List of Students Attended

Spot Photo

Outcomes — Students acquire the knowledge that rainforests flourish with Biological Diversity. Amazon is the HOME to biodiversity as well as the vivid beauty comes from the great diversity in plants and animals. Students recognize the fact that amazon receives a 200 to 1000 cm. rainfall/year due its canopy Density.

Feedbacks of Students:

K. Laxmi Sirisha, V semester MPC

I am K. Lakshmi Sirisha. It is the feedback on the field trip to Jellacheruvu water plant.

Jellacheruvu water plant is such a peaceful place. Through this trip we can get an complete idea how the water is getting purified. Jellacheruvu water plant is also called mission bhageeratha. The person who is supervising that plant explains each and every step of purification, not only him but also our chemistry sir, Rakesh sir and Krishnaveni madam. Explained the chemical process involved in this purification process.

My opinion is we get an complete knowledge about purification process of water, without reading any theoretical part of this purification we can attempt this question in exam, not only in examination purpose but also we can get knowledge that what type of water is we are drinking in our day to day life.

Thank you madam for making us to get an nice experience and took us to an productive and informative trip.

T. Vijaya Laxmi, V semester BZC

I am T. Vijaya Laxmi from BZC, it is the feedback on the field trip to Jellacheruvu water plant.

Krishnaveni madam and Rakesh sir arranged this field trip. It was a great experience. We went there through bus by 10 'o' clock. And started our journey in learning about mission bhageeratha. Through our lecturers we know some information about jellacheruvu water plant. After we visited it, we learnt more information about jellacheruvu water plant.

Mission bhageeratha is a great innovation from Telangana by our chief minister KCR garu. The workers over there helped us to know more about the project and how it play a key role in human life.

Through this field trip, we are not only aware of the mission bhageeratha, we also learnt how to be innovative. Some how it inspire us to think widely. For me it was really a great opportunity. I can use this experience in my exam (Water resource and Management). Apart from it, it also useful to improve my knowledge.

T. Vijaya Laxmi.

Morla Amulya, V semester BZCS

Feedback on
A field trip to a Jellacheruvu WTP

Place :- Jellacheruvu water treatment plant
Date :- 15/12/2022

On 15th Dec Government Degree college for Women Khammam, Department of life sciences organized a field trip to visit a place which is known as Jellacheruvu water treatment plant. The field trip was a part of our syllabus on 5th semester and the subject is water Resource management. That day all students came to the college at 9:00 am with proper uniform and we started our journey along with my teachers Krishnaveni madam [Dept of Botany] and Rakesh sir [Dept of chemistry].

In Jellacheruvu WTP we saw how the water of mission Bhageeratha was distributed to surrounding villoges. we saw the entire system of how the water was comes to water treatment plant and how the water was purified and how the water was distributed. The WTP is a big system and the water gets filty many times. The WTP was located at out of Jellacheruvu. We write down some points about this in our notebooks. After that we took group photographs with all students and teachers. We came back after spending about 4 hours there. This is a beautiful trip gave us a lot of memories.

Field Visit to District Co-Operative Central Bank, Khammam

Field trips are a wonderful way for students to connect what they are learning in class and the outside world. The banking sector is an integral part of an economic system. In order to enable students understand how banks function, Government of Degree College for Women, Khammam organised an informative educational field trip to District Central Cooperative Bank, Khammam for the students of B.com on 19/04/2023.

The staff of District Central Cooperative Bank gave detailed information about how to open an account, details required by the bank to open an account and how to fill an Account Opening Form. Students were informed about the Agricultural loan facilities, various types of accounts and instruments like Cheque, Demand Draft, Debit card, Credit card etc. They guided students about how to write a cheque to make payments and withdraw money using the withdrawal slip. Students were taken through various counters and the locker room. Towards the end, students were given a token of sweet and a certificate for being a part of this informative session. The objective of this activity was to create awareness and educate students on access to banking, availability of various types of services and their features and to make students understand their rights and responsibilities as customers of bank.

We hope that this learning experience of visiting the bank will go a long way in helping them. The efforts taken by the Branch Manager and the staff were appreciated.

PRINC.

Department of Computer Science & Applications visited **DCCB BANK Khammam on April 18th 2023.**

The objective of this activity was to create awareness and educate students on access to financial services (banking), availability of various types of services and their features and to make students understand their rights and responsibilities as customers of financial services.

Objectives:

Students will enhance their skills and knowledge on:

- How to open a bank account
- Banking: Types of Accounts
- Basic knowledge of cheque
- Banking: With New Technology

Outcomes:

- Students learnt about various financial products and to become more aware of financial risks and opportunities to enable each one of us to make informed choices, and in return we can improve our financial well-being.
- Students had a great experience in bank, were able to understand, apply, analysed and evaluate their knowledge on banking.
- Students experienced live banking functioning of branch.

డీసీసీబీ సేవలపై అవగాహన

ఖమ్మంవ్యవసాయం: జిల్లా కేంద్ర సహకార బ్యాంక్(డీసీసీబీ) నిర్వహణ, సేవలపై ఖమ్మం ప్రభుత్వ మహిళా డిగ్రీ, పీజీ కళాశాల విద్యార్థులకు అధికారులు అవగాహన కల్పించారు. నగరంలోని గాంధీచౌక్లో ఉన్న బ్యాంక్ ప్రధాన కార్యాలయానికి బుధవారం కళాశాల వాణిజ్య విభాగం ఆధ్వర్యం విద్యార్థులు వచ్చారు. ఈసందర్భంగా డీసీసీబీ సీఈఓ అట్లూరి వీరాబాబు బ్యాంక్ సేవలు, ఇతర అంశాలను వివరించారు. డీసీసీబీ జీఎం పద్మావతి, అసిస్టెంట్ జనరల్ మేనేజర్లు స్రవంతి, మధు, మధులిక, కళాశాల అధ్యాపకులు జి.అడశరాణి, డాక్టర్ పి.రాజిరెడ్డి, అనురాధ, కె.భవాని, సీహెచ్.రాజేష్, రామారావు, పద్మావతి తదితరులు పాల్గొన్నారు.

Student Field Trip to Vijaya dairy Khammam Conducted by department of Mathematics On 05-12-2022

Six bulk cooling units were installed for the processing of milk from various surrounding villages in the district. Now the dairy is selling more than 1000 liters of milk per day through 19 milk routes. It has more than 1,000 milk pourers.

We were shown each and every apparatus in working condition by the staff .A separate laboratory for the milk testing is being maintained there.

During our visit, we were explained some departmental activities. They are...

DEPARTMENTAL ACTIVITIES

- 1) Processing of the milk as per guidelines.
- 2) Procuring of milk from rural dairy farmers
- 3) Milk is being sold to urban consumers.
- 4) Through the bank loans milk producers get mulching animals
- 5) Arranging milk testing equipment for fat, etc. testing.

GOVERNMENT DEGRE COLLEGE FOR WOMEN, KHAMMAM

Student Field Trip to BSNL Exchange Khammam

Conducted by department of Mathematics

On 27-10-2022

Objectives of the field trip

“The main objective of conducting a field trip for students is to reinforce experiential and contextual learning. Field trips are a way of enhancing classroom learning by making real world connections. Field trips expose students to different lifestyles, places and eras”

Field trips provide alternative educational opportunities for children and can benefit the community if they include some type of community service. Field trips also provide opportunity to take a break from their normal routine and experience more hands-on learning.

INDUSTRIAL TOUR VISIT -BSNL

An industrial visit to BSNL was scheduled for Vth sem students of B.Sc on 27-10-2022. Total of 24 students attended the visit. Sub divisional engineer Mr. Srinivas and AE Mr. Naveen divided the students into two groups and each group were thought about different modules namely switching, transmission and MDF (Main distribution function). In switching module, students learnt on practical aspects of call making and receiving. They were thought on how to create the calling number and how to check the dial tone. In transmission module, students were briefed about OFC communication and its uses, advantages, applications. The students were shown the real cables and its working procedure. In the MDF module, students learnt about the requirement of main distribution function. They were briefed about line side and exchange side of MDF. The students were shown the functioning parts of distribution unit. The industrial visit ended by 1:30 PM.

A telephone exchange consists of 4 functional blocks:

1. SWITCH ROOMS
2. MDF (Main Distribution Frames)
3. TRANSMISSION ROOMS
4. TELECOM SUPPORT INFRASTRUCTURE.

1) SWITCH ROOMS:

- a). We were shown, how the switches work in real time, with an operating terminal
- b). This identification is done with the help of logical or directory numbers
- c) It consists of digital electronic switches which guides the user to the destination by identifying a physical communication path.

.2) MDF (MAIN DISTRIBUTION FRAME)

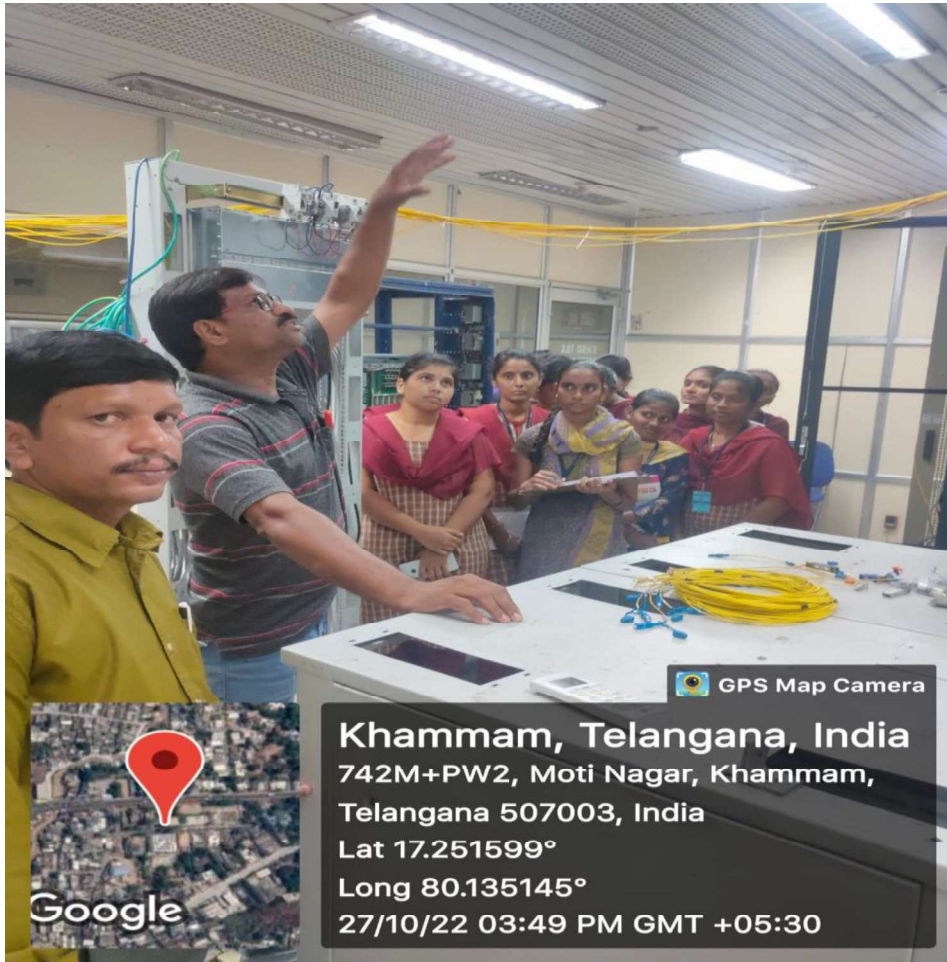

- a) . A safety point is created in MDF to avoid any damages caused due to faults at the customer end.
- b) The jumper of an MDF consists of gas discharge tubes which eliminates the faults It consists of front (line) end and a back (switch) end which are interconnected with the help of a jumper
- c) All subscriber lines are terminated at the end of MDF

3) TRANSMISSION ROOMS:

- a) The main function of transmission rooms is the interconnection of 2 exchanges within or outside the town. It involves optical fiber communication.
- b) Voice signals are first identified. 30 voice channels are combined with the help of first order European multiplexers which can handle a speed of 2.048Mbps.
- c) Pulse Code Modulation of voice signals are carried out along with digitization. Voice signals of frequency 0-4 KHz are converted to 64Kbps. The industrial visit was very helpful in providing us a better understanding of the theoretical concepts of the subject.

