Remedial Classes 2022-23

**Date: 24-03-2023 to 01-04-2023**

Department of Computers

Remedial classes (also known as developmental education, basic skills Education, compensatory education, preparatory education, and academic upgrading) are assigned to assist students in order toachieve expected competencies in core academic skills such as literacy and numeracy.

Objectives:

- To motivate and help the academically weaker students to realize their weakness and helpthem to improve on their fronts.
- Improving academic skills of the students in Computer Science.
- Raising their level of comprehension of basic programming problems to provide a stronger for furtheracademic work.

Remedial class for who is failed in computer subject "**Data Structures using C++**"

Findings:

The findings revealed that remedial class **improved the competencies of low achievers**. As it helped them enhanced knowledge, improved performance thus were motivated to learn.

Conclusion:

Remedial teaching is a form of teaching that is given to students who have barriers to learning. Because the fact still many students who have not been able to achieve the expected learning outcomes. Remedial teaching has a function to help students to be able to achieve the expected learning outcomes. Broadly speaking, remedial teaching is teaching a repeat of previous teaching primarily on material that has not been mastered.
