STUDENT SEMINOR 2018-19

Student name :Nadim.

Class:2nd -B.A.

Group:H.E.P.

Topic: Modern State Elements

Introduction: The term 'state' is used interchangeably with other terms like 'government' 'nation' 'society' country etc. But it is distinguishable from all.

Meaning: When society is organized on a political basis in a given territory, and when human beings come together for the common purpose of having a common code of behaviour or for respecting a common set of laws.

Definitions:

The term state has been defined by many political thinkers in different ways. To quote Prof Mac Iver " some writers define the state as essentially a class structure others regard it as the one organization that transcends class and stands for the whole community.
