## Field trip. (2022-23)

Department of Political Science Government of Begree college, Huzurabad organised field trip for BA I, II, III year students on 21/11/2022 Kaleshwaram, Jayashankar Bhupalpally.

Objectives : Students know about the temple of Kaleshwaram

→ This is revered temple is dedicated to the worship of the powerful Lord Shiva

→ The temple is located in the place where 3 rivers are confluence together

In these we can able to see 2 rivers Godavari from Telangana and Pranahitha from Maharashtra - and the remaining river

is Saraswati which is believed that it flows under those both rivers.

### Kaleshwaram

Anent on the subject cited above, I would like to bring a few words for your kind consideration and necessary action. The students and the faculty of our college (30 in number) are going for an educational Tour 2022 – 23 and would like to visit your prestigious institution. I request your kind authority to permit them to visit your institution and interact with your officials which can enable to them to enhance their knowledge and skills.

Thank you sir/madam,

Yours faithfully,

  
Principal

GOVT DEGREE COLLEGE  
Huzurabad.

### **Objectives of the field trip:**

1. To learn grouping of the soil into categories relative to the nutrient level
2. To learn how to provide the basis for fertilizer recommendation.
3. To learn correlation between soil analysis with crop yield.
4. To learn how to collect soil sample carefully.
5. To reinforce experiential and contextual learning through hands-on experience.
6. To learn novel things in authentic settings.
7. To link classroom lessons to the life and also with the community.

## LIST OF THE STUDENTS PARTICIPATED IN FIELDTRIP

S.NO.	NAME OF THE STUDENT	CLASS
1	B.AKASH TEJA	BZC III YEAR
2.	K.HARINADH	BZC III YEAR

## **REPORT OF THE FIELDTRIP**

Department of Chemistry organized a field trip to Regional Agriculture Research Station Prof. Jayashankar Agriculture University Warangal on 28.02.2023 with B.Sc III year and B.Sc II year students. This event is flagged off by Mr. G. Paramesh Principal of this college. At Regional Agriculture Research Station Administrative Officer Mrs. Shakunthala guided us and the research scholars explained the procedure of sample collection of soil and testing .They also demonstrated the determination of micro and macro elements present in the soil and explained how the deficiency of these elements effects the plant growth intern crop yield. In this program our college Principal Mr.G.Paramesh, Department in-charge N.Udayasree and other faculty members participated.

## FIELD TRIP OUTCOMES

1. Students observed and learned about different types of soils.
2. Students gained practical knowledge by observing the techniques.
3. Students understood the relation between theory and practical.
4. Students learnt the correlation between soil analysis and crop yield.
5. Students also learnt the social responsibility by sharing this knowledge with their neighbours.

Principal  
Govt Degree College  
Huzurabad Karimanagar

## Soil Analysis

**RATING OF PHYSICAL, PHYSICO-CHEMICAL AND CHEMICAL PROPERTIES OF SOIL**

SOIL DEPTH		AVAILABLE PHOSPHORUS (P <sub>2</sub> O <sub>5</sub> ) (kg/ha)	
Very deep	> 150 cm	Low	< 25
Deep	100-150 cm	Medium	25-59
Moderately deep	75-100 cm	High	> 59
Moderately shallow	50-75 cm	AVAILABLE POTASSIUM (K <sub>2</sub> O) (kg/ha)	
Shallow	25-50 cm	Low	< 145
Very shallow	10-25 cm	Medium	145-340
		High	> 340

**GRAVELLINESS AND STONINESS**

Strongly gravelly/stony	35-60 per cent
Moderately gravelly/stony	15-35 per cent
Non-gravelly or Slightly gravelly	0-15 per cent
Gravel	Between 2 mm and 75 mm diameter
Stone	Between 75 mm and 250 mm diameter

**SLOPE**

Level to nearly level land	0-1 per cent
Very gently sloping land	1-3 per cent
Gently sloping land	3-8 per cent
Moderately sloping	8-15 per cent
Moderately to steeply sloping	15-25 per cent
Steeply sloping	> 25 per cent

**SOIL pH**

Slightly acidic	6.1-6.5
Neutral	6.6-7.3
Slightly alkaline	7.4-7.8
Moderately alkaline	7.9-8.4

**CRITICAL LEVELS OF MICRONUTRIENTS IN SOILS**

Nutrient	Critical level (mg/kg soil)	
	Red soil	Black soil
Zinc (Zn)	0.60	0.70
Copper (Cu)	0.20	0.30
Iron (Fe)	4.00	5.00
Manganese (Mn)	2.00	3.00
Boron (B)	0.52	0.52
Molybdenum (Mo)	0.20	0.20

