FIELD STUDY AT VELUGUMATLA URBAN FOREST

31.10.2019

Request Letter

Khammam,
Dt.28.10.2019.

To,
The Principal,
Government Degree College for Women,
Khammam

Sub: Request for Permission to conduct Field Visit – II year I semester
Botany students of Govt. Degree College for Women, Kmm- Reg.

This is to submit that as part of BSc. III semester Botany curriculum, (Taxonomy of Angiosperms and Families) we intended to organize a field study at Urban Forest, Velugumatla, so that our students get acquainted with plants belonging to different families.

Hence, we request you to kindly permit our Botany II year students (40 members) on 31.10.2019 to visit Urban Forest, Velugumatla.

Thanking You,

Yours Faithfully,

Dr. R. Sneha,
In Charge,
Dept. of Botany,
Govt. Degree College for Women, Khammam

PRINCIPAL
Govt. Degree College for Women
KHAMMAM.

On the Spot Pictures

Student Outcomes – Students observed variety of plants, herbs, shrubs and trees. They noted their Botanical name, common name and family with brief description. They also collected twigs with inflorescence for the preparation of Herbarium. They appreciated the harmony in biodiversity.

Feedback of Students:

Sk. Sadiya, BSC BZC, III Semester

Velugumatta Park is beautiful place where everyone love to go. Because it is an open place to relaxing, Adventuring and playing. That's time... going with my friends it is One of my Amazing trip. The park have green grass, plant and trees it's looking beautiful. That's time I'm very curious to know about the plants and we collected some botanical plants for the practical. Walking in the park, play with friends, adventuring... it's give me lots of Experience and happiness. I never forgets this. After at the end we all sit on park benches for take the Pictures. it's very memorable day for me. THANKYOU MAM... for making my trip absolute perfection.

Sk. Sadiya

Dara Navya, BSC BZC, III Semester

Our Botany Lecturer krishnaveni madam took us to field trip to the velugumatta urban park to specify the medicinal plants and to know the uses of them. We all went there and found a lot of medicinal plants, we are very excited and felt very happy and was surprised when we got to know about them. Our Botany lecturer explained us about every plant in very detailed manner and we also collected them for the herbarium.

There we found lots of medicinal plants like Phyllanthus amarus, Andrographis paniculata, Emblica officinalis which used to cure hyper acidity, diabetes and Withania somnifera which cures nerve disorders. Not only these but we found and learnt lot of different plants there, we felt very joy in these, instead of sitting and learning in classroom the experience like field trip are very best, we collected lots of plant specimens from there, learning with happy and joy always makes us to learn easily and clearly. We all discussed everything.

After completing that we also enjoyed some games there like rope climbing, jumping and net climber which made us more happy, we also took lots of pictures there for our memories.

I really thank our Botany lecturer ma, Krishnaveni madam for doing this for us, we learnt lot of you cause of you only madam.