BSNL is a technology-oriented integrated telecom service providing company which provides complete bouquet of telecom services:

- Wire line Services
- GSM Mobile Services including 2G, 3G, 4G & Value added Services (VAS)
- Internet and Broadband services including Fiber to the Home (FTTH)
- Wi-Fi services
- Data Center services
- Enterprise Data services such as Leased circuits, MPLS VPN etc
- National Long Distance services
- International Long Distance Services

BSNL telecom network therefore, is a part of modern global network, providing access to countries around the world for transporting information in the form of voice, data and video. The company has a vast experience in planning, installation, network integration & maintenance of switches & transmission networks. BSNL has a world class ISO 9000 certified Telecom Training Institute.

Field Trip Report

Field Trip to Vijaya Dairy, Khammam

On

04-12-2023

Conducted by department of Physics

Department in charge: R Praveen

Objectives of the field trip

“The main objective of conducting a field trip for students is to reinforce experiential and contextual learning. Field trips are a way of enhancing classroom learning by making real world connections. Field trips expose students to different lifestyles, places and eras”

➤ Acquire useful application of the “inquiry based learning approach” where data and information are converted into useful knowledge.
➤ Develop “technical competency” by observing, collecting, interpreting, recording and evaluating geographic information from primary sources through fieldwork.
➤ Collect specific examples that will substantiate generic explanations of processes and landforms in physical geography.
➤ Provide valuable qualitative and affective learning experiences which will encourage deeper thinking about the interaction between man and his environment.
➤ To train art students in observation skills through drawings.
➤ To be exposed to the cultures and way of life of different groups of people and to be humble and respectful their interaction.
➤ Foster strong bonds of friendship and camaraderie among students and with teachers.

Field trips are most often done in 3 steps: preparation, activities and follow-up activity. Preparation applies to both the student and the teacher. Teachers often take the time to learn about the destination and the subject before the trip. Activities that happen on the field trips often include: lectures, tours, worksheets, videos and demonstrations. Follow-up activities are generally discussions that occur in the classroom once the field trip is completed

Field trips provide alternative educational opportunities for children and can benefit the community if they include some type of community service. Field trips also provide students the opportunity to take a break from their normal routine and experience more hands-on learning.

Vijaya Dairy Field Visit Report

The objective was to provide students an insight regarding internal working of Vijaya Dairy and opportunity to learn practically through interaction regarding the Milk collection, Transportation, Testing, Processing and manufacturing of other dairy products.

B.Sc. Second Year students (Total:20) along with two faculty members (Mr. R Praveen and K. Narshimharao) visited Vijaya Dairy, Khammam on 04-12-2022. We arrived at Vijaya dairy at 11:00 AM. After that we gathered at the front gate and visited various sections of Vijaya dairy. We started with the animation movie for showing glimpse of Vijaya dairy. It also gave introduction of company profile and its present functioning in dairy industry for different milk products. The technical team has explained automation of dairy through presentation containing many functional block diagrams and existing computerized controlled machineries.

After that the students visited 4 different sections of Vijaya Dairy Plant:

1. Butter plant, where the students were informed of butter production in Vijaya Dairy.
2. Milk powder plant, where the students visited manufacturing as well as packing and dispatching functions of Vijaya Dairy.

3. Refrigeration Unit, where students were getting a knowledge about refrigeration system.
4. Milk process unit, where the students were informed of pasteurized milk production Process

To make students aware and have better understanding of the processes the technical instructor started with the description of Procurement of milk. Where he explained how the milk is being collected through insulated road/rail tankers at very low temperature thus retaining the freshness of the milk. After the collection of milk in the plant the milk is subjected to stringent quality test, these include organoleptic, physiochemical and microbiological tests. The next steps include the Processing of the milk where different devices used for processing were shown to the students. The important processes included clarification were the instructor explained the working of clarifier which is used to remove the dust particles that are visible to the naked eye. After Clarification, the milk is subjected to Standardization which is done to make the uniform composition of the milk so as to deliver the milk to the consumer.

Homogenization of the milk is carried out after Standardization with the help of Homogenizer, where milk is processed at a very high pressure during which the large fat globules present in milk are broken down into tiny droplets. Homogenization improves palatability of milk and is easily digestible. The next step of processing of milk is pasteurisation where milk is pasteurised which involves heating of milk at 72 degree Celsius. This process kills all the pathogenic bacteria in the milk.

Homogenization of the milk is carried out after Standardization with the help of Homogenizer, where milk is processed at a very high pressure during which the large fat globules present in milk are broken down into tiny droplets. Homogenization improves

palatability of milk and is easily digestible. The next step of processing of milk is pasteurization where milk is pasteurized which involves heating of milk at 72 degrees Celsius. This process kills all the pathogenic bacteria in the milk.

The final stage is the Distribution of the milk, this is done after processing of the milk where milk is dispatched in hygienic & Sterilized milk tankers packed in food grade materials and transported under cold chain.

STUDENT GUIDELINE FOR FIELD VISIT

1. Students must come in uniform with proper grooming with their ID cards.
2. Every student has to report of their presence at the beginning and end of the visit.
3. Every student must bring pen and note book for their notes.
4. No student shall carry any mobile phone, camera and electronic devices inside the plant.
5. Each student is responsible for his/her personal belongings at all times.
6. Students have to express good and acceptable behaviour and attitude throughout the trip.
7. Students must be prepared to follow directions of guide quickly and quietly throughout the trip.
8. The students don't have to cause any action that damages /harm the organization's resources.
9. Touching machinery and equipment is strictly forbidden unless it is allowed.
10. All students are expected to participate in every activity.
11. No one may go anywhere alone for any reason whatsoever! All must remain in groups.

Ramappa :

The Ramalinge swara Temple which is popularly known as the Ramappa temple is one such amazing piece of art that stands as testimony of the royal kakatiyas the temple got its name Ramappa because of its chief sculptor Ramappa. Its probably the only temple in the country to be known by name of its sculptor.

Lakhnavaram :

The Lakhnavaram Lake which hides itself amidst the hills was discovered during the Kakatiya reign and the rulers expanded it to grow as a source of irrigation.

An added attraction to this mystic beauty is the suspension bridge.

The hanging bridge takes you to the mini island in the lake.

Kakatiya University:

Kakathiya University is a public university located in Hanumakonda district in the Indian state of Telangana.

A+ Grade by the National Assessment and Accreditation Council of India in the month of June 2023.

The University offers about 120 programs at undergraduate and postgraduate levels in the faculties of arts, science, commerce and business, social science, education, engineering and pharmaceutical sciences with constituent and affiliated colleges spread over 12 districts of Telangana.

VIJAYA DAIRY VISIT

We, the Faculty of Zoology Department and students of second and final year B.Sc., BZC, bZCS visited Vijaya Dairy, Khammam on 05 th December, 2022. Since the field visits are part of our curriculum, we have taken the prior permission of Deputy Director of Telangana Dairy Development Co-Operative Federation Limited, Khammam.

We the faculty members of Zoology Department with around fifty students of second and final year B.Sc., BZC, BZCS reached the Vijaya Dairy at 10:00 AM. There we were received by the in-charge Mr. Srinivas. He introduced the equipment to the students and explained the proceedings as to how the milk is received, processed and sold.

Regarding the history of this dairy, we came to know that it was first established by the chief minister in 1975 with 20,000 liters handling capacity per day. It was meant for providing financial assistance for the livelihood of the rural farmers.

Six Bulk Cooling Units were installed for the processing of milk from various surrounding villages in the district. Now the dairy is selling more than 1000 liters of milk per day through 19 milk routes. It has more than 1,000 milk pourers.

We were shown each and every apparatus in working condition by the staff .A separate laboratory for the milk testing is being maintained there.

During our visit, we were explained some departmental activities. They are...

DEPARTMENTAL ACTIVITIES

- 1) Procuring of milk from rural dairy farmers
- 2) Processing of the milk as per guidelines.
- 3) Milk is sold to urban consumers.
- 4) Providing mulching animals to milk producers through bank loans.
- 5) Arranging milk testing equipment for fat, etc. testing.

6) Arranging mandal level Bulk Milk Cooling Units for cold chain facility

7) Arranging feed for farmers from TSDDCF

8) Arranging milk cans for collecting milk.

Cleanliness was observed in the entire unit. Pasteurization process was explained and shown to the students. Boilers that were shown were photographed. We observed different tests in the adjacent laboratory. Eventually packaging unit was also shown. There accurate measurements were noticed. Special vehicles were seen around the campus for the sake of transportation of the milk.

It took more than two hours to watch the entire unit. We noted every aspect of the dairying in our note books, as it is present in our syllabus. This visit is of great help for us. We departed from there at about 2.00 PM.

డిగ్రీ విద్యార్థినుల విజ్ఞానయాత్ర

STUDENT FIELD TRIP

TO

WATER TREATMENTATION PLANT, JELLACHERUVU

20.08.2022

Supervisor: Rakesh sreerama

Assistant professor

Dept.Of chemistry

GOVERNMENT DEGREE COLLEGE FOR WOMEN KHAMMAM

About Water treatment

Water treatment means the cleansing of water through various phases to be available for end-use by the people. The treated water is then used for various purposes like irrigation, industrial water supply, drinking, river flow maintenance, or any other such uses. The treatment of water removes harmful contaminants and compounds or the concentration of these is reduced for public use. This treatment is mandatory to promote human health and its uses for drinking and irrigation.

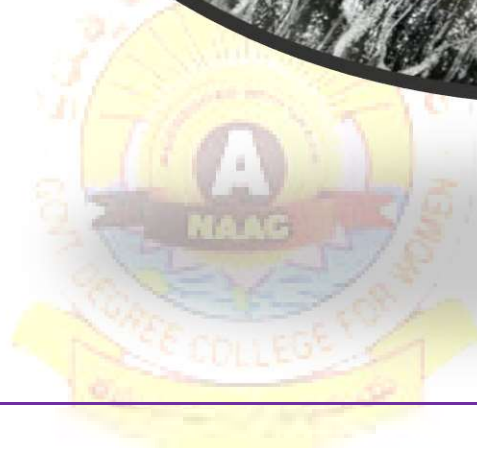

Methods of Water treatment

Water is naturally a pure substance containing hydrogen and oxygen. However, the distribution and supply of water come in contact with various organic minerals, man made pollutants, and chemicals. This makes water unfavorable for drinking purposes as it contains deadly viruses, bacteria, and other dangerous agents

- Coagulation
- Sedimentation
- Filtration
- Disinfection
- Oxidation
- Adsorption
- Fluoridation

Field Visit to Vijaya Dairy, Khammam

The objective of this field trip was to create awareness and educate students on Dairy entire process like collection milk, testing, production process, packing and distribution channels of the plant. The students also learned the financial position of the dairy unit, how to maintain the accounts in the plant level by visiting the dairy. The students also learned the marketing channels of the dairy unit and profitable position of the dairy. In this trip, almost 30 students and 05 faculty members were visited this dairy. We hope that this learning experience of visiting the dairy will go a long way in helping them. The efforts taken by the general Manager of Vijaya dairy and the staff were appreciated.

