A Text Book of

Research Methodology

- A Perspective

Dr. Kuparala Venkata Vidyasagar, working as a Lecturer in the Department of Mathematics, SVLNS Government Degree College, Bheemunipatnam has about 22 years of teaching experience. He received his Ph.D. degree from Dr.B.R.Ambedkar University, Hyderabad. He has published 18 research papers in UGC care listed (Group I & Group II) both National and International journals and 12 research papers in the proceedings of various international conferences. He has received several best paper awards for his research papers at various international conferences. His areas of research include Complex analysis, Boundary Value Problems, Modeling and Near Rings.

Dr. T. Rajani working as an Assistant Professor at VNR Vignana Jyothi Institute of Engineering and Technology (VNRVJiet), Hyderabad from the year 2012. She worked in various institutes with all academic and co-curricular responsibilities. She has 19 years of teaching experience. She has been actively involved in the research since 2011 in Nanoscience and Technology. She attained her Ph.D in Nanoscience and Technology from JNTU, Hyderabad in the year 2017 and M.Sc. (Physics) from Andhra University in the year 2000. Her research work is on synthesis and characterization of Nano ferrite composites. Her research interests mainly focuses on Nano semi-conductors, Nano Materials, Nano ferrites and Nano ferrite Composites and their structural, morphological, spectroscopic, magnetic and electrical studies. Published papers, book chapters in reputed international scopus indexed journals and participated in various workshops, presented papers at various national, regional, international conferences. Associated as a member in various societies ISTE, MRSI, and IANN. Received award from VIWA-2018 for the contribution in teaching and research. Contributed as Reviewer for Journals of Alloys and Compounds (JALCOM), Composites Science and Technology- Elsevier publications. Apart from teaching, she has facilitated students by organizing one-day seminars, academic guest lectures, two-day workshops for Engineering students in Physics, Nanoscience and technology and e-Symposium Materials for Energy and Energy storage for both faculty and students.

Ms. CH. Vidya working as an Assistant Professor in the Department of Biochemistry, Government City College, has about 9 years of teaching experience. She completed M.Sc. Biochemistry with distinction from Osmania University, Hyderabad. She qualified Joint CSIR-UGC NET (CSIR-JRF awardee) and pursuing Ph.D. in the Department of Biochemistry, Osmania University, Hyderabad. She underwent various Faculty Development Programmes, participated and presented research papers in National and International Conferences. Her areas of research include Mycotoxicology and Enzymology.

Ms. Chandrakanth working as an Assistant Professor in the Department of Physics, Government Degree College, Khammam Government of Telangana has 13 years of teaching experience. She received her M.Sc. Degree in Physics with distinction and received one of the gold medals during her post-graduation from University of Hyderabad (UoH), Hyderabad. She has been awarded CSIR-JRF fellowship and qualified UGC-NET and pursuing Ph.D. She has empowered thousands of students in various fields like skill orientation, placements, and study projects. Her guided students were awarded 1st prize and many other prizes at state level in different research study projects organized by the CCE, Government of Telangana. She has participated and presented research papers in the proceedings of various international and national conferences. Her core areas of research include photo-luminescence studies of rare earth doped phosphors. She has extensively participated and trained in multiple FDPs in MOOCs. She is skillful in handling ICT tools in teaching and research methodologies.

Acknowledgements

Writing a book of this magnitude would not have been possible without the support, guidance, and contributions of numerous individuals and organizations. We would like to express our sincere appreciation to all those who have helped make this book a reality.

First and foremost, we extend our heartfelt gratitude to the researchers, scholars, and educators who have made significant contributions to the field of discrete mathematics. Their ground breaking work and dedication have paved the way for the knowledge and concepts presented in this book.

We are immensely thankful to the reviewers and experts who provided valuable feedback and insights during the development of this book. Their careful scrutiny and thoughtful suggestions have greatly enhanced the quality and clarity of the content.

We would like to extend our appreciation to the editorial team and staff at the publishing company for their support and guidance throughout the publishing process. Their professionalism, expertise, and attention to detail have been instrumental in shaping this book.

A special thanks goes to our colleagues and students who have provided input, shared their experiences, and offered their perspectives. Their enthusiasm and engagement have been a constant source of motivation and inspiration.

We are grateful to the educational institutions that have provided an environment conducive to research and learning. The resources, facilities, and academic communities have played a significant role in our development as mathematicians and authors.

Finally, we would like to express our deepest gratitude to our families and loved ones. Their unwavering support, patience, and understanding have been invaluable throughout this journey.