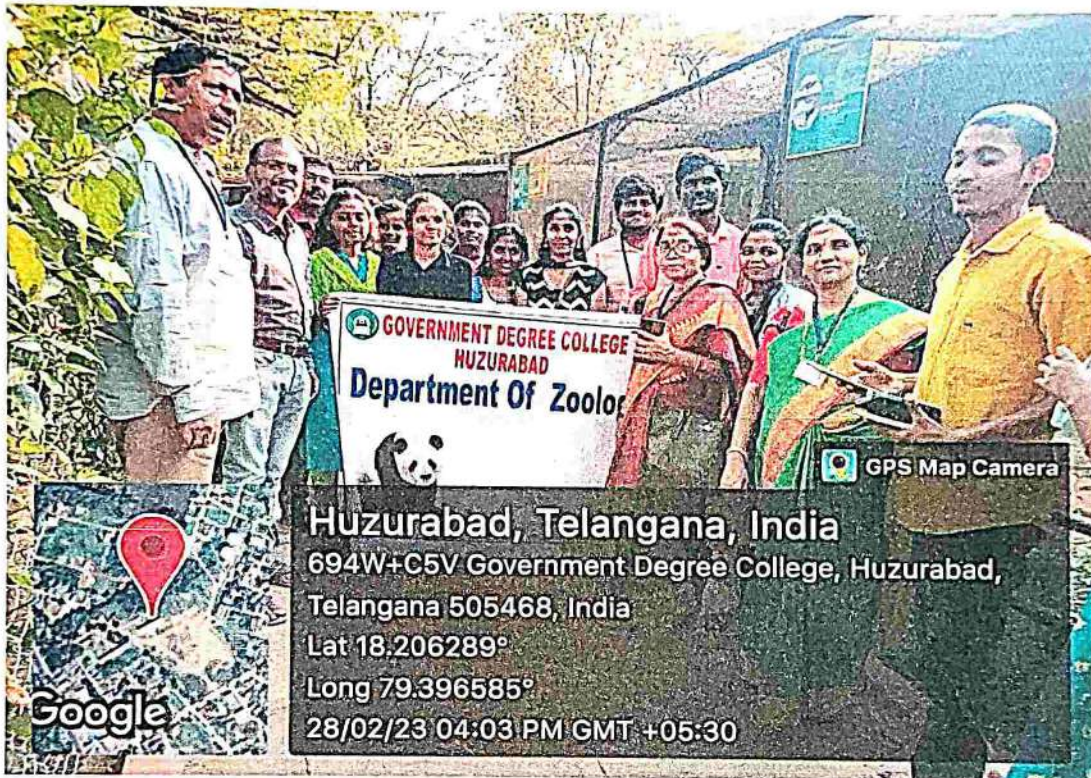

**SOIL SALINITY AND SOIL SODICITY**

Salinity	Sodicity
< 0.5	< 15
0.5-0.75	15-20
> 0.75	> 20

**Rating of physical and chemical properties of soil**

**Field trip to Nehru Zoological Park, Hanamkonda**

**Objectives:**

- To inculcate the first hand experience in the field of targeted area
- To understand the field level issues of concern in execution of selective area
- To understand the significance of diversity of organisms at genetic, species and ecosystem level
- To understand the importance of interaction between various organisms and their surroundings
- To understand the behavioural dynamism of animals in-vivo

**Outcomes:**

After completion of field trip the students able to understand:

- ❖ The importance of Biodiversity and the role of ecological niche of every individual species
- ❖ Interaction between various organisms and their significance in sustaining ecosystem
- ❖ Interaction among biotic and abiotic elements of ecosystem and their influence on each other
- ❖ Equilibrium of ecosystem and biome as well for sustainable environment

Department of Mathematics arranged a Field Trip to all the B.sc students on 28-02-2023 and visited Regional Agricultural Research Station, Mulugu Road and Science center, Huntur Road, Hanamkonda.

- Students can understand the usage of Fertilisers in our day to day life. Mostly about the crop production.
- They can come to know about crop production of a year by the usage of Fertilisers and can calculate the profits and loss.
- And they will come across the problems due to the usage of fertilizers.

The following students are visited:

- ① ch. Umesh
- ② M. Chandrashekar
- ③ N. Rakesh
- ④ V. Parushuram
- ⑤ S. Divya
- ⑥ R. Archana

## FIELD TRIP REPORT

### Objectives:

- To know the importance of soil testing and soil testing procedure.
- To know the essentiality of micro & macro nutrients in plant growth and development.
- To understand isolation procedure of pathogen and diagnosing plant diseases.
- To get practical knowledge about culture lab equipment and techniques.
- To observe Green House and Exotic fruit species.

### Report:

Department of Botany conducted a field trip to Regional Agricultural Research Centre, Mulugu road, Warangal on 28.02.23. B.Sc Life Science students along with other students and Faculty members attended the Field Trip.

The entire trip was accompanied by Smt. Shakunthala, Agricultural Officer, RARC and she introduced different Departments and their working.

Students visited Soil testing centre at RARC and observed PH measuring, NPK estimating machinery. Students visited Pathological Lab and directly observed Laminar Air Flow inoculation chamber, Autoclave and Incubation chamber.

Later students visited Green House where Pathological experiments have been conducting on Rice crop. Students walked around the RARC premises and noticed Exotic fruit plants like Dragon Fruit and Star Fruit.

After completing the visit at RARC, our journey continues to District Science Centre, Veyisthambala Gudi and Kakatiya Zoological Park.

**Outcomes:**

- Students understand the importance of soil testing and soil testing procedure.
- Students understand the essentiality of micro & macro nutrients in plant growth and development.
- Students can describe isolation procedure of plant pathogen and diagnose some plant diseases.
- Student can comment on culture lab equipment and techniques used.
- Students understand different parameters maintained in Green House.Exotic fruit species.
- Students observed Exotic fruit species.
- Students also observed high nectar containing plants and understand their importance in protecting Butterfly biodiversity.