Industrial Visit to IT HUB, Khammam

Department of Computer Science & Applications visited **IT Hub** on **22nd December 2021**.

Computer Science & Application students visited IT Hub came to know about the software environment, working methods, how to develop projects.

Khammam is the third-tier II town in the state to get IT tower. The IT Hub, which was established in December, 2020, has become a model for tier-2 cities across India in promoting rural employment. IT and Industry Minister K.T.RamaRao inaugurated the facility, where 19 companies started their operations. The firms include those based in the US and Australia. With a total of 42,000 square feet space, the facility has been built at a cost of Rs27 crore.

The firms located at IT Hub in Khammam have been operating beyond the BPO mold and working on emerging technologies like Artificial Intelligence (AI), Machine Learning (ML), FullStack, Microsoft Technologies and cyber security.

Objectives:

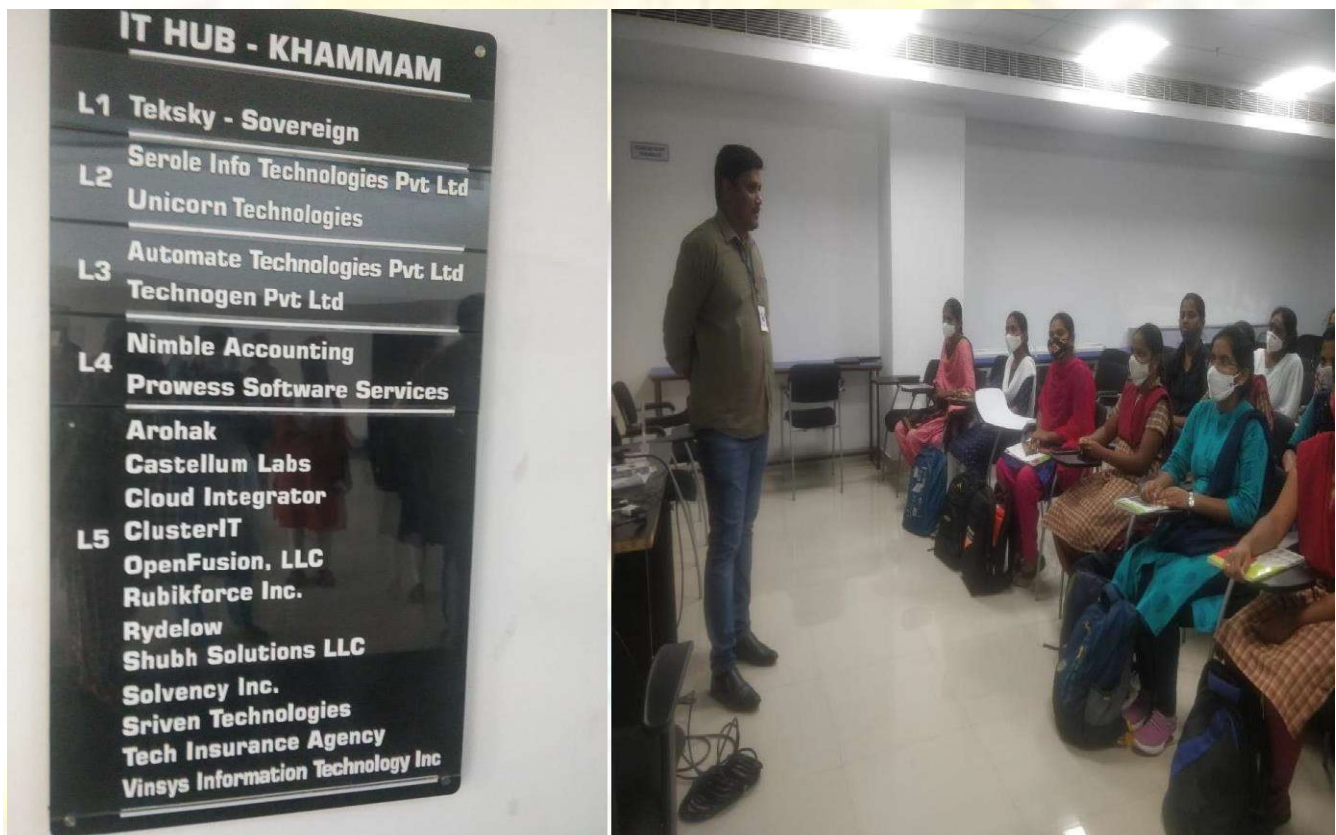

- Skill enhancement has been one of the top priorities of the IT Hub- Khammam.
- Skill development programs are being conducted by TASK to enhance the capabilities of the local talent pool and empower them to handle complex projects successfully.
- This will allow local students to get trained in the latest technologies.

Outcomes:

- This field trip motivated students to bring a vividness and reality which cannot

bring with conventional lessons, and provide information for learning in a relevant real world context.

- Students acquired knowledge in Designing, implementing and evaluating computing based solutions to meet a set of requirements in the context of the programs discipline.
- Students of Computer Science & Applications felt happy after visiting IT Hub as they came to know about the software environment, working methods, how to develop projects.
- It's a great pleasure to meet developers at Startups as they guided and motivated Students into IT World.

Dr.K.Padma Rani
Asst. Prof. of Hindi

क्षेत्र दर्शन के लिए खम्मम किला चुनने का कारण

तेलंगाना राज्य के प्रमुख खम्मम शहर के बीच, खम्मम किला अनेक विशेषताओं से निहित है। खम्मम खिला तेलंगाना की विरासत और राजपाट के सर्वश्रेष्ठ स्मारकों में से एक है। इसका निर्माण 10वीं शताब्दी में मुसनूरी नायक ने करवाया था। इस किले में भारतीय वास्तुकारों की प्राचीन तकनीक देखने को मिलती है।

यह कड़ी सुरक्षा का अत्यंत आदर्श निर्माण है। एक राजा के लिए जगह अत्यंत सुरक्षित जगह मानी जाती थी। इसमें युद्धों में सुरक्षा के लिए विशाल दीवारें हैं। यह हिंदू और मुस्लिम संस्कृति का प्रतीक है। माना जाता है कि एक स्थल पर आवाज देने पर उसकी गूंज पूरे किले में सुनाई देती थी। भारत की इन्हीं विरासतों की महानता देखने के लिए हिन्दी विभाग ने खम्मम किला देखने का निर्णय लिया।

और मेरी स्नेहित के पास और उनके साथ जाने के पास
मुझे एक नया और मधुर भावना है। वे एक चारित्रिक
मूल है। अम्मम से इतना सुंदर प्रदेश के देखना
बहुत अच्छा लगा। हर रोज कॉलेज के आना - जाना
के एक ब्रेक हुआ है। और मेरा मन प्रशंत हुआ
उस प्रदेश का view और प्रकृति बहुत क calm है।
इस प्रदेश के पास जाकर मन में नया अलोचन
का उत्पन्न हुआ है। Busy जीवन के वे एक
अच्छा entertainment है। और उस के पास
मन अनंद भाई और प्रशंत होता है।

मेरे पूरे विषय के साथ उस प्रदेश का
जानने बाद मेरी मन में पुराने प्रदेश के बारे में एक
अच्छा अंशु लगाया।

वे trip मुझे एक मेमोरबल trip है।
इस विषय trip के जाने का कारण है 'Madam को
मेरे दण्यवाद करती हूँ।'

GOVERNMENT DEGRE COLLEGE FOR WOMEN, KHAMMAM

Student Field Trip to BSNL Exchange Khammam

Conducted by department of Mathematics

On 22-09-2021

Objectives of the field trip

“The main objective of conducting a field trip for students is to know experiential and contextual learning. Field trips are a way of enhancing classroom learning by making real world connections. Field trips expose students to different lifestyles, places and eras”

➤ Acquire useful application of the “inquiry based learning approach” where data and information are converted into useful knowledge.
➤ Develop “technical competency” by observing, collecting, interpreting, recording and evaluating geographic information from primary sources through fieldwork.
➤ Collect specific examples that will substantiate generic explanations of processes and landforms in physical geography.
➤ Provide valuable qualitative and affective learning experiences which will encourage deeper thinking about the interaction between man and his environment.
➤ To train art students in observation skills through drawings.
➤ To be exposed to the cultures and way of life of different groups of people and to be humble and respectful their interaction.
➤ Foster strong bonds of friendship and camaraderie among students and with teachers.

Field trips are most often done in 3 steps: preparation, activities and follow-up activity. Preparation applies to both the student and the teacher. Teachers often take the time to learn about the destination and the subject before the trip. Activities that happen on the field trips often include: lectures, tours, worksheets, videos and demonstrations. Follow-up activities are generally discussions that occur in the classroom once the field trip is completed

Field trips also provide students the opportunity to take a break from their normal routine and experience more hands-on learning.

INDUSTRIAL VISIT REPORT-BSNL

An industrial visit to BSNL was scheduled for Ist sem students of B.Sc on 22-09-2021. Total of 20 students attended the visit. Sub divisional engineer Mr. Srinivas and AE Mr. Naveen divided the students into two groups and each group were thought about different modules namely switching, transmission and MDF (Main distribution function). In switching module, students learnt on practical aspects of call making and receiving. They were thought on how to create the calling number and how to check the dial tone. In transmission module, students were briefed about OFC communication and its uses, advantages, applications. The students were shown the real cables and its working procedure. In the MDF module, students learnt about the requirement of main distribution function. They were briefed about line side and exchange side of MDF. The students were shown the functioning parts of distribution unit. The industrial visit ended by 2:30 PM.

A telephone exchange consists of 4 functional blocks:

1. SWITCH ROOMS
2. MDF (Main Distribution Frames)
3. TRANSMISSION ROOMS
4. TELECOM SUPPORT INFRASTRUCTURE.

1) SWITCH ROOMS:

- a) It consists of digital electronic switches which guides the user to the destination by identifying a physical communication path.
- b) This identification is done with the help of logical or directory numbers.
- c) We were shown, how the switches work in real time, with an operating terminal.

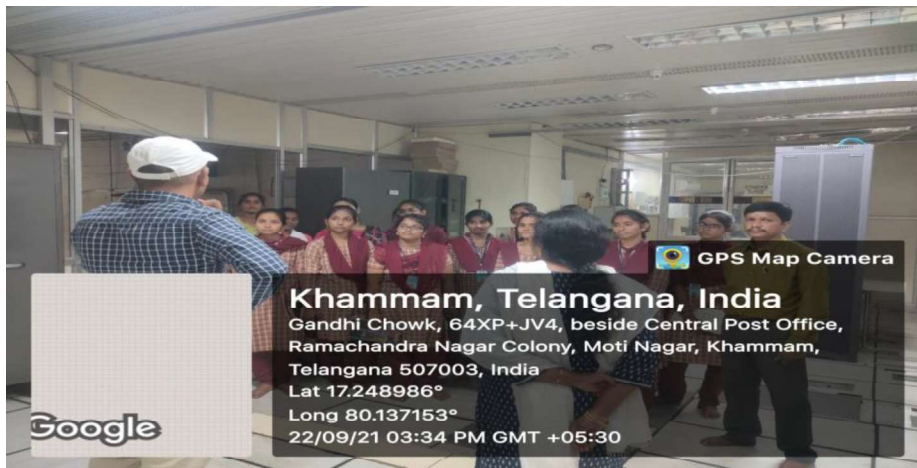

2) MDF (MAIN DISTRIBUTION FRAME)

- a) All subscriber lines are terminated at the end of MDF.
- b) It consists of front (line) end and a back (switch) end which are interconnected with the help of a jumper.

