(Affiliated to Palamuru University)

**Certificate Course in Organic Farming**  
(Offered by the Department of Botany)

2022-2023

Date:02-11-2022

To  
Principal,  
Dr. BRR Government Degree College,  
Jadcherla,

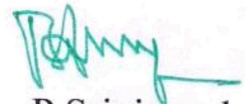

Madam

Sub: Department of Botany planned to conduct Certificate  
Course in Organic farming from 9-11-2022 to 21-12-2022  
request permission regard

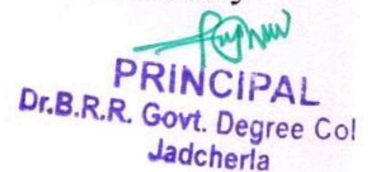

In pursuance subject cited the Department of Botany is planned to conduct Certificate Course in Organic farming from 9-11-2022 to 21-12-2022 to BSc BZC and BZCs students. Students who complete this certificate program gain knowledge of Organic forming and access to a range of employment opportunities the cost of organizing the program will be covered by the examination branch.Hence, I request you that kindly permit me to conduct certificate course in organic farming.

Thanking you madam

Yours faithfully,

P.Srinivasulu

## 1. About the Course:

Organic farming is a type of agriculture that relies on biological fertilizers and pest controls made primarily from plant and animal wastes as well as nitrogen-fixing cover crops. Organic agriculture is now widely understood to be farming without the use of synthetic pesticides and conventional fertilizers. This shouldn't be interpreted as a definition but rather as a feature of the rapidly expanding field of socially and environmentally conscious agriculture. India is quickly becoming a significant hub for the production and export of agricultural goods made organically.

Undoubtedly, agriculture that uses agrochemicals in huge quantities has increased the production of farm goods significantly, but these chemicals also have negative impacts that are readily apparent in the soil structure, soil microbiology, water quality, food, feed, and food products. The use of biofertilizers instead of chemical fertilizers offers farmers economic and ecological benefits by improving the health and fertility of their soils. Organic farming is undoubtedly a solution for producing a safe, good, and clean environment. The course "Organic farming" is provided in light of this justification. The course's information is intended to inform and enlighten those who are interested in organic agricultural practices.

## 2. Employability:

- Organic Farmer
- Organic Food Marketing
- Organic Farming Trainer
- Organic Agricultural Fieldperson
- Organic Food salesperson
- Organic Certification Manager
- Organic Farming Trainer

### 3. Course Details:

1	Programme Type	Certificate Course
2	Mode	Offline
3	Eligibility	B.Sc. (life science)
4	Department	Botany
5	Duration	09.11.2022 to 21.12.2022 35 days (5 weeks) Per week 4 theory and 2 Practical hours=6Hrs. 30 Hours (Theory, 20Hrs. +Practical's 10 Hrs.)
6	Specialization	Organic Farming
7	Fee Structure	Free
8	Programme Coordinator	P. Srinivasulu, Asst. Professor of Botany, Dr. BRR Govt. Degree College
9	Programme Convener	Dr. B. Sadasivaiah, Asst. Professor of Botany, Dr. BRR Govt. Degree College
10	Programme Convener	K. Latha, Lecturer in Botany, Dr. BRR Govt. Degree College
11	Course Presenters	1.P. Srinivasulu, Asst. Professor of Botany, Dr. BRR Govt. Degree College 2. Dr. B. Sadasivaiah, Asst. Professor of Botany, Dr. BRR Govt. Degree College 3.K. Latha, Lecturer in Botany, Dr. BRR Govt. Degree College

#### **4. Objectives:**

- Increasing the number of jobs available to young people in rural areas as organic growers, stakeholders, and entrepreneurs.
- To develop first-generation organic farmers, field workers, and extension agents in rural areas.
- To develop a workforce that will assist, mentor, and educate people on how to use practices like multilayer
- cropping, crop waste management, nutrient management, water management, and others to double farmer income at the village level.
- To develop professionals for the facilitation of organic certification.
- To educate village-level trainers in organic management practices, with a focus on soil health-based crop
- Management, nutrient management, and plant protection, including formulation methods for conventional biofertilizers, biopesticides, and soil health promoters.
- To train instructors in organic management techniques at the village level, with a focus on equipping trainees at the village level with skill and knowledge.
- To teach the necessary skills at the village level for organic farming methods and associated marketing economics