To all those mentioned above and to anyone who has played a part, no matter how big or small, in the creation of this book, we extend our sincerest thanks. Your contributions have helped shape this work and have made a lasting impact on its contents.

Thank you. I wish to thank the publishers and finally, to all.

CHAPTER

Meaning and Scope of Accounting

INTRODUCTION

All of you at one point of time would have visited a grocery shop or a medical shop. You might have wondered how the business person maintains the record of all the transactions done during a particular period of time say a year. You might have also thought why he or she has to maintain a record, how is it beneficial and whether it is mandatory or not? As against this, imagine the role of a business organization. They provide goods that might range from simple safety pin to fighter air crafts. Those who are in service industry provide various services such as transportation services, hospitality services, developing complex software programmes etc.

To make sound decision, a business enterprise need accounting information. This information is also needed by government agencies, regulatory bodies, analysts and individuals at various point of time and at different levels.

Accounting is perhaps one of the oldest and structured management information system. It has evolved in response to the social and economic needs of society. Accounting as an information system is concerned with identification, measurement and communication of economic information of an organization to its users who may need the information for rational decision making. The accounting system is a means to provide relevant and reliable financial information to all the interested parties.

Each and every person of the society is required to keep some accounts. In the stream of social and economic activities of today, each and every person or institution is accountable to someone or to other for his or its economic activities or the wealth acquired, income earned and the expenditure incurred. Different types of transactions occur in business. Without maintaining proper accounts, it is neither possible to ascertain profit or loss of the business nor to know the financial position of the business at any particular date. This chapter will describe meaning, evaluation, scope and objects of financial accounting. It also discusses importance and uses of accounting in daily life. Let's go through the entire chapter and know introduction to financial accounting.

Definition of Accounting

Accounting is both the science and art of correctly recording in books of accounts all those business transactions that result in the transfer of money or money's worth. It may also be defined as the art of recording merchantile transactions in a regular and systematic manner; the art of keeping accounts in such a manner that a man may ascertain correct result of his business activities at the end of a definite period and also can know the true state of affairs of his/her business and properties by an inspection of his/her books.

Accounting has been defined as, "the art of recording, classifying and summarizing in a significant manner in terms of money, transactions and events which are, in part at least, of financial character, and interpreting the results thereof." This definition has been given by the AICPA.

About the Authors

Dr. V. Prabhakar is an Associate Professor in Government Degree College Khairatabad Hyderabad and dealing with Commerce for the UG and PG students. He holds a Doctoral degree (Ph.D) from Osmania University, Hyderabad and several other educational qualifications in the areas of commerce. He has vast experience in educational institutions in Teaching, Research and Administration. He has published several research papers in indexed journals and has presented in National and International Conferences.

He is also involved with lot of community service programs at and off campus. With his enthusiasm and lively disposition, he is able to guide, inspire and encourage students to participate in innumerable student activities. Apart from teaching he has also delivered lectures on various topics pertaining to commerce related issues at different places in India.

Prof. Dr. Gujar Anantkumar Jotiram, currently working as Professor in Department of Mechanical Engineering at D. Y. Patil College of Engineering and Technology, Kolhapur, Maharashtra. He holds M. E. (Mechanical-Production Engineering) from Government College of Engineering Karad and Ph. D. (Mechanical Engineering) from Government College of Engineering Amravati under SGB Amravati University Amravati, Maharashtra. His Research interests include Mechanical Engineering and Production Engineering, Supply Chain Management and Operations Management. He has more than 26 years of teaching experience for undergraduate and Post Graduates courses.

Prof. Dr. Venkata Vara Prasad Rao Pogadadanda is currently working as Professor in Management at Mangalayatan University-Aligarh, Uttar Pradesh. He holds Master Degree in Management and Ph.D (HRM) from Acharya Nagarjuna University, Guntur, Andhra Pradesh. He has vast experience in Management, Research and Administration especially NAAC accredited institutions like 12B, ICAR, NBA etc. He has around 33 years experience which includes administrative experience in Bharatiya Reserve Bank Note Muran Limited, Tata Cancer Hospital-Mumbai.

Mr. Rishi Kumar Prajapati, currently working as Assistant Professor in Department of Mechanical Engineering at Faculty of Engineering and Technology, Gurukul Kangri (Deemed to be University), Haridwar, Uttarakhand. He holds M.Tech. (Production Engineering) from M.I.T.S. Gwalior (M.P.) Under R.G.P.V. Bhopal. His Research interests include Mechanical Engineering and Production Engineering.
