Government Degree College, Khairatabad, Hyderabad

Department of Chemistry

Best Practices

2018-19

1. Plastic free campus (2018-19)

ECO-FRIENDLY INITIATIVE: PROJECT ON MAKING CAMPUS PLASTIC FREE

The Departments of Physics, Chemistry and Mathematics have planned for a student project on continuous collection of scattered plastic wastage in the college premises as an Eco-friendly initiative during the academic year 2018-19.

The project plan was designed by the faculty members of the Physical Sciences and the interested students were identified for taking up this initiative.
The design includes three steps:
1.The collection of all forms of Plastic material found in the premises of college.
2.The collected waste which is not useful is sent for recycling process.
3.The collected waste which is in useful condition like water bottles are used for plantation
purpose in the college.

The interested students of I and II-year MPC and MPCs of 150 in number are assigned the above duties once in a semester to execute the project successfully.
The convenors of the project are:
1.Dr.V. Vijaya Lakshmi
2.Smt.N. Chandana
3.Smt.N. Jayaleela

2. Gold medal sponsored by Dr. V.Vijaya Lakshmi to the student secure highest marks in Chemistry.

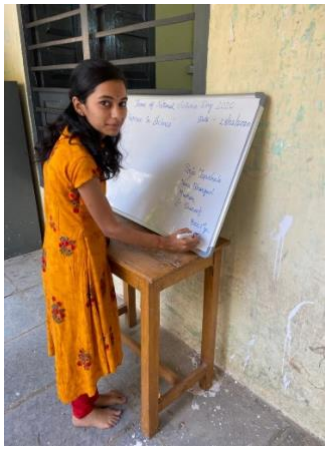
3. Ms.T. Aruna Kumari : Text books donation to B.Sc. second year students

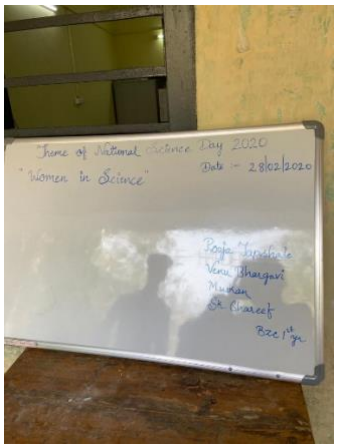
2019-2020

1. Plastic free campus project (2019-20)

2. Donations to Mother India orphanage by the Staff of Chemistry Department.

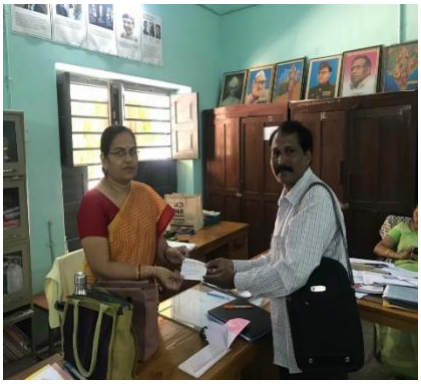
3. Writing chemistry quotes and chemistry of daily used products on whiteboard in front of the chemistry department.





2020-21

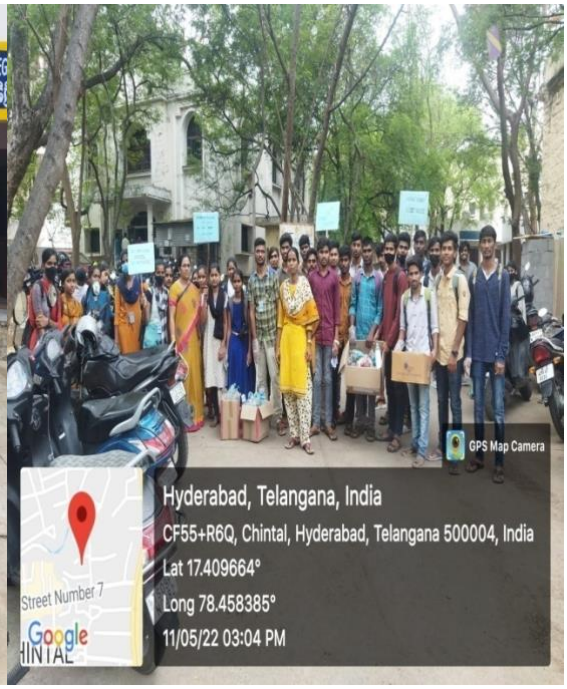
1. Donations to Mother India orphanage by the Staff of Chemistry Department.



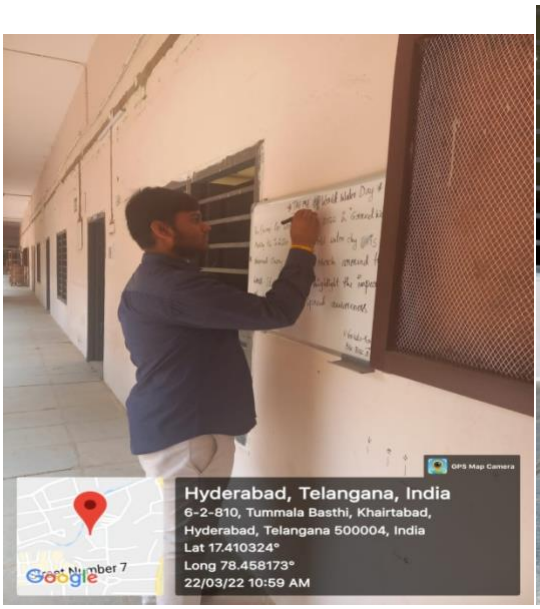
2021-22

Best Practices:

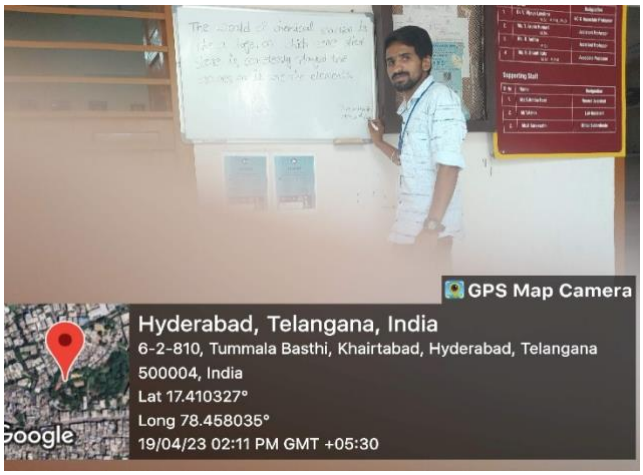
1. Plastic Free Campus:



2. Chemistry Quotations on White board



3. Issue of PG Entrance Material to final year students:
4. Note Books donation to Indian Red cross high school :

BEST PRACTICES (2022-23)


1.Writing Chemistry Quotations on White Board in front of the department.
