Lr.Rc.No.____/Field Study/GDCW/KMM

Date: 03-12-2022

To,

Superintending Engineer,
Mission Bhagiratha Circle,
NST Road, Khammam,
Khammam District.

Respected Sir,

Sub: Field Study of III-Year Life Sciences & Physical Sciences students of
Government Degree College for Women, Khammam, Khammam
District to Mission Bhagiratha Circle - Permission - Req-Reg.

With reference to the subject cited above, it is bring to your kind notice
that Department of Botany of our institution is **planning to visit Water
Treatment Plant at Jeellacheruvu on 15-12-2022** as part of their syllabus
"Water Resources Management".

In this connection I request you to give permission to allow of 70 students
and one In-charge person **Smt. P.KRISHNAVENI, Head Department of
Botany, Government Degree College for Women, Khammam, Khammam
District** for the benefit of the rural women students.

Kindly acknowledgement receipt of the same.

Thanking You,

Yours Sincerely,

PRINCIPAL
Govt. Degree College for Women
KHAMMAM

Outcomes:

- Students learn about the steps involved in the water treatment process,
- They know the various methods purification of water for safe drinking purpose.
- They also gain practical knowledge about the operation of water treatment plant, including the equipment and processes used to trat water.

Feedbacks of Students:

K. Laxmi Sirisha, V semester MPC

I am K. Lakshmi Sirisha. It is the feedback on the field trip to Jellacheruvu water plant.

Jellacheruvu water plant is such a peaceful place. Through this trip we can get an complete idea how the water is getting purified. Jellacheruvu water plant is also called mission bhageeratha, the person who is supervising that plant explains each and every step of purification, not only him but also our chemistry sir, Rakesh sir and Krishna veni madam, explained the chemical process involved in this purification process.

My opinion is we get an complete knowledge about purification process of water, without reading any theoretical part of this purification we can attempt this question in exam, not only in examination purpose but also we can get knowledge that what type of water is we are drinking in our day to day life.

Thank you madam for making us to get an nice experience and took us to an productive and informative trip.

T. Vijaya Laxmi, III BSC BZC

I am T. Vijaya Laxmi from BZC, it is the feedback on the field trip to Jellacheruvu water plant.

Krishna veni madam and Rakesh sir arranged this field trip. It was a great experience. We went there through bus by 10 'o' clock. And started our journey in learning about mission bhageeratha. Through our lecturers we know some information about jellacheruvu water plant. After we visited it, we learnt more information about jellacheruvu water plant.

Mission bhageeratha is a great innovation from Telangana by our chief minister NCR gauru. The workers over there helped us to know more about the project and how it plays a key role in human life.

Through this field trip, we are not only aware of the mission bhageeratha, we also learnt how to be innovative. Some how it inspire us to think widely. For me it was really a great opportunity. I can use this experience in my exam (Water Resource and Management). Apart from it, it also useful to improve my knowledge.

T. Vijaya Laxmi.

Morla Amulya, V semester BZCS

Feedback on
A field trip to a Jellacheruvu WTP

Place :- Jellacheruvu water treatment plant
Date :- 15/12/2022

On 15th Dec Government Degree college for women Khammam, Department of life sciences organized a field trip to visit a place which is known as jellacheruvu-water treatment plant. The field trip was a part of our syllabus in 5th semester and the subject is water Resource management. That day all students came to the college at 9:00 am with proper uniform and we started our journey along with my teachers Krishna veni madam [Dept of Botany] and Rakesh sir [Dept of chemistry].

In Jellacheruvu WTP we saw how the water of mission Bhageeratha was distributed to surrounding villages. We saw the entire system of how the water comes to water treatment plant and how the water was purified and how the water was distributed. The WTP is a big system and the water gets filthy many times. The WTP was located at out of Jellacheruvu. We wrote down some points about this in our notebooks. After that we took group photographs with all students and teachers. We came back after spending about 4 hours there. This is a beautiful trip gave us a lot of memories.
