6.4.3: Institutional strategies for mobilization of funds and the optimal utilization of resources for the period 2022-2023

Strategies for mobilization and utilization of resources:

The annual plan is prepared aligning with the institutional perspective plan which is placed before the HOI for deciding on the resources needed policy interventions and mechanisms etc.

The allocation of the financial resources is planned by the staff council of the college. The plan and the budget allocation placed before the Government council for consideration and approval.

The implementation as well as utilization of resources undertaken through the well defined procedure and internal control system laid down. Through regular meetings of the staff council the governing body will monitor the implementation of the plan. The financial audit and the internal audit will act as effective control systems.