- c) A safety point is created in MDF to avoid any damages caused due to faults at the customer end. The jumper of an MDF consists of gas discharge tubes which eliminates the faults.

3) TRANSMISSION ROOMS:

- a) The main function of transmission rooms is the interconnection of 2 exchanges within or outside the town. It involves optical fiber communication.
- b) Voice signals are first identified. 30 voice channels are combined with the help of first order European multiplexers which can handle a speed of 2.048Mbps.
- c) Pulse Code Modulation of voice signals are carried out along with digitization. Voice signals of frequency 0-4 KHz are converted to 64Kbps. The industrial visit was very helpful in providing us a better understanding of the theoretical concepts of the subject.

Field Trip Report

Field Trip to BSNL Exchange Khammam

On 22-09-2021

Conducted by department of Physics

Department In charge: **R Praveen**

Objectives of the field trip

“The main objective of conducting a field trip for students is to reinforce experiential and contextual learning. Field trips are a way of enhancing classroom learning by making real world connections. Field trips expose students to different lifestyles, places and eras”

➤ Acquire useful application of the “inquiry based learning approach” where data and information are converted into useful knowledge.
➤ Develop “technical competency” by observing, collecting, interpreting, recording and evaluating geographic information from primary sources through fieldwork.
➤ Collect specific examples that will substantiate generic explanations of processes and landforms in physical geography.
➤ Provide valuable qualitative and affective learning experiences which will encourage deeper thinking about the interaction between man and his environment.
➤ To train art students in observation skills through drawings.
➤ To be exposed to the cultures and way of life of different groups of people and to be humble and respectful their interaction.
➤ Foster strong bonds of friendship and camaraderie among students and with teachers.

Field trips are most often done in 3 steps: preparation, activities and follow-up activity. Preparation applies to both the student and the teacher. Teachers often take the time to learn about the destination and the subject before the trip. Activities that happen on the field trips often include: lectures, tours, worksheets, videos and demonstrations. Follow-up activities are generally discussions that occur in the classroom once the field trip is completed

Field trips provide alternative educational opportunities for children and can benefit the community if they include some type of community service. Field trips also provide students the opportunity to take a break from their normal routine and experience more hands-on learning.

INDUSTRIAL VISIT REPORT-BSNL

An industrial visit to BSNL was scheduled for 4th sem students of B.Sc on 22-09-2021. Total of 30 students attended the visit. They were divided into two batches, 15 for each batch. Sub divisional engineer Mr. Srinivas and AE Mr. Naveen divided the students into two groups and each group were thought about different modules namely switching, transmission and MDF (Main distribution function). In switching module, students learnt on practical aspects of

call making and receiving. They were thought on how to create the calling number and how to check the dial tone. In transmission module, students were briefed about OFC communication and its uses, advantages, applications. The students were shown the real cables and its working procedure. In the MDF module, students learnt about the requirement of main distribution function. They were briefed about line side and exchange side of MDF. VIRTUAL TOUR TO ROYAL BOTANICAL GARDENS, KEW

26.09.2021

Student Outcomes: Students appreciated the diversity of Kew Botanical Gardens during this

Pandemic situation, they enjoyed the beauty of nature. Observed various rare species of plants.

Feedback of Students:

Name: Y. Sivisha HT No: 028203514 Group: BSc (BZCA)

Virtual tour on Royal Botanical Garden (KEW)

A visit to the gardens is a unique experience, combining close contact with the bird and plantlife. At Kew garden we had explored many green houses and landscapes and 250 years of its history.

The Royal Botanic Garden was better known as "Kew Gardens". Under 2003 Kew royal garden is officially listed in the world heritage sites by UNESCO.

Kew Gardens includes more than 50,000 different plants in its living collection and over 7 million preserved specimens. Over 750,000 volumes and illustrations are contained in its library. It took many conservation programs on wide range of endangered and threatened plants and their habitats.

As we walk in the garden, we find many birds like Canadian geese, ducks, peacocks and various species of birdlife wander freely, that makes much delight of visitors.

On the westside of the King William's temple, 2,000 square meter area is planted to represent a typical mediterranean natural habitat. And on other side temple, we see a palm house, which is a glass house. The palm house creates conditions similar to tropical rainforests. About 70% of all palm species are found in tropical rainforests. 1/4th of the plants here are threatened in the wild.

The Princess of Wales conservatory, enables the recreation of 30 different environments covering all the climatic conditions found in the tropics from arid desert to the most humid rainforest. Here all plants are shown as naturally as possible with ferns clinging to dripping rock faces and climbers and columns. There are eight more different microclimates in the conservatory, each created for a particular plant group.

The rock garden has 3,000 alpine plants, and a water valley.

The woodland garden emulates a natural woodland covering four thousand eight hundred and eighty square meters and extending to a height of 19 meters. The temperate house has semi-hardy and temperate plants. The temperature in this temperate house is maintained at a minimum of 15°C year-round. The south wing of this house has African plants and the north wing has plants from Australia, New Zealand, Asia and Pacific. The main rectangular hall has subtropical trees.

The small elegant glass house called water lily house, is located northern side of palm house. The circular pond is 11m x 11m and has Victoria amazonica.

What is generic store?

The term generic brand refers to a type of consumer product on the market that lacks a widely recognized name or logo because it typically isn't advertised. Generic brands are usually less expensive than their brand name counterparts due to their lack of promotion, which can inflate the cost of a good or service.

What are generic medicines?

What are generic drugs? A generic drug is a medication created to be the same as an already marketed brand-name drug in dosage form, safety, strength, route of administration, quality, performance characteristics, and intended use.

Medicines available in pharmacy.

Department of Commerce Field Visit

Date: 28/02/2020

To
The General Manager,
Post office,
Khammam.

Sub: Permission to visit Post Office, Khammam as part of field trip to the students-Req-Reg

Respected Sir/Madam,

It is bring to your kind notice that Department of Commerce, Government Degree College for Women, Khammam is planning to visit District Co-operative Central bank on 03/03/2020 as it is part of field trip. In this connection, I request you to grant permission to visit your branch along with 40 students of B.com II and III year who are studding in this institution and 05 faculty members as it is the part of field trip. This field trip making it an opportunity for the students to attain good knowledge on organisational structure, management skills and get real-time exposure. This will also help in refreshing the student's minds. Therefore, I request your positive response. I shall be highly obliged.

Thanking you sir/ madam.

Best Regards,

Field Visit to Post Office, Khammam

Field trips are a wonderful way for students to connect what they are learning in class and the outside world. This field trip more helped to students to attained the knowledge on Various types services provided by the post office and learned the knowledge on various types of accounts prepared by the post office and also this field trip helpful to know the organisational structure , Management Skills and get real-time Exposure. This will also help in refreshing the student's minds. The objective of this activity was to create awareness and educate students on access to post office, availability of various types of services and their features and to make students understand their rights and responsibilities as customers of post office .We hope that this learning experience of visiting the post office will go a long way in helping them. The efforts taken by the Branch Manager and the staff were appreciated.

1. Oracle

More performance, increased security, and cost savings are provided by Oracle Cloud Infrastructure. One of the top software company in Hyderabad, It is made to

make it simple for enterprises to migrate workloads between clouds, between on-premises systems, and between clouds and other clouds.

Services Offered

- Oracle cloud infrastructure
- Cloud Applications Industries
- Oracle Hardware and Engineered Systems
- Enterprise applications
- Oracle Featured Software

2. Capgemini

By utilizing the power of technology, Capgemini is the strategic partner that will assist you in posing difficult questions and obtaining the appropriate answers. They utilize a depth of knowledge in four areas: strategy and transformation, applications and technology, engineering, and operations, to handle the complete spectrum of business needs.

Services Offered

Services Offered

- Cloud
- Cyber security
- Customer First integration
- Data and artificial intelligence
- Enterprise management
- Intelligent Industry
- Sustainability work

3. Microsoft

Microsoft was established in 1975 by Bill Gates, a Harvard University dropout, and his boyhood best friend Paul Allen. It is perhaps one of the most recognizable brands in software technology. The goal of Microsoft, a multinational corporation with headquarters in Washington, D.C., is to enable individuals and organizations to realize their greatest potential by developing technology that revolutionizes their daily lives in terms of work, play, and communication.

Services Offered

- MS Office 365
- Microsoft Azure

- Microsoft Intune
- Microsoft Learn
- Microsoft Xbox

4. IBM

IBM integrates technology and expertise, providing infrastructure, software (including market-leading Red Hat) and consulting services for clients as they pursue the digital transformation of the world's mission-critical businesses.

