DEPARTMENT OF ZOOLOGY

Author of the Book

The Staff of Zoology Department, B.Ravinder Rao, Assistant Professor of Zoology has been one of the Author of Book “Bony Fishes of South Asia: A Pictorial Handbook”.

ISBN: 978-93-58999-26-6

Elite Publishing House

Bony Fishes of South Asia A Pictorial Handbook

LAXMAPPA BOINI • RAVINDER RAO BAKSHI

This book covers the bony fishes of the major freshwater, brackish water and marine resource groups in South Asia. Each species in the families is arranged alphabetically by genus and species names. Species account includes the species scientific name, an illustration, common name(s), synonyms, family name, habitat, distribution, and notes on identification characters, size and economic value. It also covers IUCN Status of the species. This unique and comprehensive reference showcases the basic anatomy and diversity of about 801 bony fishes of the most commonly encountered families, focusing on their distinctive features. This book concludes with species check-list, and its own index of families, scientific and common names. This is an indispensable guide to the diversity of the marine, brackish water and freshwater bony fish species in South Asian region. This book is an indispensable reference for researchers, conservationists, professional and recreational fishers, and anyone interested in the unique aquatic fish biodiversity of South Asia.

FLORA OF TELANGANA

The Telangana state has been intensively explored by the first author and his scholars for plant wealth during the last 40 years and the second author for the last 12 years. All the herbaria in India have been consulted for the specimens of Telangana. The first volume includes Introduction, Topography and General features, Forests and Vegetation, Past and Present work, Key to the families and systematic enumeration of families Ranunculaceae to Alangiaceae. The second volume includes families Rubiaceae to Ceratophyllaceae and third volume Monocotyledons. Bentham and Hooker's system of classification has been followed in the enumeration of families with certain exceptions to accommodate recent changes. A dichotomous indented key is given for families, genera and species. A total of 2268 taxa belonging to 2222 species, under 898 genera and 155 families have been enumerated.

Prof. T. Pullaiah, is a former Professor at the Department of Botany at Sri Krishnadevaraya University, Anantapur in Andhra Pradesh, India, where he has taught for more than 35 years. He has authored 73 books, edited 42 books, and published over 330 research papers. Professor Pullaiah received his PhD from Andhra University, India, attended Moscow State University, Russia, and worked as Post-Doctoral Fellow during 1976-1978.

Dr. B. Sadasivaiah, obtained his M.Sc and Ph.D. (2009) degrees in Botany from Sri Krishnadevaraya University, Anantapur, Andhra Pradesh. Later he worked as Research Associate in the same University during 2010-2011. He was selected as Assistant Professor of Botany by APPSC and was appointed at Government Degree College (Men), Wanaparthy, Mahabubnagar District in 2011. He published 1 book and 60 research articles, including 6 new species. He bagged 'K.S. Manilal Award' from Sri Venkateswara University, Tirupati in 2008, 'Young Scientist Award' from Government of Andhra Pradesh, 'Best Teacher' and 'Best Conservator Award' from Government of Telangana in 2020 and 2023 respectively. Presently he is working at Department of Botany, Dr. B.R.R. Government Degree College, Jadcherla, Mahabubnagar District, Telangana State where he established Telangana Botanical Garden, Telangana State Herbarium (TBGH) and Biodiversity Research & Education Center. He completed more than 7 major and minor Research Projects from various funding agencies.
