

DEPARTMENT OF CHEMISTRY

PROGRAM OUTCOMES

- **Employable skills for job opportunities**
- **Inculcate research and development activities**
- **Advanced knowledge and practical experience in chemistry**
- **Apply appropriate techniques for the qualitative and quantitative techniques in laboratories**
- **Helps in understanding the causes of environmental pollution**
- **Acquires ability to synthesise, separate and characterize compounds using laboratory and instrumentation techniques**

COURSE OUTCOMES

- **Students able to Handle equipment**
- **Develop research oriented skills to work in Industries**
- **Know structure activity relationship**
- **Understand good laboratory practice and safety**
- **Work in Industries as Research Associate**