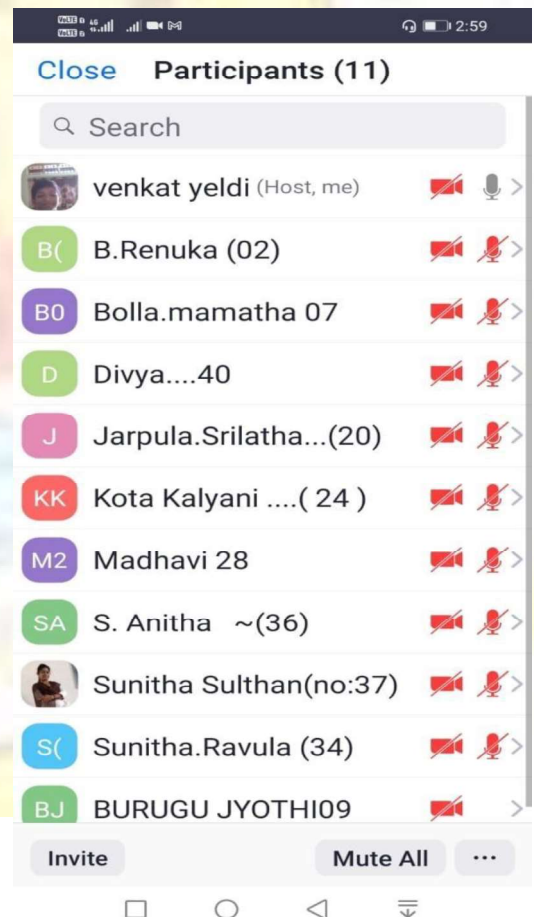

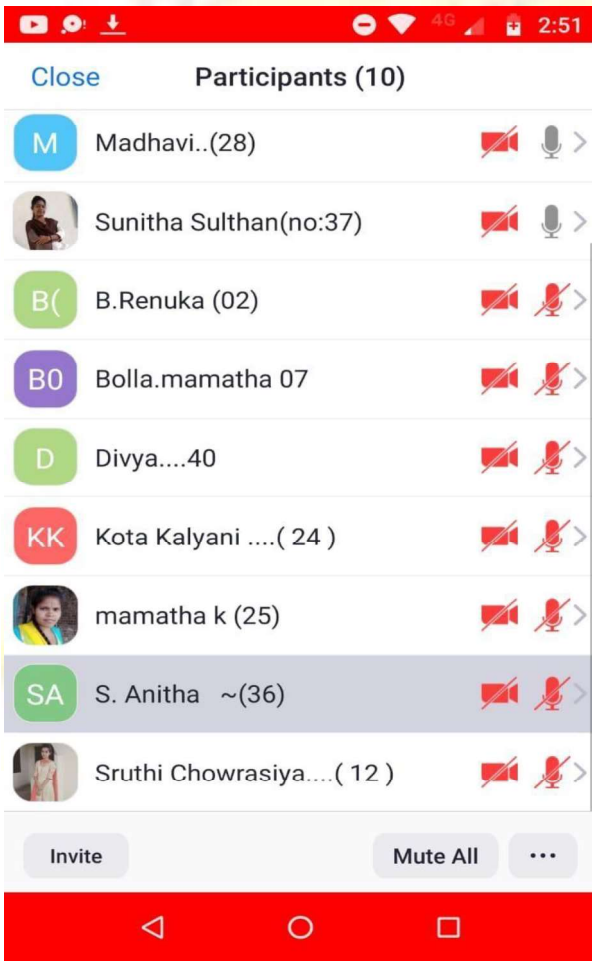

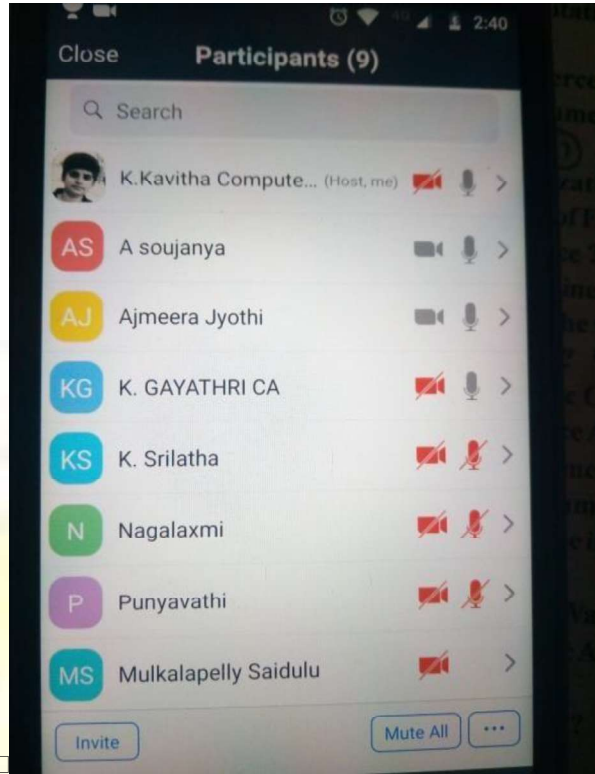

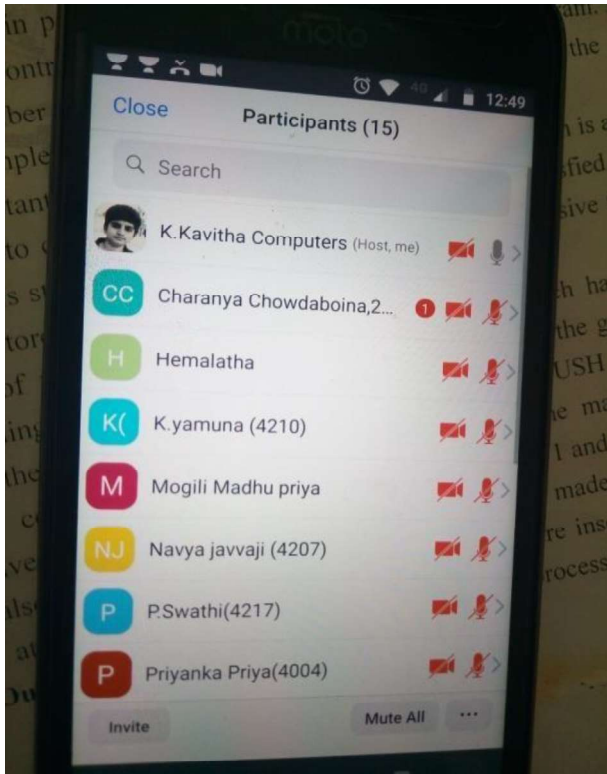

Services Offered

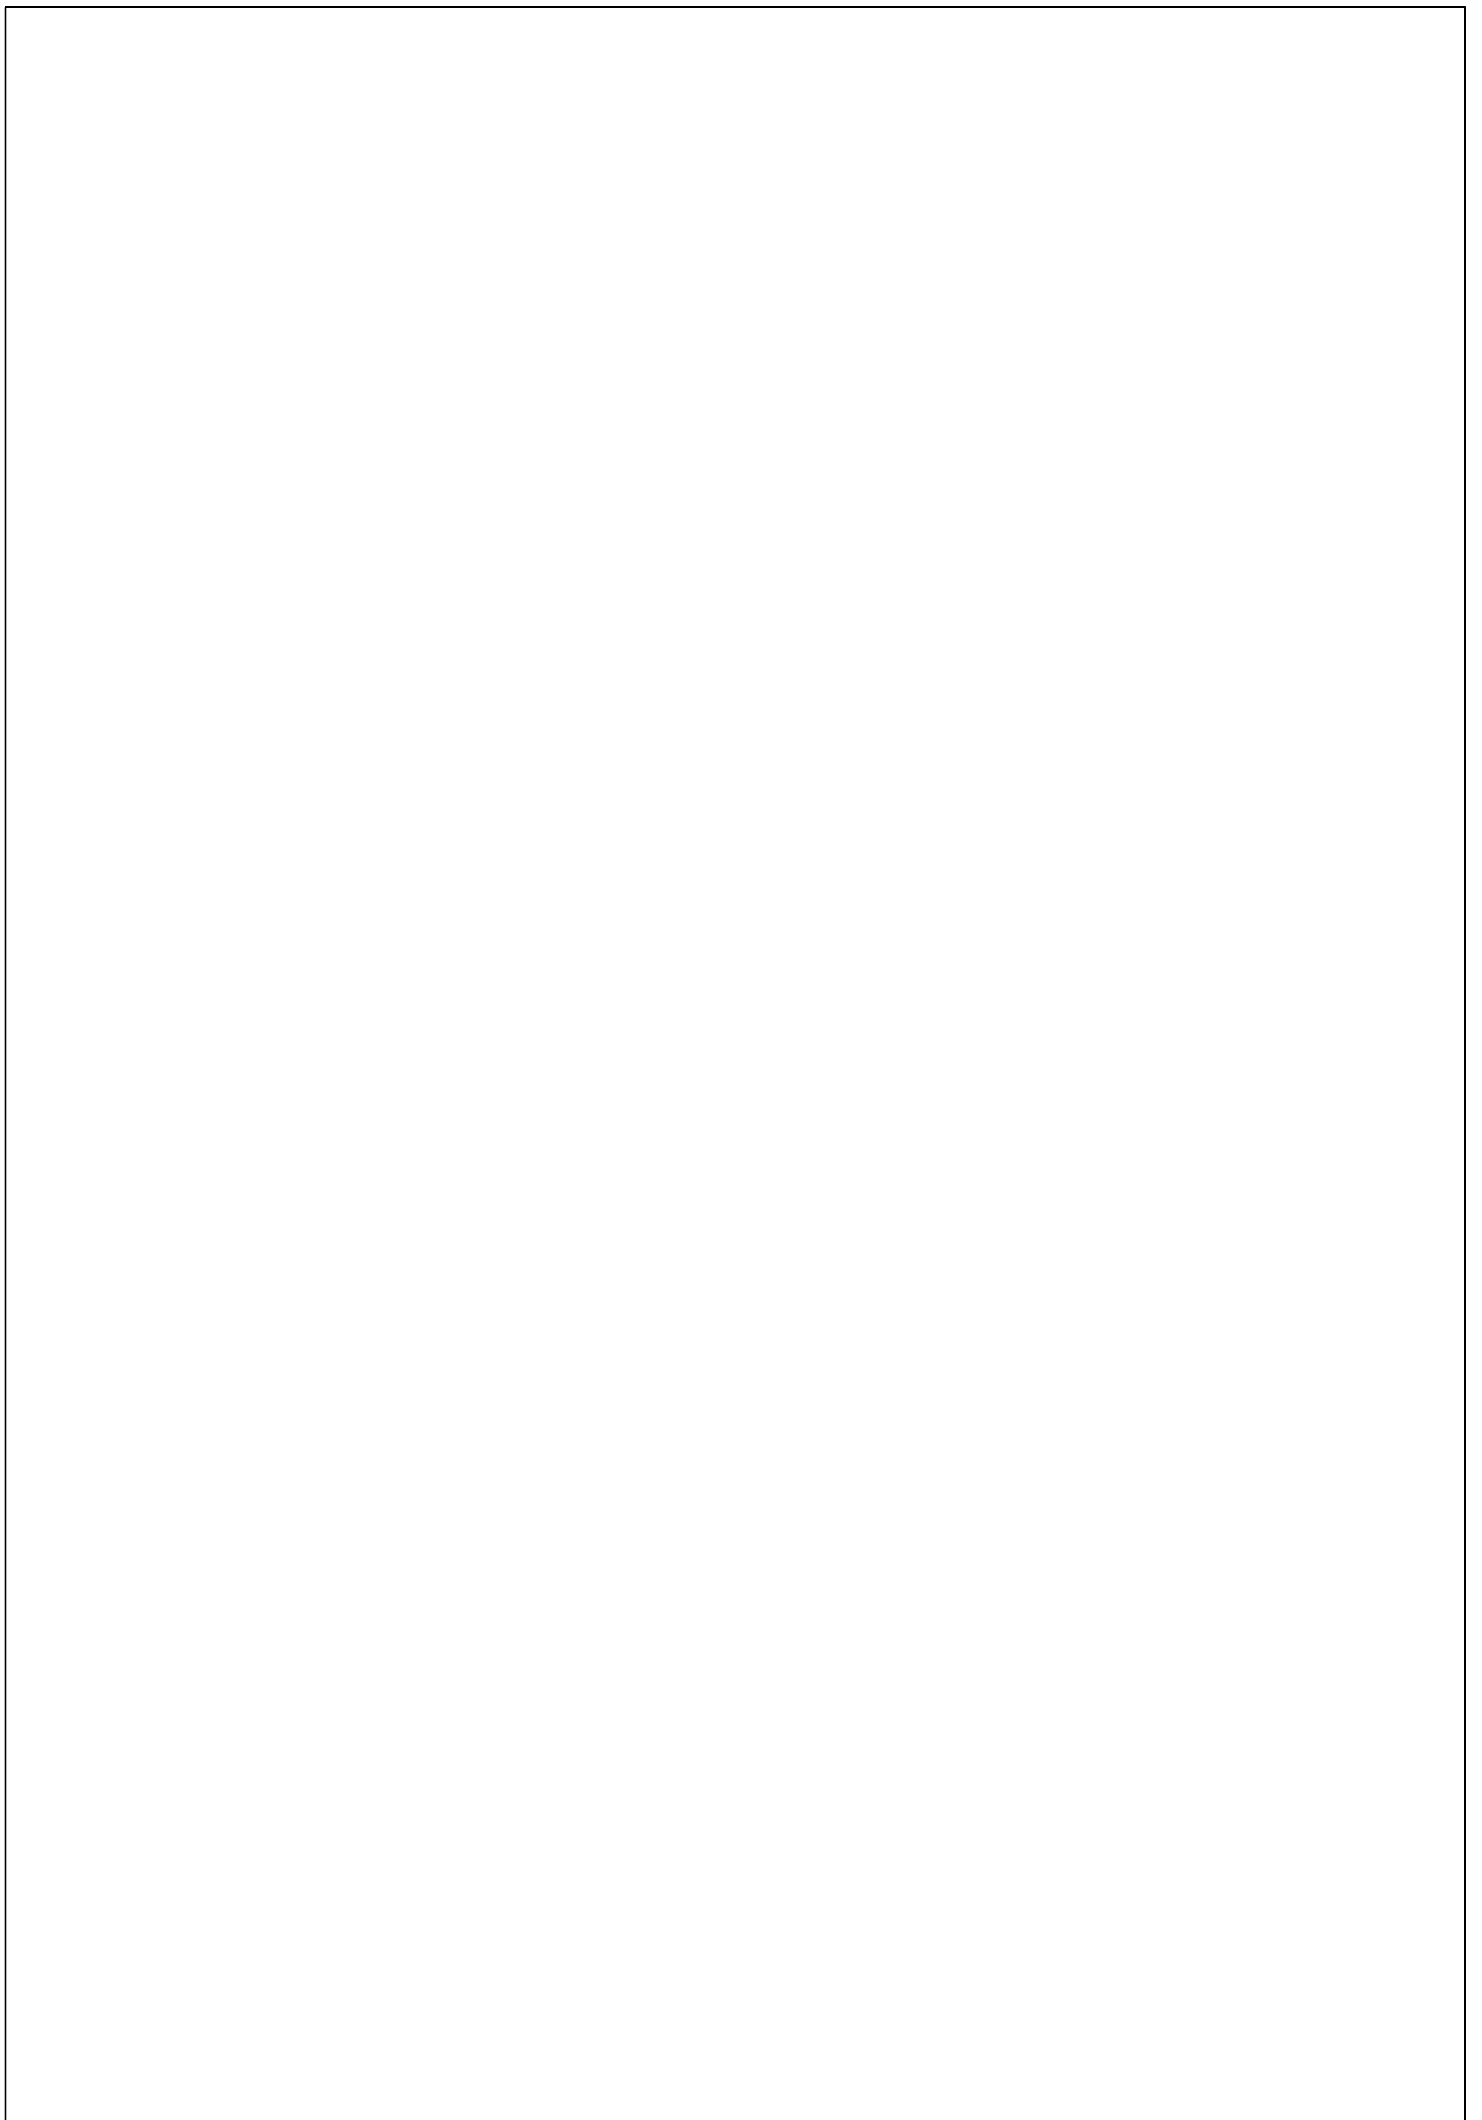

- AI services. Ready to install an AI service? Use the following information to find the steps to install each of the AI services.
- Analytics services.
- Dashboard services.
- Data governance services.
- Data source services.
- Developer tool services.
- Industry solutions services.
- Storage services.

OUTCOMES:

- Virtual field trips can **enhance students' learning**.
- Virtual field trips can **keep students more engaged**.
- Virtual field trips are **more accessible**
- Virtual field trips allow for **collaboration and connection** between different students, different classrooms, and different schools.
- Virtual field trips create pathways to **social emotional learning**.
- With a Virtual Tour, you'll be able to provide detailed information.
- A Virtual Tour is a cost effective, impressive technology that truly brands your product or service.

Department of Economics

Field Trip: 2020-21

Date: 30-08-2020

**Place: MADHUKAN SUGAR FACTORY, RAJESHWARA PURAM,
KHAMMAM DISTRICT**

Objectives:

1. To know about the manufacturing product.
2. To know about the Investment.
3. To know about marketing.
4. To know about wages of the different workers.
5. To know the socio economic conditions of industrial labour.

Permission letter

Date: 29-08-2020
Khammam.

To,

The Principal,
Government Degree College for Women,
Khammam.

Sub: - Application for field trips at Madhukan Sugar Factory, Rajeshwara Puram –
Khammam.-Reg.

I G.Aruna, Assistant Prof. of Economics, planning to field visit at Madhukan Sugar
Factory, Rajeshwara Puram, Khammam District on 30-08-2020 to know about
Manufacturing of sugar and marketing, investment etc,.

Hence, I kindly request you as above said place.

Thanking You,

Yours faithfully,

G.ARUNA,
Asst. Prof. of Economics,
GDCW, Khammam.

DEPARTMENT OF ENGLISH

FIELD TRIP

2020-2021

Place of Visit :

Reservation Counters at Railway station

Date :28/02/2021

Request letter for field visit

To
The Principal
Government Degree college for Women
Khammam

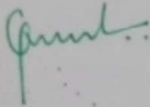

Khammam
Date : 27/02/2021