## **5.Theory Syllabus:- 20Hrs.**

### **UNIT: I- 5Hrs.**

Concepts of Organic Farming- Principles and approaches - Characteristics of an Organic Farm- Composting and Manuring- Vermicomposting Techniques- Identification of Vermicomposting Worms

### **UNIT-II- 5 Hrs.**

Harvesting of Vermicompost and Preparation of Vermiwash- Biofertilizers and other practices to control diseases- Cultural and Mechanical practices of plant protection- Biopesticides and other practices to control diseases- Preparation of Botanicals

### **UNIT-III - 5Hrs.**

Seed and Planting techniques in Organic Farming- Livestock Management in Organic Farming- Crop Rotation Practices in Organic Farming- Water Management in Organic farm- Organic Standards

### **UNIT-IV -5Hrs.**

Procedure of Inspection and Certification- Documentation for Organic Certification- Quality Management and Organic Trademark- Concept of Marketing and Indian Organic Market- Economics of Organic Farming and Government Schemes to support Organic Farming

- 5) Mahender G P, Singh H, Kumar V. and Singh N (2018) Botanicals in Insect Pest Management, Anu Books, New Delh

## **7.Practical Syllabus: - 10Hrs.**

**a. Preparation of FYM/Rural Compost / Different types of composting (3 hours)**

- Preparation of compost pit at appropriate location
- Lining of the pit with brick, polythene sheet
- Collection and accumulation of raw materials
- Aerated/Non aerated pits for quality manure production
- Collection or rotted manure and post-treatment Interaction

**b. Preparation of seed bed & raising of seedlings: (3 hours)**

- Wet seedbed, manuring, sowing (broadcasting)
- Dry seed bed, bed size, manuring, soil treatment, actual sowing in line/broadcasting, weeding, watering, hardening of seedlings, the time requirement for seedling growth, uprooting seedlings.

**c. Raising seedlings in pots/seed pans: (2 hours)**

- Preparation of potting mixture, and its treatment.
- Seed treatment, making seeds ready for planting in seed pans.
- Seed sowing, very small seed, medium and large seeds
- Aftercare-germination till seedlings are ready for planting through hardening

**d. Preparation of Vermicompost: (2 hours)**

- Erection of Vermicompost structure with cover
- Drainage arrangement and collection of the liquid
- Raising leguminous crops around the pit Collection of raw materials & Processing
- Putting active worms (specific sps.) and processed raw materials in the pit
- Collection of the final product (Vermicompost)

**8. Course Outcomes:** Students will be able to:

- Understand the advantages of organic culture.
- To learn more about the farming methods used for staple food crops.
- Recognize modern techniques for crop management.
- Learn about the effects of organic farming and native techniques on the ecosystem.

**9. Assessment:**

1. A student is assessed for 100 marks. The final assessment is made as given below.
  - a. A student is assessed for 60 marks by a written test.
  - b. A student is assessed for 40 marks by a Practical exam.
2. A Student must secure 40 percent of marks in theory and practical to pass.

**10. How to Apply:** Interested III<sup>rd</sup>-year students (SemesterV) are informed to register your names with your details at the Department of Botany.

**Department of Botany**  
**Certificate Course in Organic Farming**  
**Theory Exam**

**Time: 2.30 Hrs**

**Max. Marks: 60 M**

**I. Answer any four questions**

**4X10 Marks = 40 Marks**

1. Describe the different methods useful in vermicomposting
2. Explain the characteristics of a model organic farm
3. Explain the role of biofertilizers in organic farming
4. Explain the role of biopesticides in controlling diseases
5. Describe the livestock management in organic farming
6. What is the active role of the crop rotation system in organic farming? explain it
7. Explain the documentation process in organic farming.

**II. Answer any four of the following**

**4X5 Marks= 20 Marks**

1. Organic certification
2. Economics of organic farming
3. Water management
4. Benefits of organic farming
5. Seed techniques
6. Botanicals
7. Verm wash
8. Organic standards
