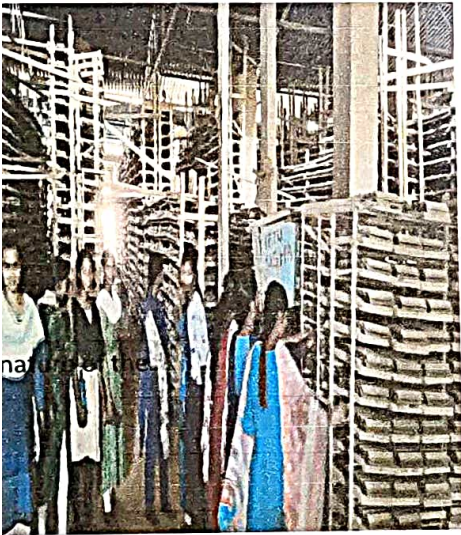

- Understanding the production of different types of tiles
- The hardships of labour in the factory
- Observing the market trends
- Materials used in the factory

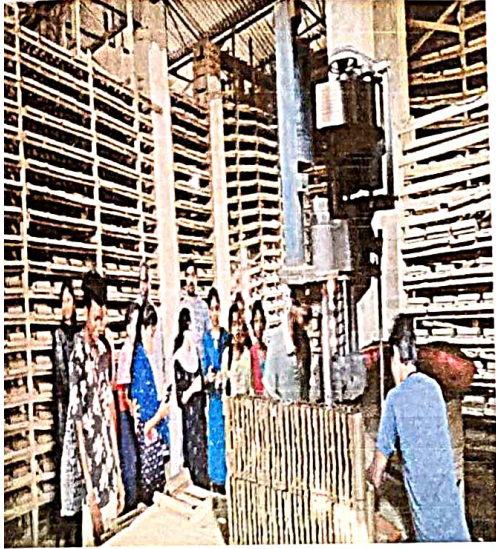

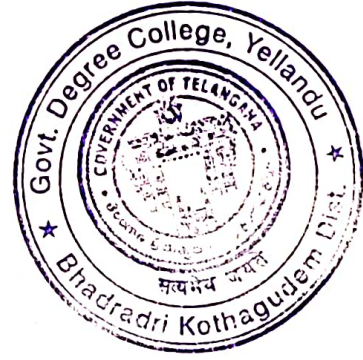

Benefit for the English students:

Students used the new vocabulary to write down the report.

While asking the questions, they converted the T elugu language to English.

They write down the report of the different stages in making the tiles in the factory.