Sub : Application for field visit to Reservation Counters at Railway
Station ,Khammam -Reg.

We ,the department of English, are planning to have a field visit to
Reservation Counters at Railway Station ,Khammam on 28/02/2021 to
enlighten students about reservation forms and the columns and instructions in
English on them.

Hence we kindly request you to permit us to visit the above said place

Thanking you Madam!

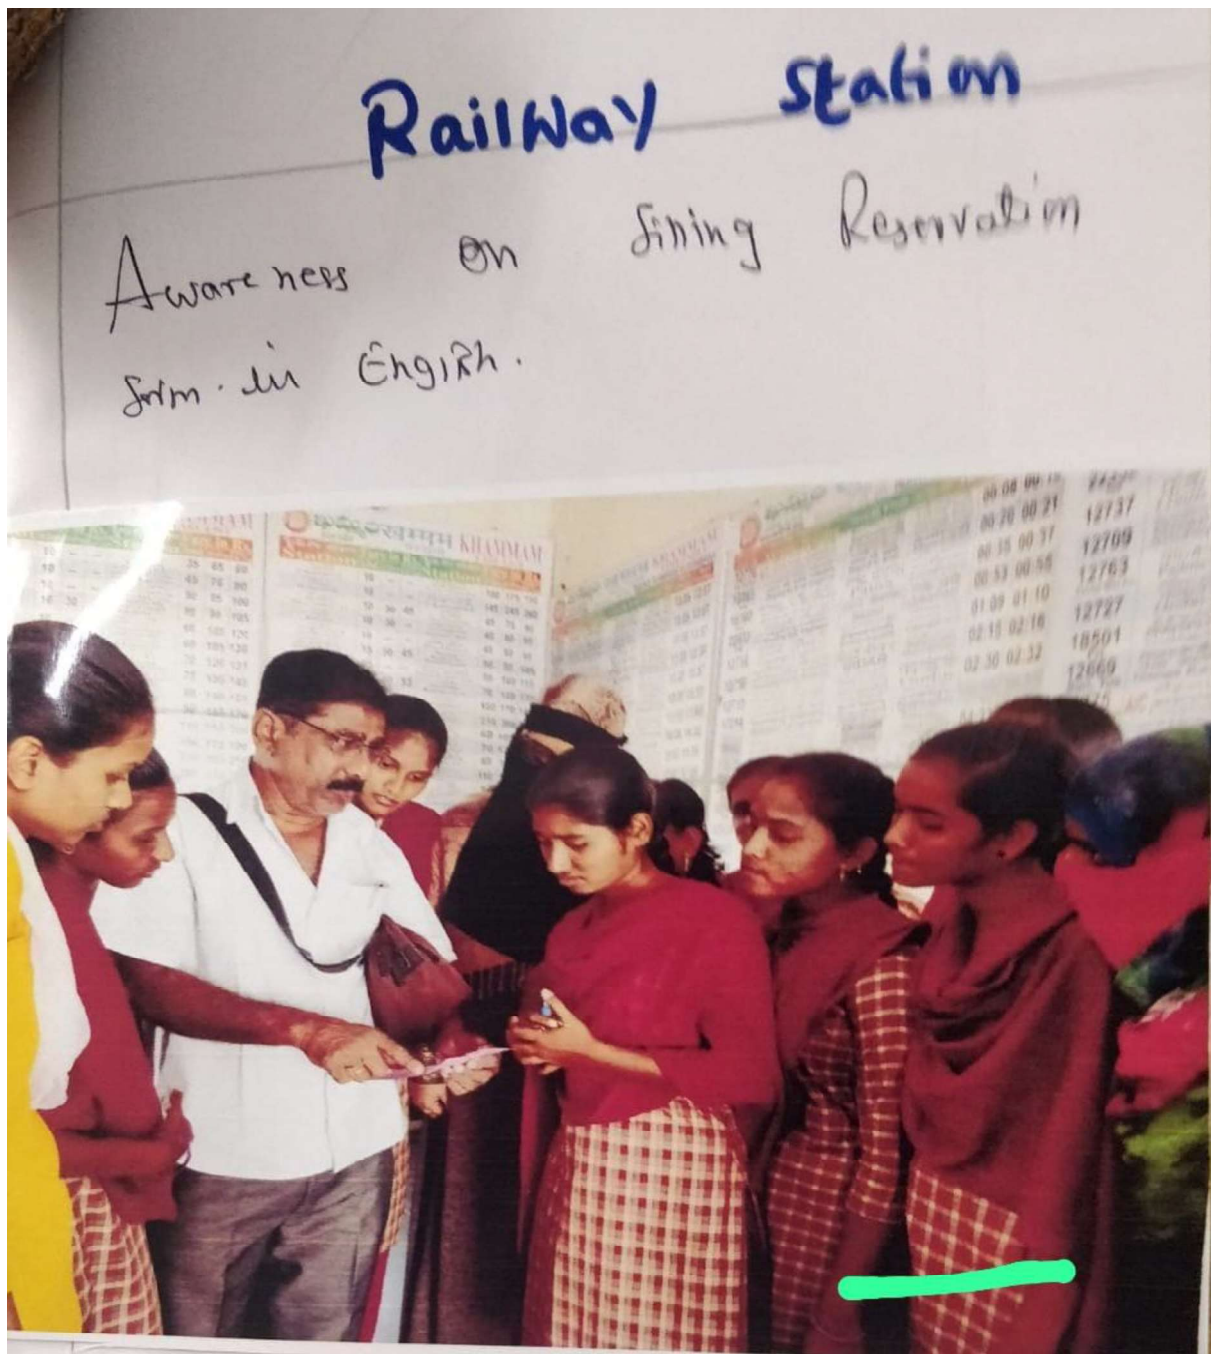

Yours faithfully,

I/C dept. of English

About the Place of Visit :

Students will become aware of :

- 1.How to fill in the reservation forms at the reservation counter
- 2.columns on the form to be filled in English
- 3.Format of the reservation forms
- 4.Importance of improving English knowledge

REQUISITION FORM

If you are a Medical Practitioner, Please Tick (✓) in Box (You could be of help in an Emergency) **Dr.**
 If you are a Pregnant Woman and want to get Berth in Quota, Please Tick (✓) in the Box, if yes Please submit certificate of
 Regd Doctor
 If you want Sr. Citizen Concession, please write YES/NO in box (If Yes, Please carry a proof of age during the journey to avoid inconvenience of changing under instant Railway Rules) (However, Senior Citizen Concession shall not be admissible to the senior citizen of foreign Nationals & NRIs.)
 Do you want to be upgraded without any extra charge? Write YES/NO in the box (If this option is not exercised, full fare paying passengers may be upgraded automatically)
 If you are travelling in SAC Class of Garib Rath Express Train or in Sleeper Class of Duronto Express Train, do you want bedroll in train? Write YES/NO in the box.

Train No. & Name: Golkonda Express Date of Journey: 9-02-20 Class: AC

No. of Berths/Seats: Two Station From: Khammam To: Guntur

Boarding at: Khammam Reservation Upto: Two day

Mobile No. 9581996424 (for PNR Status update through SMS)

S. No.	Name in Block Letters (not more than 15 letters)	Gender M/F or T(M/F)	Age	Concession/Travel Authority No.	Choice if any
1.	<u>Y. Anantha Lakshmi</u>	<u>F</u>	<u>19</u>		Lower/Upper berth Veg./Non Veg. (for Rajdhani, Shatabdi Exp. only)
2.	<u>Ch. Manusha</u>	<u>F</u>	<u>20</u>		
3.					
4.					
5.					
6.					

Children below 5 years (For whom ticket is not to be issued)

S.No.	Name in Block Letters	Gender M/F	Age
1.			
2.			

