

Two best practices successfully implemented by the Institution

1. Door to Door to Admission Campaign: All the teaching staff and students were divided into three teams and visited all the nearby Govt. Junior Colleges for admission campaign for the Academic Year 2021-22 by explaining the students about rich facilities available

at the college. The Teams have collected the Inter Second Year students' data to contact over phone and to visit their homes. The Teams have visited the students' homes directly and explained how to get admission through DOST website and created awareness to the parents of the students about courses, experience of staff and physical facilities in an attractive manner. As a result, the college strength increased more number compared with previous academic year.

Best Practice: 2. Identification and Naming the plant by department of botany. Plants are identified and tagged with the scientific name and also given QR Codes to each and every plant. It will be easy to each and every one by clicking the QR Code they will know all the details about the plant like species name , use of the plant etc details available,

IDENTIFICATION AND NAMING OF PLANTS

The department of Botany of the college conducted a special programme for identification and naming of the plants in the college premises. The plants are identified and scientific names are given to them. Students are also involved in this programme.
