7. Quiz competition

The Department of zoology conducted quiz competition for Final year students on topic "Basics of Immunology" on 22-10-2022. 20 students participated in quiz, the students were made into two groups A & B. each question was for 10 points and group A won the quiz with 95 Points.

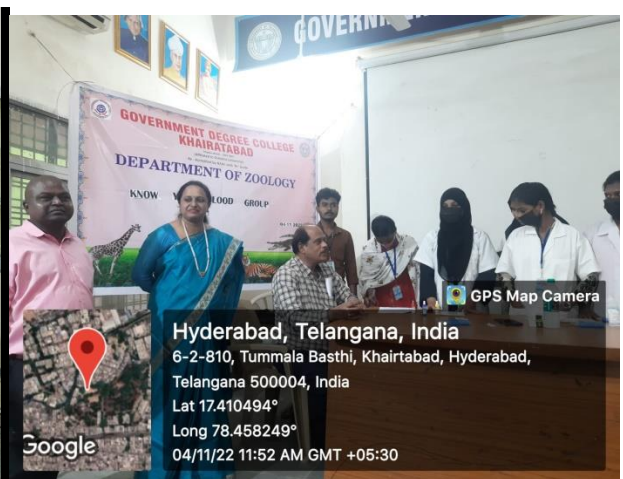

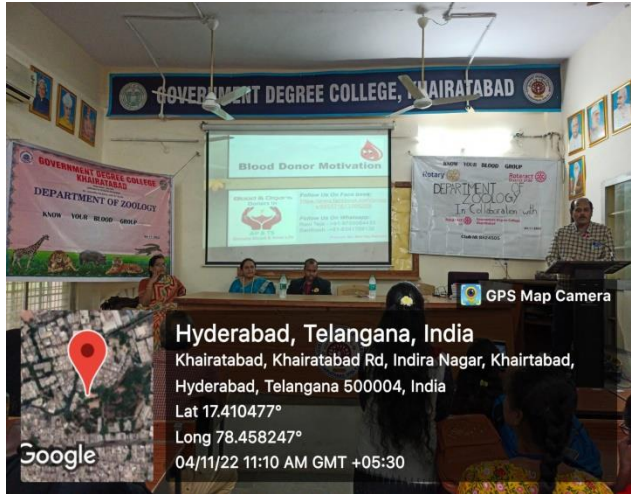

8. Extension activity: Know your blood group

Department of Zoology in Association with Rotaract Club-GDC Khairatabad has organized “Know Your Blood Group” program on 4th November 2022. This program is sponsored by “Rotaract Club of Youth United”. Mr. Santhosh (from Community service Rotaract Club) and Ms Laazwanthi (President, Rotaract Club of Youth United) participated in the program on behalf of Rotaract Club of Hyderabad.

Mr. Santhosh enlightened students about the importance of knowing their blood group which plays a significant role in blood transfusion (blood donation and blood receiving). He explained how a blood donor can save life of another person who is in need of blood either due to accident or due to diseases like thalassemia. He also explicated about organ donation. Students of all groups enthusiastically participated in the program. Around 150 students got their blood tested. Our beloved principal and lecturers of Zoology also got their blood group identified to encourage the students to get their blood group identified.

Staff involved: Ms Suprabha Panda, Dr. P Anuradha, Dr. K Vijaya Prasada Rao.

No of students attended: 150

Hypothyroidism in Women worsens PCOS:

- Hypothyroidism, and in particular Hashimoto's thyroiditis, is more common in people with PCOS than in the general population. Hashimoto's is an autoimmune disorder in which the body attacks and damages the thyroid gland, leading to hypothyroidism.
- A 2013 study from India found that 22.5% of women with PCOS had hypothyroidism compared to 8.75% of those without PCOS.³
- A 2015 study from the National Institutes of Health reported that 22.1% of women with PCOS had Hashimoto's thyroiditis compared to 5% of women without.