Onward/Return Journey Details

Train No. & Name: Golkonda Date of Journey: 9-02-20 Class: AC

Station From: Khammam To: Guntur

Name of Applicant: Y. Anantha Lakshmi

Full Address: Khammam (Dt) Khammam Signature of the Applicant/Representative: [Signature]

Tel./ Mob. No.: 9581996424 Date: _____ Time: _____

For Official Use Only

S. No. of Requisition: _____ PNR No.: _____ Signature of Reservation Clerk: _____
 Berth/Seat No.: _____ Amount Collected: _____

- Maximum permissible passengers are 6 per requisition. (except in case of Talkat Ticket)
- One person can give one requisition form at a time. (except in those cases involving onward and return journey of same party)
- Please check your ticket & balance amount before leaving the window.
- Forms not properly filled in or illegible forms shall not be entertained.
- Choice is subject to availability
- Passengers booked on single ticket may or may not get compact accommodation in the upgraded class.
- Pregnant women, when travelling alone can get lower berth reserved for self on first-come-first served basis against Sr. Citizen Quota.
- During the journey, one of the passengers has to produce one of the prescribed proofs of identity (in original) Talkat passenger has to produce same proof of identity as indicated on the ticket.

Field Trip Report

Field Trip to Electric Power Substation, Khammam
On
19-03-2021

Conducted by department of Physics

Department in charge: **R Praveen**

OBJECTIVE:

‘To see Layout of substation equipment in substation, Ratings and type of equipment used and also type of protection schemes use in substation. Also know different types of relays, circuit breakers used in substation’

LOCATION:

33/11 KV SUBSTATION-KHAMMAM, 507003

Incoming and outgoing lines of substation:

Khammam Substation (33/11KV) has 3 incoming lines and 5 outgoing lines.

Switch gear and protection of power system insubstation:

❖ circuit breakers

- In this substation, vacuum circuit breakers (VCB) are used. these VCBS are mounted on bushes.

Circuit breakers are used both at outgoing lines and incoming lines.

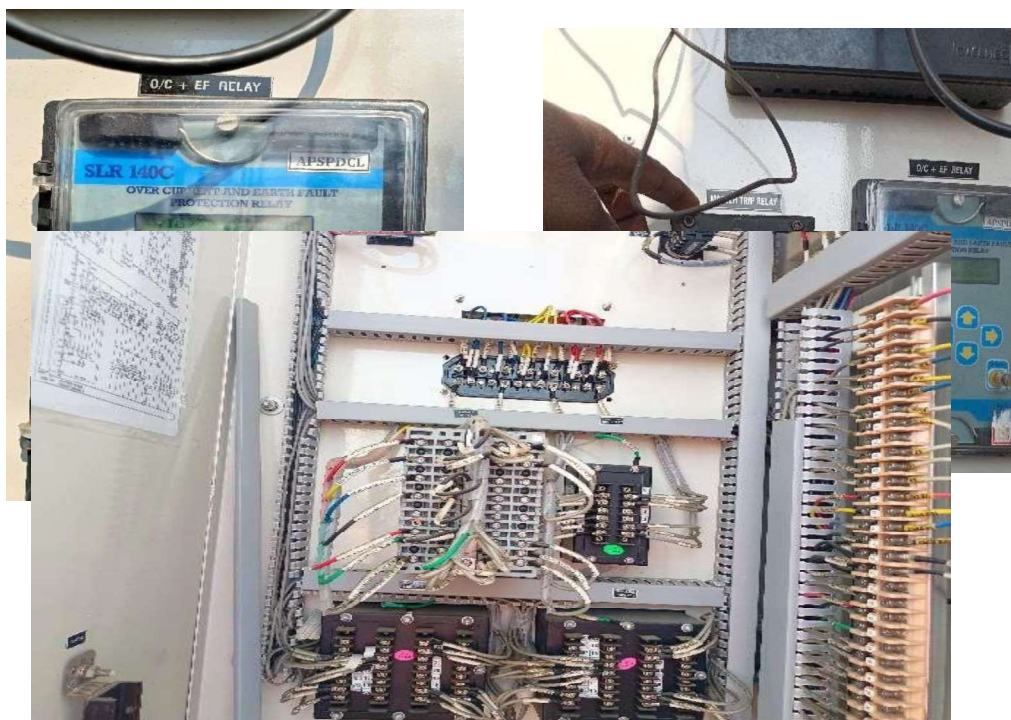

- Each individual circuit breaker is used for each feeder respectively.
- All the controls of circuit breakers are available at control room.

FIG: CIRCUIT BREAKER

❖ RELAYS

- In this substation, differential protection relays are majorly used.
- These relays are automatically operated when any kind of fault occurs.
- These relay controls are also given to control room.

LIGHTENING ARRESTORS

Lightening arrestors are used to protect the equipment against voltage surges and lightening. they are properly earthed and are provided at entry point of lines into substation and transformers.

EARTHING

Each is equipment is earthed separately using MS flat or 1.5 to 2 mm width. for substation earth resistance should be less than 1 ohm. earth pit of 6 to 8 feet, 2'x2' size is dug filled with sand, charcoal and salt. 1.5 to 2m gi pipe

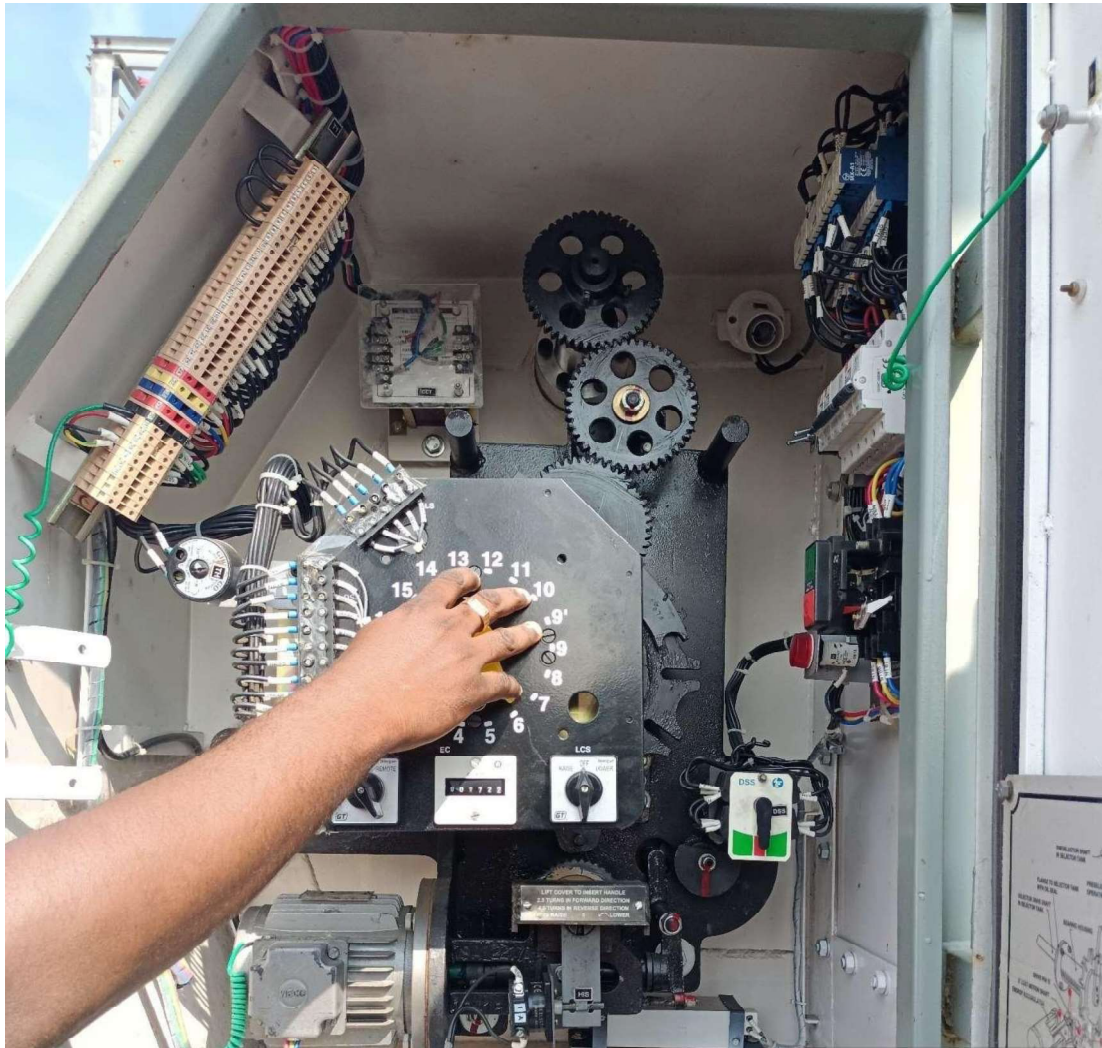

GROUND WIRE ON SUBSTATION

Grid of earth wires are provided on the top of substation structure to protect equipment from direct lightning strikes.

TRANSFORMERS USED IN SUBSTATION

- Power transformers are used in this substation of rating 5mva.
- Two transformers of rating 5mva are used to transfer power,
- step-down transformers are used here.
- A single distribution transformer is used for power supply inside the substation.
- Two transformers are used to improve the reliability of distribution. in case of failure of one transformers the other transformer supplies power (50%).

DC SUPPLY IN SUBSTATION

- Dedicated dc supply is given to all kinds of circuitbreakers used in the substation.
- If any fault occurs and ac supply is interrupted, then dc supply is used for operation of circuit breakers.

SUBSTATION YARD

- Substation yard is filled with gravel for better protection and avoid growing of plants or grass.
- Water sweepage is also provided to ground to reduce the resistance of earth.

CAPACITOR BANKING

- Capacitor banking is provided in the substation for improvement of power factor in the substation.
- As all the loads used are inductive in nature they possess lagging nature. if lagging nature is there, there will be usage of large amounts of currents.
- To compensate the lagging nature of the loads the capacitor banks are provided for improving power factor.

ISOLATORS

- Air brake switches (ab switches) are provided before and after the circuit breakers connected to system.
- For 33kv line, power flows only in one direction. hence isolators are provided before circuit breaker.
- Isolators are opened after cb breaks the current, while closing circuit breakers are closed first and then isolators are closed.
- Isolators cannot be operated on load i.e., greater than 11kv.
- But for 11kv side, ab switches can be opened or closed on load.

SUBSTATION VISIT GALLERY

CONCLUSION

- We study in detail about types of circuit breakers, types of relays used for protection of power system against faults, lightning strikes and over voltages.
- By the visit our understanding of the subject had been enhanced to next level.

GOVT DEGREE COLLEGE FOR WOMEN, KHAMMAM

**AFFILIATED TO KAKATIYA UNIVERSITY,
REACCREDITED WITH "A" BY NAAC**

FIELD TRIP TO

KINNERASAANI WILD LIFE SANCTUARY.

ON: 29.02.2020.

DEPARTMENT OF ZOOLOGY

Date: 21.09.2020.

To
The principal
GDCW Khammam,

Respected madam,

Sub:-Field visit of zoology students to KINNERASAANI WILD LIFE
SANCTUARY, KOTHAGUEDEM on 29.09.2020 -permission
req- reg.

As a part of the field trip, we would like to visit a KINNERASAANI
WILD LIFE SANCTUARY, located at KOTHAGUEDEM KHAMMAM
DISTRICT along with BZC, Zoology students, on 29th, September 2020.
Hence, we request you to permit us to visit KINNERASAANI
WILD LIFE SANCTUARY, KOTHAGUEDEM KHAMMAM district .

Thanking you madam

Yours faithfully

FIELD STUDY AT VELUGUMATLA URBAN FOREST

31.10.2019

Request Letter

Khammam,
Dt.28.10.2019.

To,

The Principal,
Government Degree College for Women,
Khammam

Sub: Request for Permission to conduct Field Visit – II year I semester
Botany students of Govt. Degree College for Women, Kmm- Reg.

