Flexibility in Course Structure for Individual Learning Styles	2	8	10	80
Integration of Emerging Trends and Technologies	1	7	13	79

For the academic year 2022-23, feedback from 100 alumni reveals insightful perspectives on various educational attributes, using a scale from "Strongly Disagree" (1) to "Strongly Agree" (4). A significant portion of respondents showed a positive outlook towards the curriculum's relevance to real-world applications, with 74% strongly agreeing that what they learned is applicable outside the classroom. This sentiment is echoed in the depth of core concepts and practical skills applicable to professional life, with 77% and 81% strongly agreeing, respectively, indicating a strong foundation and practical utility of the skills taught.

The effectiveness of practical labs/projects and the clarity of learning objectives also received high praise, with 79% strongly agreeing on both counts, suggesting that hands-on experiences and clear goals are well-integrated parts of the curriculum. Additionally, the flexibility of the course structure to accommodate individual learning styles was appreciated by 80%, highlighting the program's adaptability to diverse student needs. Similarly, 79% strongly agree on the integration of emerging trends and technologies, indicating the curriculum's forward-looking approach.

The feedback underscores a positive reception of the curriculum's practical relevance, comprehensive coverage of core concepts, and adaptability to current trends and individual learning preferences, showcasing a well-rounded and effective educational experience.

ALUMNI FEED BACK ANALYSIS

2020-21

(Taken on 4 Scale-1- Strongly Disagree /2- Disagree /3- Agree /4- Strongly Agree)

100 Responses

ATTRIBUTE	Strongly Disagree	Disagree	Agree	Strongly Agree
Relevance of Course Content to Real-world Applications	0	1	15	84
Depth of Coverage in Core Concepts	0	2	11	87
Applicability of Skills Learned to Professional Life	1	2	10	87
Effectiveness of Practical Labs/Projects	2	2	12	84
Clarity of Learning Objectives and Outcomes	1	1	9	89
Flexibility in Course Structure for Individual Learning Styles	2	2	7	89
Integration of Emerging Trends and Technologies	0	3	8	89

The feedback from 100 alumni for the academic year 2020-21 showcases overwhelmingly positive responses across various

aspects of the educational program. A significant majority, 84%, strongly agree that the course content is highly relevant to real-world applications, with only a small fraction, 15%, merely agreeing, indicating the program's success in aligning academic learning with practical needs.

The depth of coverage in core concepts is applauded, with 87% of respondents strongly agreeing that the program thoroughly addresses core areas of study, underscoring the curriculum's comprehensiveness. The applicability of skills learned to professional life is also rated highly, with 87% strongly agreeing, reflecting the program's effectiveness in preparing students for their careers.

The practical labs and projects' effectiveness received strong agreement from 84% of participants, highlighting the value of hands-on experience. Clarity in learning objectives and outcomes is another area of strength, with 89% strongly agreeing, suggesting clear communication of educational goals.

Flexibility in the course structure to accommodate individual learning styles is recognized by 89% of the respondents, pointing to the program's adaptability. Moreover, the integration of emerging trends and technologies is strongly agreed upon by 89%, indicating the curriculum's responsiveness to evolving industry demands.

The feedback portrays a highly positive view of the program, emphasizing its relevance, comprehensiveness, practical applicability, and adaptability to individual needs and technological advancements.

ALUMNI FEED BACK ANALYSIS

2019-20

(Taken on 4 Scale-1- Strongly Disagree /2- Disagree /3- Agree /4- Strongly Agree)

85 Responses

ATTRIBUTE	Strongly Disagree	Disagree	Agree	Strongly Agree
Relevance of Course Content to Real-world Applications	1	3	10	71
Depth of Coverage in Core Concepts	2	1	6	76
Applicability of Skills Learned to Professional Life	1	2	8	74
Effectiveness of Practical Labs/Projects	1	3	12	69
Clarity of Learning Objectives and Outcomes	1	1	10	73
Flexibility in Course Structure for Individual Learning Styles	1	1	8	75
Integration of Emerging Trends and Technologies	2	1	9	73

The alumni feedback for the 2019-20 academic year, gathered from 85 responses, reveals positive perceptions across various

educational aspects. The relevance of course content to real-world applications is highly regarded, with approximately 83% of respondents strongly agreeing and around 12% agreeing, indicating that the majority perceive the course content as highly applicable and beneficial for real-world scenarios.

The depth of coverage in core concepts is also praised, with around 89% strongly agreeing, suggesting that the courses adequately cover essential topics in depth. Similarly, the applicability of skills learned to professional life is recognized by 87% of the respondents, highlighting the program's effectiveness in preparing students for their careers.

The effectiveness of practical labs/projects is acknowledged by 81% of participants, demonstrating the value of hands-on learning experiences provided. Clarity in learning objectives and outcomes is confirmed by 86% of alumni, indicating well-defined and communicated educational goals.

Flexibility in course structure to accommodate individual learning styles is appreciated by 88% of respondents, reflecting the program's adaptability to different learners. The integration of emerging trends and technologies is strongly agreed upon by 86%, showing the curriculum's alignment with current industry developments.

This feedback suggests that the alumni highly value the program's relevance, comprehensiveness, practical application, and responsiveness to technological advancements, demonstrating its effectiveness in equipping students with the necessary skills and knowledge for their professional lives.