This is to submit that as part of BSc. III semester Botany curriculum, (Taxonomy of Angiosperms and Families) we intended to organize a field study at Urban Forest, Velugumatla, so that our students get acquainted with plants belonging to different families.

Hence, we request you to kindly permit our Botany II year students (40 members) on 31.10.2019 to visit Urban Forest, Velugumatla.

Thanking You,

Yours Faithfully,

Dr. R. Sneha,
In Charge,
Dept. of Botany,
Govt. Degree College for Women, Khammam

PRINCIPAL
Govt. Degree College for Women
KHAMMAM.

On the Spot Pictures

Student Outcomes – Students observed variety of plants, herbs, shrubs and trees. They noted their Botanical name, common name and family with brief description. They also collected twigs with inflorescence for the preparation of Herbarium. They appreciated the harmony in biodiversity.

Feedback of Students:

Velugumatta Park is beautiful place where everyone love to go. Because it is an open place to relaxing, adventuring and playing. That's time... going with my friends it is one of my amazing trip. The park have green grass, plant and trees it's looking beautiful. That's time I'm very curious to know about the plants and we collected some botanical plants for the practical. Walking in the park, play with friends, adventuring... it's give me lots of experience and happiness. I never forgets this. After at the end we all sit on park benches for take the pictures. it's very memorable day for me. THANKYOU MAM... for making my trip absolute perfection.

Sk. Sadiya

Our Botany Lecturer Krishnaveni madam took us to field trip to the velugumatta urban park to specify the medicinal plants and to know the uses of them. We all went there and found a lot of medicinal plants, we are very excited and felt very happy and was surprised when we got to know about them, our Botany lecturer explained us about every plant in very detailed manner and we also collected them for the herbarium.

There we found lots of medicinal plants like Phyllanthus amarus, Andrographis paniculata, Emblica officinalis which used to cure hyper acidity, diabetes and withania somnifera which cures nerve disorders. not only these but we found and learnt lot of different plants there, we felt very joy in these, instead of sitting and learning in classroom the experience like field trip are very best, we collected lots of plant specimens from there, learning with happy and joy always makes us to learn easily and clearly. we all discussed everything.

after completing that we also enjoyed some games there like rope climbing, jumping and net climber which made us more happy, we also took lots of pictures there for our memories.

I really thank our Botany lecturer, Krishnaveni madam for doing this for us, we learnt lot of you cause of you only madam.

Field Visit to State Bank of India, Khammam

Field trips are a wonderful way for students to connect what they are learning in class and the outside world. The banking sector is an integral part of an economic system. In order to enable students understand how banks function, Government of Degree College for Women, Khammam organised an informative educational field trip to Statebank of India, Khammam, for the students of B.com on 20/01/2020.

The staff of Statebank of India gave detailed information about how to open an account, details required by the bank to open an account and how to fill an account opening form. Students were informed about the various types of accounts and instruments like Cheque, Demand Draft, Debit card, Credit card etc. They guided students about how to write a cheque to make payments and withdraw money using the withdrawal slip. Students were taken through various counters and the locker room. Towards the end, students were given a token of sweet and a certificate for being a part of this informative session. The objective of this activity was to create awareness and educate students on access to banking, availability of various types of services and their features and to make students understand their rights and responsibilities as customers of bank.

We hope that this learning experience of visiting the bank will go a long way in helping them. The efforts taken by the Branch Manager and the staff were appreciated.

Organized by Computer Science & Application Department on **13th September 2019.**

B.com students visited **ATM Center and Online Ticket Reservation counter** situated near our college to gain the knowledge of Transactions. The main objective of this activity was to create awareness and educate students on access to financial services (banking), availability of various types of services and their features and to make students understand their rights and responsibilities as customer of financial services.

Objectives:

1. The conduction of field trip for students is to reinforce experiential and contextual learning.
2. Students will enhance their skills and knowledge on:
 - Transferring funds between banks
 - Receiving account balances
 - Changing a pin
 - Depositing cash
 - Withdrawing money
 - Balance status
3. Field trips expose students to different lifestyles, places and eras.

Outcomes:

- Improves critical thinking skills.
- Experiential learning takes place.
- Greater bond between teachers and students.
- Student's world view is expanded.

क्षेत्र अध्ययन यात्रा का उद्देश्य

हिन्दी विभाग के विद्यार्थी क्षेत्र अध्ययन के लिए इतिहास विभाग के संग्रहालय गए थे। इसका उद्देश्य वहाँ पर स्थित पर संकलित प्राचीन घड़ों और उन पर अंकित लिपि के बारे में जानना था। इस संग्रहालय की वस्तुओं को देखने से ज्ञात हुआ कि प्राचीन काल में ही भंडारण के अनेक तकनीकों का प्रयोग किया जाता था। छोटे, बड़े, काट-छाँट करने की सामग्री आदि सुविधाजनक तरीकों से बनाई गई है। प्रागैतिहासिक युग के इन घड़ों और बर्तनों के बारे में अनेक रोचक जानकारियाँ प्राप्त हुईं। इस स्मारक में प्राचीन कन्दराओं और भित्तियों के चित्र, मिट्टी से बने रसोई घर के सामान और हँडिया आदि देखने योग्य थीं। ये सब प्राचीन संस्कृति को व्यक्त कर रही थीं— जैसे कि आत्माओं की तृप्ति, पुनर्जन्म आदि। ये सब पुरातन युग में मानव द्वारा प्रयुक्त विभिन्न तकनीकों को दर्शा रही थीं।

Feed-Back of Field Trip

हम सब स्टूडेंट घदमा रानी मैडम के साथ प्रयोज्यम देखने की गए, वहा पर बहुत सारे पुराने सामन थे। वुनको व देखे अच्छी लगी। उन सामन पर डिजाइन की देखे तो मानूस पड़ता कि पूर्वज क्या use करते।

गृह और फनर भी देखे। इधर हमो को खूब नई बात सीखने को मिला। Friends के साथ बाहर की जान भी अच्छी लगी।

इधर का कॉन्ज बहुत बड़ा है। सद्यालय की देखा तो जाने की हमारे पूर्वज लोगो को बहुत टेबनीक मानूस। सबकी ये जगह देखना है।

Field Trip to the Pond near Buddha Stupa, Nelakondapally

A.Y. 2018-19 Dt. 08.10.2018

Request Letter

Khammam,
Dt.05.10.2018

To,
The Principal,
Government Degree College for Women,
Khammam

Sub: Request for Permission to conduct Field Visit – I year I semester
Botany students of Govt. Degree College for Women, Kmm- Reg.

This is to submit that as part of BSc. I semester Botany curriculum, we intended to organize a field study at Pond near Buddha Stupa, Nelakondapally, so that our students get acquainted with POND ECOSYSTEM.

Hence, we request you to kindly permit our Botany I year students (32 members) on Monday i.e., 08.10.2018 to visit the pond near Buddha Stupa, Nelakonapally.

Thanking You,

Yours Faithfully,

Dr. R. Sneha,
In Charge,
Dept. of Botany,
Govt. Degree College for Women, Khammam

PRINCIPAL
Govt. Degree College for Women
KHAMMAM.

On Field

Student Outcomes: Students observed primary producers: grass & hydrophytes, primary consumers: tadpole larvae, small fish & other aquatic insects, secondary consumers frogs & crabs. Students learn that a pond is a fresh water ecosystem and it's a smallest structural and functional unit of nature or environment.

STUDENT FEEDBACK

Myself Shubarna, student of first degree college for women, sharing my experiences regarding fieldtrip

I had a privilege of participating in a remarkable field trip to the pond ecosystem in Nelakondapally, and I'm delighted to share my feedback

We have started in early morning, and to encourage use collector sir also joined, by 40 minutes we have reached to the Buddha stupa located in Nelakondapally.

There we have collected Algal matters, the process of collecting is so funny & informative regarding knowledge about ecosystem dynamics.

What truly made my experience to another level is the beauty of nature, sound of water, smell of soil & the freshness of trees, at that time I had understood that NATURE REALLY HEALS OUR SOUL and also understood that little things in the environment make the world so harmonious.

In conclusion, the pond ecosystem field trip is unforgettable journey of learning, exploration and appreciation.

I heartfully thanks my Lecturer P. Krishnaveni madam for taking care of us and made us understand little the importance of little things in the world

Field Trip Feedback: Buddha stupa, Nelakondapally

I had the privilege of participating in a field trip to the Buddha stupa located in Nelakondapally, Khammam district. The trip was organised as part of exploration of historical & cultural landmarks and also to explore flora species by our beloved Krishnaveni mam.

The Buddha stupa at Nelakondapally stands as a testament to rich Buddhist heritage of the region. The moment I set eyes on the Buddha stupa, I felt a sense of awe and reverence. Interacting with my fellow classmates during trip was enjoyable and our guide Ravi Kumar and Krishnaveni mam made us to learn many floral species which are native to the place. We collected some plant species, algal species from pond near the stupa.

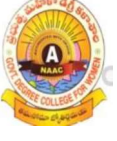

My favourite part was we had all had lunch together under the shades of trees which was pleasant experience. The trip was truly enriching experience. I am grateful for the opportunity and thankful to our guides Krishnaveni mam for being always the supporter.

Shank Narasimham, MSc.

क्षेत्र अध्ययन यात्रा -“ History Museum”

SR&BGNR Govt. Degree College Khammam-25.03.2019

क्षेत्र अध्ययन का उद्देश्य :

हिन्दी विभाग के विद्यार्थी क्षेत्र अध्ययन के लिए इतिहास विभाग के संग्रहालय गए थे। इसका उद्देश्य वहाँ पर स्थित पर संकलित प्राचीन घड़ों और उन पर अंकित लिपि के बारे में जानना था। प्रागैतिहासिक युग के इन घड़ों और बर्तनों के बारे में अनेक रोचक जानकारियाँ प्राप्त हुईं। इस स्मारक में प्राचीन कन्दराओं और भित्तियों के चित्र, मिट्टी से बने रसोई घर के सामान और हँडिया आदि मिलीं। ये सब प्राचीन संस्कृति को व्यक्त कर रही थीं—जैसे कि आत्माओं की तृप्ति, पुनर्जन्म परिवार का आपसी प्रेम आदि। ये सब पुरातन युग में मानव द्वारा प्रयुक्त विभिन्न तकनीकों को दर्शा रही थीं

छात्रा द्वारा व्यक्त अनुभव :

संज्ञा
स्मारक में मेरी अनुभूति

25/3/2019

हमें हमारे कलाशाला से एक दिन SR & BGNR कलाशाला में भूमिगत को लेगये। वहाँ हमारे पूर्वजों का बारे में बताया है। वहाँ हमें नयी अनुभूति मिला। मैं ओ पूरा देखको अच्युत चकित हुआ। वहाँ पानी का अनेक वर्तन, खड़ा, विविध मिट्टी की पात्रा हैं। कुछ मिट्टी घडे के ऊपर विचित्र का अंकन और कुछों का ऊपर डिसेन हैं। वहाँ हमने बहुत नया विषयों को सीखलिया। हमारे पूर्वजन लोगों ने भावि पीढी का सीखदिया। कुछ स्मृति को छोड कर गये। पूर्वज समय से उनलोगी ने पत्तों पर, उनलोग निस्सिन हुए गृही पर कुछ लिखा अंकन हैं। सब विषय आजकी से लगा है। मेरी दोस्तों से मिलकर ओ पूरा देखना सीखलेना बहुत अतोष लगा। एक नया अनुभूति मिला। एक कबीली नही बुन सकती। वहाँ अनेक विषयों के सीखलेनी ही नही हमारे आजपास अनजाने विषयों को सीखना चाहिए।
